

Technical drawing of the irrigation system layout for the 'Giardino esterno' (external garden). The plan shows the distribution network with various pipe sizes (1x32mm, 1x25mm, 1x20mm, 1x16mm) and flow rates (3L/h, 4L/h, 5L/h, 6L/h). It includes a central manifold (Centrale Irrigatori Automatici) and a water meter (Q.Clima). The layout is divided into sections by dashed lines, with specific components labeled for each section.
