SviluppoCampania

Premessa al piano triennale

Lo sviluppo del piano, in linea con gli orientamenti strategici e la mission aziendale, si pone in continuità con quello redatto per il triennio 2024-2026 e oggi in fase di attuazione. Il Piano contempla i nuovi progetti in fase di acquisizione dalle competenti Direzioni Regionali oltre alle commesse già affidate.

Le strategie di sviluppo del piano prevedono lo sviluppo di Strumenti Finanziari cui si affiancano attività di "assistenza tecnica" espletate per conto delle diverse Direzione Regionali, con tipologie di attività che contemplano il supporto alle strategie di comunicazione per i vari Fondi di sviluppo; le iniziative rivolte al supporto per la gestione di incentivi e/o alle fasi prodromiche per la concessione ed erogazione delle agevolazioni da parte della Regione.

Ulteriori filoni di attività riguardano gli interventi rivolti alle politiche attive del lavoro, le politiche giovanili, le iniziative per il sostegno e la promozione delle eccellenze campane, il piano per la valorizzazione il rafforzamento e l'apertura dell'ecosistema regionale per la ricerca e l'innovazione.

Altresì, in coerenza con quanto previsto dallo Statuto societario, l'azienda intende inoltre rafforzare la propria partecipazione attiva all'ecosistema digitale regionale, contribuendo ai processi di diffusione, consolidamento e innovazione delle tecnologie informatiche. Tale partecipazione si pone l'obiettivo di valorizzare il ruolo dell'azienda quale soggetto abilitante delle politiche regionali in materia di trasformazione digitale, favorendo forme di collaborazione istituzionale e progettuale finalizzate a ridurre il digital divide sul territorio regionale, promuovere l'accesso equo ai servizi digitali e sostenere lo sviluppo di competenze tecnologiche diffuse.

In questo quadro di crescita tecnologica, assume particolare rilevanza la Strategia per una Quantum Valley in Regione Campania, programmata con la Deliberazione della Giunta Regionale (DGR) n. 245 del 04/05/2023 e consolidata dalla DGR n. 292 del 16/06/2024. L'intervento, finanziato per circa 100 milioni di euro a valere sul PR Campania FESR 2021-2027, mira a creare un'infrastruttura quantistica d'avanguardia presso il campus dell'Università di Salerno. In tale ambito, Sviluppo Campania è stata individuata quale soggetto deputato alla gestione dell'infrastruttura e al supporto operativo dell'ecosistema, garantendo la resilienza e la scalabilità dei servizi cloud e di calcolo avanzato connessi.

In continuità con quanto già effettuato in precedenza la Società continuerà a promuovere nuovi strumenti di *alternative finance*, nella consapevolezza che il contesto imprenditoriale territoriale debba sempre più confrontarsi con nuove opportunità di accesso al mercato dei capitali.

Al ruolo cruciale degli SF (Strumenti finanziari), nel contesto della programmazione dei fondi per il periodo 2021-2027 si affianca il nuovo assetto organizzato, al momento in fase di definizione, al fine di rendere maggiormente efficiente la gestione, unitamente alla possibilità di assumere il ruolo di Organismo Intermedio.

Esame delle conseguenze derivanti dall'applicazione della normativa

Si illustrano di seguito le conseguenze derivanti dall'applicazione della normativa richiamata:

CONTENZIOSO GIUSLAVORISTICO

1. dipendenti di SVILUPPO ITALIA CAMPANIA non inclusi nel contratto di cessione di ramo d'azienda che hanno avanzato le loro pretese ad essere assunti e che sono risultati vincitori nei diversi gradi di giudizio e che pertanto Sviluppo Campania ha dovuto assumere dato il carattere di esecutività delle sentenze e ai quali è stato necessario pagare anche le retribuzioni pregresse;

2. dipendenti di CAMPANIA INNOVAZIONE non transitati e risultati vincitori nei diversi gradi di giudizio e che pertanto Sviluppo Campania ha dovuto assumere dato il carattere di esecutività delle sentenze e ai quali è stato necessario pagare anche le retribuzioni pregresse;
3. dipendenti di EFI S.p.A. in liquidazione risultati vincitori di giudizi in corso per il riconoscimento della natura di dipendenti che è stato necessario assumere e ai quali è stato necessario pagare anche le retribuzioni pregresse;
4. dipendenti di DIGIT CAMPANIA in liquidazione risultati vincitori di giudizi in corso per il riconoscimento della natura di dipendenti che è stato necessario assumere e per i quali la società è stata condannata a pagare le retribuzioni pregresse.

Esiste, infine, un potenziale contenzioso per le modalità di transito adottate in esecuzione della Legge 15/2013 dalle diverse partecipate regionali e dal personale di Sviluppo Italia Campania, inquadrato nei livelli più bassi e con contratti part- time. Tale ultima criticità, ultima solo in ordine cronologico, ha imposto sin dal 2015 una lunga trattativa con i sindacati per l'armonizzazione delle posizioni lavorative ancora non giunta a conclusione al fine di contenere il numero di contenziosi azionabili.

INCUBATORI

La società ha ottenuto la gestione degli incubatori di Marcianise (CE), Pozzuoli (NA), Salerno (SA) a seguito della sottoscrizione di un contratto di comodato d'uso gratuito che prevedeva che i costi relativi alla manutenzione ordinaria fossero a carico di Sviluppo Campania e quelli relativi alla manutenzione straordinaria, oggi, a carico di Invitalia Partecipazioni S.p.A.

Allo scadere della convenzione Invitalia si rifiutava di riprendere gli immobili; pertanto, è stato deciso di aprire un contenzioso per la restituzione dei tre immobili attraverso la nomina di custodi giudiziari.

Nel mese di luglio 2019, per poter mettere fine ad un contenzioso che generava solo ulteriori costi è stata firmata con Invitalia partecipazione spa una transazione che prevedeva la riconsegna degli immobili in questione. Tuttavia, ad oggi è stato possibile consegnare solo l'immobile di Marcianise, per cui restano ancora a carico di Sviluppo Campania gli immobili di Pozzuoli e Salerno con i relativi oneri.
Invitalia in relazione a questi immobili lamenta la sussistenza di danni correlati al degrado dei compendi immobiliari le cui condizioni sono risultate peggiori rispetto allo stato dei luoghi al momento della loro consegna a Sviluppo Campania.

Successivamente alla consegna dell'immobile di Marcianise, Invitalia Partecipazioni ha promosso ricorso ai sensi degli art. 696 e 696 bis cpc al fine di disporre un accertamento tecnico preventivo per verificare lo stato dei luoghi dell'immobile di Marcianise, i danni rilevati e determinare i danni rilevati e i crediti risarcitori. All'esito del procedimento Invitalia Partecipazioni per il tramite del suo legale provvedeva a richiedere la somma di euro 2.726.428,53 oltre IVA, oneri di progettazione nella misura del 10% salvo altro da quantificare, così come precisato nella relazione del CTU. Sviluppo Campania nel settembre 2023 ha

