

This architectural site plan illustrates the layout of a composting plant. The central feature is a large rectangular area labeled 'CAPANNONE ex MVA' (former warehouse), which is divided into three horizontal sections numbered 1, 2, and 3. To the right of this area is a long, narrow strip labeled 'IMPIANTO DI COMPOSTAGGIO FORSU' (FORSU composting plant). The plan includes various annotations such as 'Ae n° 1', 'Ae n° 2', 'Ae n° 3', and 'Ae n° 4', likely indicating specific areas or features. It also shows a 'Linea di ancoraggio orizzontale flessibile' (flexible horizontal anchoring line) and a 'Bordo protetto Parapetto h: 1.20' (protected edge parapet h: 1.20). The drawing is a technical architectural plan with dimensions and labels in Italian.