riscontrato la nota dell'Avvocato di Invitalia Partecipazioni rappresentando che l'importo richiesto non è addebitabile a Sviluppo Campania, in quanto i danni evidenziati, in ragione del pacifico orientamento giurisdizionale che pone a carico del proprietario (a maggior ragione quando si rifiuti indebitamente di ricevere in restituzione la cosa) l'onere di custodia e manutenzione delle strutture murarie e degli impianti in esse conglobati (cfr. Cass. N. 28197 del 10.12.2020, n. 21788 del 27.10.2015, n. 13881 del 09.06.2010) non sono in alcun modo riconducibili a Sviluppo Campania per le ragioni rappresentate. Richiamando anche Invitalia Partecipazioni al rispetto dell'accordo transattivo sottoscritto nel 2019 e quindi alla presa in carico anche degli incubatori di Salerno e Pozzuoli. Nel mese di gennaio 2024 Invitalia Partecipazione ha notificato un atto di citazione per i danni riscontrati nella misura di cui all'accertamento tecnico preventivo. Al momento è stato iscritto al ruolo il giudizio in data 29/01/2024, con n. R.G. 4567/2024. Al momento ci sono state due udienze, la prima il 17/09/2024 durante la quale il GI ha mostrato di condividere la tesi difensiva di Sviluppo Campania secondo la quale le perizie allegate da controparte, inclusa quella del procedimento per accertamento tecnico preventivo, non risulterebbero di per sé idonee a dimostrare la collocazione temporale dei danni lamentati e di conseguenza l'imputabilità degli stessi alla Sviluppo Campania spa, apparendo necessaria una valutazione tecnica idonea a fornire una lettura storica delle varie perizie prodotte. Nell'udienza del 05/11/2024 ha prestato giuramento la CTU nominata accettando di rispondere al seguente quesito "*1) la CTU, esaminati gli atti di causa e in particolare, le precedenti consulenze d'ufficio e/o di parte e acceduta sui luoghi di lavoro, ricostruisca per quanto possibile la situazione di fatto alle date che secondo la prospettazione delle parti importerebbe la cessazione o la permanenza dell'obbligo di custodia. 2) La CTU accertato quanto sub 1 verifichi la congruità della stima dei danni espressi in sede di atp*" e il GI ha fissato l'inizio delle operazioni per il giorno 20/11/2024 e autorizzato le parti a nominare i propri consulenti di fiducia. La prossima udienza fissata per il 05/05/2026 avrà ad oggetto l'esame della relazione depositata dal CTU.

La società ha ricevuto in data 28/03/2025 un ulteriore ricorso ex artt. 696 e 696 bis cpc da parte di Invitalia Partecipazioni S.p.A. al fine di disporre un accertamento tecnico preventivo per verificare lo stato dei luoghi dell'immobile di Salerno, incubatore che comunque non ha preso in consegna come quello di Pozzuoli, nonostante l'atto transattivo del 2019. Entro il mese di maggio Sviluppo Campania dovrà presentare le osservazioni alla bozza ricevuta dal CTU.

Infine, il 27/03/2026 è stato ricevuto anche il ricorso ex artt. 696 e 696 bis cpc da parte di Invitalia Partecipazioni S.p.A per verificare lo stato dei luoghi dell'immobile di Pozzuoli, incubatore non ancora preso in consegna da Invitalia Partecipazioni. L'udienza è fissata per il giorno 5 giugno 2026.

Da ultimo con nota prot. n. 6172 del 17/04/2025 la società ha riepilogato al Socio unico la situazione attualmente in essere sugli incubatori e le difficolta nella riconsegna degli stessi, oltre alle pretese di

risarcimento avanzate da Invitalia Partecipazioni S.p.A. con delle ipotesi di riutilizzo che dovranno essere oggetto di confronto e tenere indenne Sviluppo Campania dalle pretese risarcitorie di Invitalia Partecipazioni spa in quanto la società non ha la disponibilità economica e finanziaria per far fronte alle richieste risarcitorie pervenute, oltre a ritenere di non dovervi far fronte.

Di seguito si riportano le ipotesi di riutilizzo da formulare al Socio per le quali è stato richiesto di avviare un confronto al fine di individuare un percorso condiviso che tenga indenne la società dalle richieste paventate da Invitalia Partecipazioni spa:

POZZUOLI (NA)

La proposta riguarda la realizzazione di un ESA Business Incubation Center, un incubatore imprenditoriale dedicato al supporto a giovani *start-up* spazio del territorio, all'interno della Regione Campania. Il centro di incubazione ha l'obiettivo di mettere in contatto l'ESA BIC con l'industria locale, le università, gli enti di ricerca, il governo e le comunità di investitori.

MARCIANISE (CE)

La proposta riguarda la realizzazione di un distretto regionale e interregionale per la produzione di tecnologie pulite ed efficienti, attraverso il recupero di metalli nobili (litio, manganese, cobalto, etc.) rilevate dalle batterie esauste e la produzione di nuove batterie performanti.

L'intervento si inserisce nel quadro delle strategie e delle politiche comunitarie, nazionali e regionali (Green deal, Piattaforma STEP, PNRR, Programmazione regionale, RIS 3, etc.) a sostegno dei processi e degli investimenti in transizione ecologica, economia circolare e produzione di tecnologie pulite, contribuendo al miglioramento e all'efficienza nell'accumulo di fonti energetiche rinnovabili, onde consentire di ridurre il fabbisogno di fonti fossili e la relativa dipendenza.

Gli spazi e le strutture di Marcianise costituiscono una *location* strategica per la realizzazione dell'intervento in quanto già infrastrutturata e collegata con la rete ferroviaria, l'autostrada e l'aeroporto.

L'intervento proposto consentirebbe di rendere funzionali le strutture e gli spazi attuali al conseguimento degli obiettivi di transizione verde e di attrarre imprese, enti di ricerca, investitori e risorse professionali specializzate in ambiti tecnologici avanzati.

È in corso un approfondimento per comprendere eventuali interessi della Regione e di eventuali *stakeholder* sul compendio.

PALAZZO MONICA TAVERNINI

In seguito all'aumento di capitale effettuato dal socio unico è stato conferito il 35% dell'immobile denominato "Monica Tavernini" in cui sono localizzati gli uffici della Società. Tale conferimento ha comportato la necessità di sostenere costi per le tasse relative all'IMU, alla TARI e costi legati alla manutenzione ordinaria e straordinaria dell'immobile.

Nel corso di questi ultimi anni sono stati eseguiti interventi manutentivi edili puntuali, sono stati intrapresi interventi di ammodernamento e miglioramento impiantistico, nonché di ripristino funzionale ed adeguamento normativo edile.
In dettaglio per quanto concerne la parte impiantistica sono stati eseguiti i seguenti interventi:

a- **Revamping del Sistema di Supervisione Johnson BMS Metasys di termoregolazione dell'impianto di condizionamento e controllo di luci e punti elettrici di stato e comandi dell'impianto elettrico di Palazzo "PiCo - Monica Tavernini".**

Questo intervento ha permesso l'aggiornamento hardware e software del sistema di termoregolazione ormai obsoleto (anni 2000), permettendo l'eliminazione di difetti diffusi di funzionamento, incrementandone le funzionalità e permettendo l'installazione del software sui server di Sviluppo Campania eliminando così la grave vulnerabilità costituita dall'installazione su pc, peraltro obsoleti.

b- Fornitura in opera di n. 2 gruppi statici di continuità (UPS) Riello mod. S3T 60 ACT P Sentryum con scheda di parallelo, comprensivo di schede di rete.

In questo caso l'intervento è stato effettuato per provvedere alla sostituzione dei n. 2 UPS Liebert tipo NX60 da 60kVA, ormai obsolescenti, i cui costi di manutenzione straordinaria preventivati si erano rivelati maggiori di quelli necessari per la sostituzione con nuovi apparati.
Le ricadute sono state di natura tecnica in termini di affidabilità, silenziosità e basse temperature in esercizio, nonché di natura economica per i minori consumi elettrici e l'azzeramento dei costi di manutenzione.
In proiezione futura l'adozione di questi apparati può consentire, mediante l'installazione di un inverter e di pannelli fotovoltaici, la cogenerazione di energia elettrica con i derivanti benefici di economia dei consumi.

c- ***IMPIANTO CLIMATIZZAZIONE - riqualificazione impiantistica con sostituzione integrale unità frigo mediante fornitura in opera di sistema modulare Impianto modulare composto da n. 02 unità CLIVET LARGE EVO AAI43Q00-0023 WISAN-YEE1 85.4 R-32 POMPA DI CALORE REVERSIBILE RAFFREDDATA AD ARIA PER INSTALLAZIONE ESTERNA.***

L'intervento ha riguardato la sostituzione del gruppo frigo esistente obsoleto (20 anni circa di funzionamento) con un apparecchio a moduli refrigeratori multipli.

Con questa soluzione un eventuale guasto non compromette il funzionamento dell'intero impianto e garantisce la continuità dei servizi annessi (confort climatico e produzione ACS)
Inoltre la concezione impiantistica basata su moduli refrigeratori multipli permette il funzionamento completamente indipendente tra di loro, in modo da erogare la potenza frigorifera strettamente necessaria, senza troppe frequenti variazioni di funzionamento, con conseguenti inutili sprechi di energia e stress meccanici della componentistica.
A quest'ultimo proposito i benefici di natura economica che l'investimento ha comportato, in aggiunta a quelli tecnici in termini di efficienza, sicurezza, flessibilità di impiego e silenziosità si evidenziano nel raffronto tra vecchi e nuovi gruppi frigo di seguito esposto:

Sono inoltre stati affidati i seguenti interventi:

- in corso di completamento:

Adeguamento Antincendio Archivi 4° Piano Palazzo Monica Tavernini

Sono state realizzate opere di adeguamento edile ed impiantistico previste per l'utilizzo del 4° piano quale archivio.
Queste opere hanno recato quale beneficio indotto la realizzazione di un primo nucleo di impianto elettrico al 4° piano, che ne era sprovvisto nonché il miglioramento delle misure antincendio.

- da avviare

Manutenzione edilizia per il ripristino delle scale di emergenza, intradosso scala principale e centrali tecnologiche Palazzo Monica Tavernini

La manutenzione oggetto dell'affido intende porre rimedio ad una situazione di degrado, derivante dal fisiologico ammaloramento del manufatto edilizio, nonché derivante da opere di messa in sicurezza di alcuni anni fa, eseguite solo parzialmente, come di seguito dettagliato.

Scale esterne

Le lavorazioni sulle stesse, dopo opere di messa in sicurezza di alcuni anni fa, non sono state completate; pertanto non è garantito l'arresto del processo di degrado.

L'intervento prevede il rifacimento degli intradossi nelle porzioni spicconate previo trattamento dei ferri d'armatura con prodotto passivante liquido con dispersione di polimeri di resine sintetiche, l'impermeabilizzazione dei pianerottoli mediante fornitura e posa in opera di membrana poliuretanica, la finitura mediante rifacimento parziale intonaco, stuccatura e tinteggiatura.

Lavori vari per messa in sicurezza

Per eliminare la caduta in corso di porzioni intonaco e frammenti di tavelle, fonte di pericolo, in maniera duratura e non provvisoria, si prevedono opere di rifacimento degli intradossi della scala principale.

Sono inoltre previsti interventi di consolidamento strutturale del solaio di copertura della centrale antincendio locale antincendio mediante puntellamento con fornitura in opera di n°1 putrella IPE bullonata con n°1 putrella IPE 200 per pilastro, spazzolatura delle putrelle esistenti e verniciatura con smalto antiruggine nonché il ripristino del frontino della centrale elettrica.

La realizzazione delle opere di adeguamento antincendio archivi al 4° Piano ha prodotto la disponibilità di 350 mq di aree disponibili per la realizzazione di ulteriori uffici in considerazione delle necessità aziendali.
Ulteriori opzioni di utilizzo a fini di messa a reddito possono essere valutate, a fronte di adeguato progetto, percorso autorizzativo e normativo nonché esecuzione delle opere conseguenti.
Con il budget per le manutenzioni ordinarie è stata riqualificata una parte del piano terra, con la realizzazione di uno spazio per i B2B nonché di una sala riunioni attrezzata, con una capienza di circa 25 posti, quindi intermedia fra quella della sala riunioni 3° piano e l'auditorium.
La stessa è idonea all'uso per le attività interne aziendali, mentre per un eventuale utilizzo per esterni vanno valutati gli aspetti autorizzativi e normativi, nonché attivati i necessari servizi di accoglienza.
Sempre al piano terra, di fronte alla sala riunioni sopra descritta, si trovano i locali dell'ex bar, attualmente in disuso ed utilizzati qual deposito di materiali vari.
Tali locali posso essere riqualificati per l'utilizzo interno quale zona mensa previe opportune verifiche normative e percorsi autorizzativi, nonché previe opere di adeguamento, se ne può ipotizzare anche l'affido ad esterni quale buvette.
In quest'ultimo caso andranno anche ridiscussi i rapporti con il fornitore in comodato dei dispenser food & drink attualmente installati.

Punto 1) Assicurare il ruolo della Società come organismo intermedio per la gestione delle misure ricadenti nell'oggetto sociale.

Con riferimento alle funzioni di organismo intermedio l'art. 71 paragrafo 3 del Regolamento (UE) 2021/1060 prevede che "L'autorità di gestione può individuare uno o più organismi intermedi che svolgano determinati compiti sotto la sua responsabilità …"; lo Statuto di Sviluppo Campania S.p.A. prevede, all'art. 3, che, su richiesta della Regione, la Società può svolgere le funzioni di Organismo Intermedio per le Autorità di Gestione dei programmi comunitari nelle materie di competenza. Con DGR n. 236/2024 è prevista l'individuazione – per quanto attiene agli Strumenti Finanziari di cui alle Deliberazioni n. 280/2023, n. 667/2023 e n. 762/2023 – di Sviluppo Campania S.p.A. quale Organismo Intermedio del PR Campania FESR 2021-2027, individuazione che consentirebbe di sfruttare al meglio le competenze specialistiche maturate dalla Società nella gestione degli Strumenti Finanziari, comportando, nel contempo, una riduzione degli oneri amministrativi in capo agli uffici regionali.
La stessa delibera prevede che ai fini dell'individuazione di Sviluppo Campania S.p.A. quale Organismo Intermedio è necessario che la stessa adotti un Sistema di Gestione e Controllo che risulti, all'esito delle verifiche, adeguato e conforme ai requisiti fondamentali, così come previsti all'art. 69 paragrafo 1 e all'Allegato XI del menzionato Regolamento (UE) 2021/1060, per attivare la procedura di delega delle funzioni da parte dell'Autorità di Gestione FESR. Con la stessa DGR è stato demandato all'Autorità di Gestione FESR, di concerto – per quanto di rispettiva competenza – con la DG per lo Sviluppo Economico e le Attività Produttive e la DG per l'Università, la Ricerca e l'Innovazione l'avvio delle procedure e delle verifiche necessarie ai fini della individuazione di Sviluppo Campania S.p.A. quale Organismo Intermedio del PR Campania FESR 2021-2027, per quanto attiene agli Strumenti Finanziari richiamati nella delibera. Ad oggi, è ancora in corso l'iter per l'affidamento a Sviluppo Campania degli strumenti finanziari previsti nelle delibere richiamate.

Punti 2 e 3)
2) Accelerare le procedure di rilascio dell'incubatore di Pozzuoli
3) Accelerare le procedure di rilascio dell'incubatore di Salerno

In merito al rilascio degli incubatori, la società ha più volte sollecitato la riconsegna degli immobili dopo la sottoscrizione dell'atto transattivo nel 2019.
Purtroppo, Invitalia Partecipazioni S.p.A., nonostante la sottoscrizione per accettazione della comunicazione trasmessa da Sviluppo Campania in cui venivano precisate le modalità di rilascio degli incubatori, ha accettato solo la riconsegna dell'immobile di Marcianise, promuovendo azioni per l'accertamento tecnico preventivo volte ad accertare lo stato dei luoghi.
Per l'incubatore di Marcianise a seguito dell'esito dell'accertamento tecnico preventivo, Invitalia Partecipazioni S.p.A. ha proceduto a citare in giudizio la società per richiedere il risarcimento dei danni. Come comunicato con nota prot. n. 6172 del 17/04/2025, Sviluppo Campania spa non ha la disponibilità economica per far fronte alle richieste risarcitorie di Invitalia Partecipazioni S.p.A., oltre a ritenere di non essere responsabile del mantenimento dello stato dei luoghi per le motivazioni espresse nella nota

richiamata; pertanto, è stato proposto all'azionista di utilizzare tutti gli incubatori per specifici progetti. Il dettaglio è riportato nel paragrafo relativo agli incubatori.

Punto 4) Incrementare il livello di efficienza nella gestione delle attività mediante la realizzazione di audit annui

Nell'ambito degli obiettivi assegnati, la funzione Internal Audit ha svolto con cadenza annuale audit sui processi aziendali, al fine di incrementare il livello di efficienza nella gestione delle attività e supportare il miglioramento continuo degli iter amministrativi.

Le attività di audit, anche per il 2025, hanno riguardato l'esame di fasi procedimentali, verificando la conformità alle procedure aziendali, alle normative di riferimento e agli impegni contrattuali assunti, nonché l'adeguatezza degli assetti organizzativi e degli strumenti, anche informatici, rispetto agli obiettivi di efficacia ed efficienza.

Nel corso delle verifiche sono stati analizzati anche profili di merito, individuando eventuali criticità operative, aree di miglioramento e possibili interventi di razionalizzazione e semplificazione dei processi, formulando raccomandazioni finalizzate all'innalzamento della qualità e alla riduzione delle inefficienze.

Durante la conduzione degli audit, i responsabili delle strutture auditate hanno dimostrato, laddove sono emersi rilievi, ampia e tempestiva disponibilità ad attivarsi per la risoluzione delle criticità segnalate e per l'implementazione delle misure migliorative proposte, favorendo un approccio collaborativo e orientato ai risultati.

Particolare attenzione è stata infine riservata alle aree di rischio individuate dal Piano Triennale per la Prevenzione della Corruzione e della Trasparenza 2025-2027, assicurando il coordinamento tra le attività di audit, le misure di prevenzione e gli obiettivi di trasparenza e integrità dell'azione amministrativa.

Punto 5) Assicurante l'avanzamento economico e il rispetto del cronoprogramma delle commesse così come definiti con gli Uffici Regionali.

Punto 6) Ottimizzare l'efficacia della gestione del personale mediante l'introduzione di politiche di crescita professionale delle risorse umane;

Punto 7) Avviare una procedura selettiva per favorire le progressioni di carriera in conformità con la normativa vigente

Con riferimento ai punti che precedono è stata trasmessa in data 01.10.2025 una relazione all'Ufficio Speciale Controlli sullo stato di attuazione degli obiettivi di cui al Piano 2024-2026 approvato con DGR n. 61/2025 con l'illustrazione dello stato di avanzamento delle commesse e l'introduzione di politiche di crescita del personale con l'indicazione delle procedure selettive avviate.

Nel paragrafo "DOTAZIONE RISORSE UMANE ED EVENTUALE PIANO OCCUPAZIONALE" sono state descritte in modo approfondito le ulteriori attività realizzate.

Con riferimento al Punto 8) Introdurre un sistema di misurazione delle performance del personale dirigenziale e di comparto, con la regolamentazione dei criteri di attribuzione delle indennità premiali in funzione dei risultati, anche di natura economica, raggiunti dalla società

Sviluppo Campania

Al fine di poter introdurre un sistema di misurazione delle performance del personale anche alla luce delle attività assegnate alla società, il Consiglio di amministrazione ha avviato un'attività di:

- riposizionamento del modello organizzativo;
- qualificazione dell'architettura dei sistemi di controllo;
- digitalizzazione dei processi di business.

L'intervento legato al riposizionamento del modello organizzativo è stato concepito per ottimizzare l'assetto organizzativo, agendo in maniera mirata sulla struttura interna, sulla definizione dei ruoli e sull'attribuzione delle responsabilità per garantire agilità decisionale, efficienza operativa e una chiara focalizzazione sugli obiettivi di supporto alla Regione ed alle imprese.

La direttrice relativa alla *qualificazione dell'architettura dei sistemi di controllo* prevede lo sviluppo e l'implementazione di un framework di controllo interno integrato, che consenta di raggiungere i seguenti obiettivi:

- assicurare una gestione proattiva e una mitigazione efficace dei rischi aziendali a tutti i livelli;
- garantire una compliance normativa e gestionale in linea con i più elevati standard di settore;
- dotare il management di strumenti analitici e di reporting avanzati, cruciali per il monitoraggio delle performance operative e per supportare il processo decisionale.

Il Consiglio di Amministrazione del 24 luglio 2025 e successivamente del 29 settembre 2025 ha approvato il regolamento generale che definisce la struttura interna e le aree in cui viene suddivisa la società. È in corso la verifica del sistema delle deleghe anche alla luce della recente normativa sulla responsabilità amministrativa per danno erariale (L. n. 1/2026), su eventuali indennità da riconoscere ai dipendenti per le deleghe da conferire e sulla compatibilità di questa normativa con il CCNL di riferimento e con le componenti della retribuzione ad oggi già percepite da alcuni dipendenti.

Relativamente alla implementazione di un framework di controllo interno è stato concluso il lavoro che ha portato alla predisposizione di un elaborato di valutazione economico-tecnica volto a sostenere la trasformazione digitale di Sviluppo Campania, con un focus iniziale sulla digitalizzazione dei processi di gestione dei contributi e delle procedure amministrative correlate. Attraverso un assesment strutturato basato su analisi funzionale, definizione delle aree di semplificazione e stima dei costi, è stato proposto un modello di intervento scalabile che consenta di passare da un'infrastruttura frammentata e on-premise a un modello cloud-based, orientato all'interoperabilità e alla sostenibilità economica.
La stima dei costi tiene conto non solo dello sviluppo tecnologico, ma anche di aspetti organizzativi e gestionali — come la formazione, il change management e la manutenzione evolutiva — evidenziando la necessità di un approccio graduale e modulare.
Il progetto mira a costruire un sistema digitale in grado di garantire semplificazione amministrativa, trasparenza, controllo e continuità operativa, in linea con le strategie del PNRR e dell'Agenda Digitale Regionale.

Il progetto, purtroppo, richiede lo stanziamento di un budget che con gli affidamenti a disposizione non è disponibile. Il perfezionamento dell'affidamento della gestione della Strategia Quantum Valley potrebbe soddisfare il fabbisogno finanziario necessario.

SviluppoCampania

Programma delle attività e degli investimenti

Sviluppo Campania, essendo società *in house* della Regione Campania, ha l'obbligo di effettuare almeno l'80% del fatturato nei confronti della Regione. L'analisi condotta nel periodo 2023-2025 evidenzia come la percentuale del valore della produzione nei confronti della Regione si attesti a percentuali pari a circa il 98%.

La struttura dei costi si caratterizza per due principali categorie di costi: quelli connessi ai progetti affidati, quali servizi, consulenze e personale diretto assegnato ai progetti affidati nei limiti dei piani approvati; i costi di funzionamento (governance, personale adibito a funzioni di staff, costi amministrativi, costi di manutenzione ordinaria e straordinaria sede).

Alle precedenti due categorie occorre aggiungere gli oneri impropri riferiti soprattutto ai contenziosi che nell'ultimo triennio hanno avuto un significativo impatto sui risultati economici aziendali.

La remunerazione relativa ai progetti affidati prevede tre principali meccanismi:

- la rendicontazione a costi reali;
- le *fees* per gli Strumenti finanziari;
- la remunerazione in base all'individuazioni di specifici parametri di risultato (remunerazione ad output).

Nel corso dell'ultimo triennio alla remunerazione a rendicontazione a costi reali si è aggiunta con pesi via via crescenti quella tramite *fees* e output, con l'effetto di migliorare le performance sia in termini economici sia di produttività.

Come rimarcato nel precedente Piano 2024-2026, la sola rendicontazione a costi reali, pur se accompagnata dal riconoscimento forfettario dei costi indiretti, non consente la copertura integrale dei costi di funzionamento.
Invero, la contribuzione delle attività a rendicontazione è funzione di due parametri: la base di calcolo, solitamente il costo diretto del personale, e la percentuale di spese generali applicata, che si attesta ad un massimo del 15%.

La tabella seguente evidenzia i costi di funzionamento riclassificati con evidenza della contribuzione riferita ai soli progetti a rendicontazione.

Le ipotesi di sviluppo

La definizione del portafoglio progetti inseriti nel piano contempla sia i progetti pluriennali attualmente in corso sia quelli per i quali esistono atti programmatori sia progetti potenzialmente acquisibili in quanto oggetto di diverse interlocuzioni con gli uffici regionali di riferimento.
I progetti attualmente gestiti dalla società possono essere raggruppati in linee di "prodotto" omogenee al loro interno:

- Strumenti finanziari;
- Attività di assistenza tecnica per le strategie di comunicazione;
- Attività specifica di assistenza tecnica per Direzioni regionali;
- Strumenti per l'erogazione di prestiti ed incentivi;
- Misure per le politiche attive del lavoro, politiche giovanili, inclusione sociale e sviluppo territoriale;
- Indirizzi strategici per la collaborazione con la Regione in materia di Transizione Digitale, Cybersicurezza ed evoluzione dei sistemi informativi.

In seguito alla DGR n. 472 del 11/07/2025 la società è stata individuata quale soggetto cui affidare la gestione dell'infrastruttura quantistica dell'intervento a titolarità regionale denominato Strategia per una Quantum Valley in Regione Campania, nel piano è stata implementata anche questa nuova linea di "prodotto".

Segue una descrizione dei principali progetti con una breve sintesi dello stato delle attività e delle prospettive future.

Strumenti finanziari

Sviluppo Campania spa, nell'ambito delle attività che svolge per conto del Socio Unico, Regione Campania gestisce strumenti finanziari anche complessi che dal 2016 ad oggi hanno visto l'impiego di circa 800.000.000 di investimenti sul territorio, utilizzando misure che hanno consentito l'effetto leva attraverso il coinvolgimento di investitori privati, come lo strumento Garanzia Campania Bond, best practice a livello europeo e come Fondo Crescita I che ha consentito alla Regione Campania di attivare oltre 250.000.000 di euro di investimenti da parte delle imprese.
Gli strumenti e gli avvisi di attuazione sono sempre stati condivisi e sottoposti all'approvazione dell'Autorità di gestione del FESR e delle Direzioni di riferimento.

Strumento finanziario Garanzia Campania Bond – III edizione – necessità di attivazione.

Strumento Fondo Crescita II edizione – opportunità di incrementare la dotazione finanziaria di ulteriori 50 milioni di euro alla luce della numerosità delle istanze pervenute e della stabilizzazione della graduatoria.

Sullo strumento state presentate 12.678 domande per una dotazione finanziaria richiesta di 1.272.960.435,21 a fronte di una dotazione finanziaria prevista dall'Avviso pari ad euro 93.000.000. Nella gestione dell'Avviso, il cui testo è stato preventivamente condiviso con l'Autorità di Gestione FESR, si sono manifestate difficoltà legate all'attribuzione di alcuni punteggi per i criteri di premialità. Infatti, alcuni dei criteri che danno luogo all'assegnazione dei punteggi di premialità devono essere verificati a saldo con ciò esponendo ad un rischio di risultato lo strumento. Per tale motivo le verifiche sulla consapevolezza del possesso dei requisiti di premialità da parte dei destinatari finali sono state rafforzate ed avviate sin dalla fase precedente all'adozione dei provvedimenti di ammissione. Le verifiche hanno riguardato i seguenti criteri:

- Imprese con sistema di responsabilità sociale – adesione al protocollo di intesa approvato con DGR 257/2024, da perfezionarsi entro la richiesta di erogazione del saldo (punti 5);
- Impresa giovanile e/o femminile, (punti 2);
- Impegno su utilizzo di strumenti di conciliazione esigenze vita/lavoro o adozione di modalità innovative di organizzazione del lavoro, mediante il ricorso a personale con contratto di lavoro agile o smart working e/o in possesso di certificazione PdR UNI 125/2022, entro la richiesta di erogazione del saldo, (punti 3);
- Ricadute occupazionali consistenti in: 1) impegno a non effettuare licenziamenti di personale nel periodo di realizzazione dell'investimento, entro la richiesta di erogazione del saldo; 2) conversione a tempo indeterminato di un contratto di lavoro già esistente, entro la richiesta di erogazione del saldo, 3) incremento occupazionale, entro la richiesta di erogazione del saldo, (punti 3);
- Operatività in uno dei domini tecnologici produttivi della RIS 3 Campania 2021/2027, (punti 2).

In esecuzione dell'art. 14 dell'Avviso, il beneficiario entro 90 giorni dalla sottoscrizione del Contratto di agevolazione deve procedere alla richiesta di erogazione pena la decadenza dall'agevolazione concessa e la conseguente revoca. Sviluppo Campania spa ha avviato anche le erogazioni ai beneficiari che alla data del 31.03.2026 sono state di euro 20.000.000,00 di conseguenza ai sensi dell'Accordo di finanziamento la società ha provveduto a richiedere la provvista finanziaria necessaria per procedere con le ulteriori erogazioni.

Nelle scorse settimane sono arrivate diverse informative relative alla circostanza che l'INAIL ha comunicato ad un beneficiario la mancata attivazione del rilascio del report da trasmettere per consentire all'impresa di essere inserita nell'elenco degli aderenti al protocollo d'intesa "Garantire l'occupazione di qualità nell'ambito delle politiche di coesione a tutela della salute e della sicurezza dei lavoratori" di cui alla DGR n. 257 del 30.05.2024, articolo 7. Ciò lascia presupporre che per un vizio non dipendente, né conoscibile dal beneficiario lo stesso si veda decurtare i 5 punti che, rebus sic stantibus, lo vedrebbero oggetto di un provvedimento di revoca in quanto perdendo tale premialità scenderebbe in una posizione di graduatoria non sufficiente per il finanziamento con la dotazione attuale.

È stato dunque condotto un ulteriore approfondimento per valutare l'opportunità di eliminare la variabile della premialità legata all'adesione al protocollo di cui alla DGR n. 257/2024 che ad oggi risulta non ottenibile da nessuno di coloro che ha dichiarato di potervi aderire.
Esaminando la graduatoria, la decurtazione dei 5 punti per l'adesione al protocollo de quo, la modificherebbe per circa 138 beneficiari che scenderebbero sotto la posizione finanziabile mentre risulterebbero finanziabili altre 138 posizioni che oggi non lo sono. Il valore della dotazione finanziaria aggiuntiva per rendere finanziabili tutte le imprese interessate da tale dinamica è tra i 15 e i 20 milioni di euro.
Nel corso di diverse riunioni con gli uffici regionali di riferimento è emersa l'opportunità di incrementare la dotazione finanziaria fino a ulteriori 50 milioni, sia per far fronte alla criticità evidenziata sia perché in tal modo si potrebbe dare una risposta alle numerose domande ricevute sull'Avviso. Il piano è stato sviluppato con l'incremento della dotazione finanziaria di ulteriori 50.000.000,00 così come condiviso nel corso di diversi incontri. Tali risorse possono essere individuate sia tra quelle derivanti dai rientri dei piani di ammortamento sugli altri strumenti gestiti da Sviluppo Campania sia, previa verifica di diversa destinazione, dalle risorse già programmate per il Fondo Rotativo.

Strumento finanziario Equity Regione Campania – urgenza rilascio parere ADG FESR per inizio attività.

L'Accordo di finanziamento per la gestione dello strumento finanziario di cui alle DGR n. 280 del 16/05/2023 e DGR n. 667 del 16/11/2023 è stato sottoscritto in data 04.07.2025 dopo quasi due anni di richieste di approfondimenti. Lo strumento prevede una dotazione di € 42.000.000,00 – di cui € 22.000.000,00 a valere sull'Azione 1.1.2 e € 20.000.000,00 a valere sull'Azione 1.1.3 a valere sul PR Campania FESR 2021-2027. Sono stati inviati la bozza degli avvisi, con la relativa documentazione a corredo e il manuale di gestione della misura in data 24.10.2025 ns. prot. 2025/00017291. La documentazione è stata integrata in data 28.11.2025 ns. prot. 2025/00019731 e da ultimo è stato trasmesso un aggiornamento di alcuni documenti in data 15.01.2026 ns. prot. 2025/00000579. La Direzione per l'Istruzione, l'Università, la Ricerca e l'Innovazione in data 27.01.2026 ha trasmesso la documentazione ricevuta da Sviluppo Campania all'Autorità di Gestione FESR per avviare la procedura finalizzata al rilascio del parere di competenza.
Ad oggi non si è avuto riscontro. Il Piano è stato sviluppato alla luce di un rilascio del parere in tempo utile da non generare ulteriori criticità sulla maturazione del corrispettivo.

Strumenti finanziari in Agricoltura – urgenza di sottoscrizione Accordo di finanziamento

La Regione Campania, con decisione condivisa con i tavoli verdi partenariali, ha previsto la programmazione di strumenti finanziari, a valere sui fondi del CSR Campania 23-27, volti a sostenere ulteriormente la crescita delle imprese campane del comparto agricolo e agroalimentare e a agevolarne l'accesso al credito attraverso un Fondo di Rotazione complessivo di € 40 milioni, suddiviso pariteticamente tra le misure:
• SRD27 – Investimenti agricoli produttivi per la competitività delle aziende agricole;
• SRD28 – Investimenti nella trasformazione e commercializzazione di prodotti agricoli

Con Decreto Dirigenziale n. 486 del 03.09.2025 è stata affidata a Sviluppo Campania la realizzazione degli strumenti de quo. Al fine di definire l'Accordo di finanziamento sono in corso le interlocuzioni con gli uffici regionali di riferimento per condividere eventuali nuove esigenze.

La Società ha in portafoglio attività di assistenza tecnica rivolte a diverse Direzioni regionali, il cui elenco dettagliato è fornito nei paragrafi successivi.

Tra le attività acquisite nel corso dell'anno 2025 e maggiormente rilevanti si annoverano le seguenti: la valorizzazione e promozione dei settori produttivi di eccellenza regionali, del Made in Campania e le attività a supporto allo sviluppo di processi produttivi in chiave di Industria 4.0; l'attività di promozione ed internazionalizzazione delle PMI campane attraverso la partecipazione ad eventi calendarizzati.

Nel Piano è stata prevista una riattivazione delle attività a partire dall'anno 2026 come assistenza tecnica alla Direzione Sviluppo delle Attività Produttive, così come condiviso nel corso degli incontri avuti in questi mesi.

Indirizzi strategici per la collaborazione con la Regione in materia di Transizione Digitale, Cybersicurezza ed evoluzione dei sistemi informativi

Nel corso del prossimo triennio l'azienda intende rafforzare il proprio percorso di trasformazione digitale attraverso una **collaborazione strutturata, continuativa e strategica con la Regione**, e in particolare con l'Ufficio per la Transizione Digitale, riconoscendo in tale sinergia un elemento centrale per il raggiungimento degli obiettivi di efficienza, sicurezza, sostenibilità e qualità dei servizi resi.
Tale collaborazione si inserisce nel più ampio quadro delle politiche regionali e nazionali di razionalizzazione delle infrastrutture ICT, di innalzamento dei livelli di cybersicurezza e di promozione del

riuso delle soluzioni applicative, consentendo all'azienda di allineare le proprie scelte tecnologiche agli indirizzi istituzionali e di accompagnare in modo coerente l'evoluzione dei propri sistemi informativi.
Uno degli assi strategici del triennio riguarda l'**evoluzione dell'infrastruttura applicativa aziendale**, con particolare riferimento alla piattaforma SharePoint, che costituisce un elemento cardine dell'ecosistema digitale dell'azienda. Su tale piattaforma sono stati sviluppati, e continuano a essere implementati, i sistemi per la **gestione dei bandi e degli avvisi regionali**, nonché applicativi essenziali per lo svolgimento delle **attività aziendali**, tra cui l'Albo delle competenze.

In questo contesto, si ritiene opportuno proseguire, in collaborazione con la Regione, un percorso in fase di avvio finalizzato alla **graduale migrazione della farm SharePoint verso il Data Center regionale**, quale scelta strategica orientata a garantire maggiore affidabilità, sicurezza, continuità operativa e coerenza infrastrutturale, oltre a favorire l'interoperabilità e la governance dei dati.
Parallelamente, nel corso del triennio sarà incrementata la collaborazione con la Regione per promuovere un **uso sempre più efficace degli applicativi regionali già disponibili**, nonché per valutare lo sviluppo e l'adozione di **soluzioni applicative condivise o sviluppate ad hoc** a supporto dei bandi e degli avvisi gestiti dall'azienda. Tale approccio risponde all'esigenza di ottimizzare gli investimenti pubblici, ridurre la duplicazione delle soluzioni e favorire una maggiore integrazione tra i sistemi informativi degli enti.
Un ruolo di primaria importanza è attribuito alla **cybersicurezza**, considerata un fattore abilitante e trasversale a tutte le politiche di digitalizzazione. L'avvenuta adesione dell'azienda al **CSIRT regionale** rappresenta un passaggio strategico che sarà valorizzato nel triennio attraverso una **collaborazione sempre più stretta e strutturata**. In particolare, l'azienda intende avvalersi degli strumenti, dei servizi e delle iniziative messe a disposizione dal CSIRT regionale per innalzare il livello di sicurezza dei propri sistemi, rafforzare le capacità di prevenzione e risposta agli incidenti e promuovere una diffusa **cultura della sicurezza informatica**.

L'attenzione sarà rivolta non solo agli aspetti tecnologici, ma anche alla crescita della consapevolezza delle risorse umane aziendali, riconoscendo nella corretta igiene informatica un elemento fondamentale per la resilienza dell'organizzazione.
Nel medesimo orizzonte temporale, assume particolare rilievo la **scadenza, prevista per dicembre 2026, delle licenze di alcuni applicativi strategici** attualmente in uso, tra cui il sistema di Gestione Documentale e Protocollazione e il sistema Gestionale Contabile. In tale contesto, il Piano Triennale individua come indirizzo prioritario l'**approfondimento delle opportunità di collaborazione con la Regione per il riuso applicativo**, valutando la possibilità di aderire a soluzioni già in uso presso altri enti regionali e/o di essere inclusi tra gli enti destinatari delle piattaforme che la Regione mette a disposizione in modalità di riuso. Tale scelta consentirebbe di garantire sostenibilità economica, continuità operativa e allineamento ai principi di standardizzazione e interoperabilità.
La copertura di tali impegni relativi all'acquisizione di beni e servizi ICT — inclusi il rafforzamento della cybersicurezza e l'aggiornamento di hardware e software — verrà definiti e veicolati in base ad accordi specifici, garantendo così un'evoluzione tecnologica coerente con i nuovi modelli organizzativi.
La copertura di tali impegni per l'acquisizione di beni e servizi ICT — inclusi il potenziamento della cybersicurezza e l'aggiornamento di hardware e software — sarà **definita e veicolata attraverso accordi specifici**, garantendo un'evoluzione tecnologica coerente con i nuovi modelli organizzativi e operativi.

Per le attività in portafoglio che presentano risorse residue rispetto alle dotazioni iniziali, è stata ipotizzata una proroga dei termini contrattuali. Tale fattispecie interessa le commesse ECOREI e Investimenti Strategici Regione Campania, oltre al progetto Rafforzamento CPI AT Lavoro 2025.

Nello specifico, per ECOREI è stata prevista un'estensione dell'operatività fino al 2028.

Per il progetto Investimenti Strategici, la cui produzione è risultata inferiore alle attese a causa di un minor volume di attività affidate dalla Committenza (specialmente nel supporto all'erogazione alle imprese), è stata ipotizzata una rimodulazione della convenzione. Tale modifica, già nel corso del 2026, consentirebbe il riavvio dell'assistenza tecnica presso la Direzione regionale competente. A tal proposito è opportuno segnalare che la gestione della fase di supporto all'erogazione era specificamente contemplata dalla Convenzione sottoscritta. Anche per questa commessa si è ipotizzata, in considerazione delle risorse residue una proroga al 2028.

È importante, inoltre, evidenziare che i risultati preventivati dipendono dalla tipologia di remunerazione dei progetti da affidare, e dalla relativa tempistica di affidamento.
Le previsioni tengono conto della concentrazione di alcuni progetti in specifici periodi e dei tempi tecnici di interlocuzione con le Direzioni Regionali, pertanto, l'attuazione del Piano richiede un monitoraggio costante dei tempi di attuazione, per allineare l'attivazione dei costi (personale e servizi) all'effettiva decorrenza dei ricavi.

Nel suo insieme il piano conferma l'orientamento della società verso servizi molto più complessi e tecnologici — dagli strumenti finanziari innovativi al supporto alla Quantum Valley — con l'obiettivo di rendere Sviluppo Campania un partner sempre più strategico e indispensabile per la crescita del territorio nel lungo periodo

In riferimento all'evoluzione si illustrano i punti chiave:

Valore della Produzione

Rispetto all'anno 2025, il piano mostra una crescita dimensionale significativa del valore della produzione, che tocca il picco di 23,6 milioni di euro nel 2027.

COMPOSIZIONE VALORE PRODUZIONE	%	2025	%	2026	%	2027	%	2028
IN PORTAFOGLIO	100%	15.444.451	88%	16.520.900	64%	14.985.875	64%	12.802.227

Nel 2026 l'incidenza dei progetti da acquisire rappresenta circa il 12% del totale valore della produzione, nel biennio successivo questa quota passa al 36%.

Tra i driver principali il progetto QUANTUM VALLEY che nel 2027 quota 5,2 milioni di euro, in considerazione dei maggiori oneri per la fase di avvio e 4 milioni di euro nel 2028; lo SF Bond STEP, gli SF AGRICOLTURA_SRD 27; SF AGRICOLTURA_SRD 28; il REIMPIEGO FRC II edizione.
La stabilizzazione delle attività consolidate assicura la continuità economico-finanziaria della struttura.

La flessione del valore della produzione nel 2028 è dovuta alla conclusione naturale di alcuni progetti, ma anche ad una stima prudenziale sul portafoglio da acquisire.

Per il triennio il risultato operativo è positivo, sebbene si preveda una lieve contrazione della marginalità percentuale dal 2027; questa dinamica riflette il significativo assorbimento di risorse operative richiesto dal lancio dei nuovi progetti.

Analisi quali-quantitativa del valore della produzione 2026-2028

In tabella, si forniscono ulteriori elementi di valutazione per l'analisi quali-quantitativa del valore della produzione.

Esaminando la composizione della produzione per periodo emerge il peso crescente degli SF. Il triennio 2026-2028 massimizza l'incremento con una percentuale che passa dal 25% del 2024 al 32%, a conferma dell'impostazione strategica indicata nel Piano.

Nel medesimo periodo le commesse a rendicontazione rappresentano, comunque, il 73%, il 74% e il 68% del valore della produzione, mentre le attività remunerate ad "output" contribuiscono per il 2% e l'1% solo, non trovando al momento riscontro in ulteriori affidamenti. È evidente che il meccanismo di remunerazione delle fee consente un significativo recupero dei costi di funzionamento.

Il rischio di portafoglio connesso nello specifico agli SF è bilanciato dalla diversificazione delle proposte per settori di intervento, destinatari target e dall'incidenza totale sul valore della produzione.

Costi esterni

La voce include i **costi per servizi e consulenze esterne specialistiche attivabili sulle commesse**, il cui andamento segue i piani di progetto e il cui ammontare è declinato nelle tabelle di dettaglio riportate nella sezione "Programma delle attività e degli investimenti".

L'incidenza delle prestazioni di servizio direttamente attivabili su commessa è mediamente intorno al 42%, per l'anno 2026, registrando l'incremento maggiore nel 2027. La variazione è perlopiù riconducibile alle dinamiche del progetto QUANTUM VALLEY proprio per la natura ad alta intensità tecnologica e della specializzazione richiesta dall'iniziativa

La ripartizione operativa dei **costi di struttura** annovera i consumi di materiali, le prestazioni di servizio, i canoni di noleggio e gli oneri diversi di gestione.

L'andamento, coerente con l'aumento dei volumi, riflette una maggiore efficienza operativa e un miglior controllo dei costi generali. Si evidenzia, in particolare, la riduzione dei costi energetici derivante dalla riqualificazione dell'impianto di climatizzazione completata nel 2025. (vedi sezione *PALAZZO MONICA TAVERNINI*).

Come desumibile dalla progressione dei costi, gli interventi di riqualificazione proseguiranno nel 2026. A partire dal 2027, il piano prevede esclusivamente gli oneri relativi ai contratti di manutenzione ordinaria.

Nella seguente tabella si riporta l'andamento per il triennio

Dotazione risorse umane ed eventuale piano occupazionale

Gli oneri del personale indicati nel piano previsionale riflettono l'attuale pianta organica, integrata dalle proiezioni sui futuri pensionamenti e dall'impatto stimato per il rinnovo del CCNL Credito a partire dal 2026.

La società ha una dotazione organica complessiva di n. 149 unità così distribuite:

CCNL CREDITO	Tempo indeterminato	Totale complessivo
Dirigente	2	2
Quadro Dir. - Lv.4	2	2
Quadro Dir. - Lv.3	7	7
Quadro Dir. - Lv.1	12	12
Imp. Area 3 - Lv.4	17	17
Imp. Area 3 - Lv.3	42	42
Imp. Area 3 - Lv.2	20	20
Imp. Area 3 - Lv.1	47	47
Totale complessivo	**149**	**149**

Il trend dei costi risente dell'attuazione delle politiche aziendali volte alla valorizzazione delle risorse ma anche, dell'introduzione di sistemi di valutazione e misurazione delle performance rappresentate al **Punto 8) del presente documento.**

In particolare queste ultime comporteranno un impatto economico nel triennio di riferimento, stimato rispettivamente in circa 150.000, 400.000 e 380.000 euro annui.

Il contratto applicato ai dipendenti a partire dall'anno 2015, quando sono state attuate le disposizioni di cui alla legge n. 15/2023, è quello del Credito.

Alla fine del 2023 è stato rinnovato il CCNL del credito, tale rinnovo ha comportato un incremento del costo del personale nella misura di circa il 14% fino al 2026. Il nuovo contratto collettivo riduce da luglio 2024 le ore di lavoro settimanali da 37 ore e 30 minuti a 37 ore.

In data 22/12/2023 la Società ha sottoscritto l'Accordo Aziendale per la Regolamentazione del Lavoro Agile siglato con le parti sindacali. Sono stati sottoscritti 109 accordi individuali di smart working.
Il Consiglio di Amministrazione nella seduta del 29/09/2025 ha approvato l'utilizzo anche per i quadri direttivi della società dell'Accordo del Lavoro Agile per un giorno a settimana. Sono stati sottoscritti 14 accordi di smart working con i quadri che ne hanno fatto richiesta.

Nel periodo 2026-2028 sono previsti 12 pensionamenti di cui 1 Dirigente.

Sviluppo Campania

Nel corso del 2025, in seguito a sentenza sfavorevole è stata assunta una nuova unità.
Nel mese di aprile 2026 in seguito a sentenza sfavorevole sono state assunte due nuove unità, di cui una dovrebbe andare in pensione nel 2027.

Per fronteggiare il fabbisogno temporaneo e su commessa di personale, in caso di mancata disponibilità di personale interno, la società ricorre alle procedure indicate nell'Albo delle competenze specialistiche e delle Aree tecniche di cui all'Avviso prot. n. 0010839/U del 15/09/2021. L'Albo è sempre aperto ed oggetto di periodici aggiornamenti.

In ottemperanza a quanto prescritto dalla DGR 61/2025 che approva il Piano 2024-2026 la Società ha avviato un percorso di armonizzazione e valorizzazione del personale dipendente al fine di assicurare una maggiore coerenza tra le mansioni svolte e l'inquadramento contrattuale e di ridurre i rischi di contenziosi. Il percorso di armonizzazione è seguito ad una lunga trattativa sindacale, culminata nella sottoscrizione di un accordo con una sola sigla sindacale. Tuttavia, il Consiglio di amministrazione ha rappresentato a tutte le sigle sindacali presenti in azienda di voler lavorare per cercare di riunire le rappresentanze sindacali aziendali, ritenendo una priorità il benessere lavorativo in un clima aziendale favorevole per tutti i dipendenti.

Nello specifico, così come previsto nel piano aziendale della società approvato con DGR n. 61/2025, l'Accordo sottoscritto con i sindacati prevede le seguenti azioni:

1. riconoscimento anzianità convenzionale per fattispecie quali malattia e altri istituti che non abbiano impatto sul costo del personale;
2. incremento orario di lavoro settimanale per coloro che hanno subito la decurtazione dell'orario in sede di riassunzione dalle società di provenienza a Sviluppo Campania;
3. percorsi di carriera, attuati sulla base della normativa vigente.

Pertanto, alla luce anche dei vincoli di bilancio, i contenuti dell'accordo sono stati avviati nel mese di febbraio 2025 e si sono conclusi nel mese di gennaio 2026 quelli relativi alle progressioni per il personale impiegato nelle aree professionali.
Sul punto, infatti, è necessario richiamare l'attenzione sulla sopravvenuta necessaria predisposizione di un apposito regolamento, così come previsto dalla DGR n. 61/2025.

In data 19/02/2025 (Determinazione del Direttore generale n. 41) è stato indetto l'Avviso per Manifestazione di interesse riservato al personale interno: selezione comparativa, riservata ai lavoratori in forza presso Sviluppo Campania S.p.A. per l'acquisizione di profili professionali mediante passaggi di livello.

L'avviso prevede un punteggio massimo assegnabile pari a 100, così suddiviso:

1. Curriculum vitae fino a 20 punti;

2. Colloquio funzionale alla verifica dell'idoneità all'esecuzione delle prestazioni fino a 50 punti;
3. Prova tecnico pratica fino a 30 punti.

La valutazione è stata effettuata da una commissione esaminatrice.

La DGR n. 61/2025, con la quale la Giunta della Regione Campania ha approvato il piano triennale della società, ha espressamente previsto di subordinare l'avvio delle procedure di crescita professionale giuridica e/o economica del personale all'introduzione di un regolamento sulle progressioni di carriera che valorizzi i titoli, le competenze e le esperienze acquisite.

La Delibera è stata trasmessa a mezzo posta certificata il 24/02/2025, quindi in data successiva all'indizione della manifestazione, pertanto, al fine di adeguare gli atti adottati alle indicazioni della Giunta Regionale, si è reso opportuno l'adozione di un regolamento per la conclusione del procedimento avviato, sebbene l'Avviso già contenga i principi richiamati nella DGR.
Al fine di procedere con l'adozione del regolamento, come previsto dall'articolo 81 del CCNL del Credito – coinvolgimento sindacale – i sindacati esprimono loro considerazioni e proposte nell'ambito di una procedura della durata massima di trenta giorni durante la quale vengono condivisi indirizzi, principi e criteri per lo sviluppo professionale dei dipendenti.
È stato avviato e concluso dunque il percorso previsto dall'art. 81 del CCNL ed è stato perfezionato il regolamento per le progressioni di carriera, anche se le riunioni con i sindacati sulle tematiche legate allo sviluppo professionale sono iniziate sin dal 2022.
Inoltre, la società ha tentato di verificare la possibilità di sottoscrizione da parte di tutte le sigle sindacali, fermo restando quanto già previsto nell'accordo sottoscritto, con la possibilità di introdurre ulteriori misure non disciplinate nell'accordo sottoscritto.

Per l'annualità 2026 si prevede l'assunzione di un'unità di personale avente i requisiti ex Lege 68/99 Art.18, per integrare l'organico con il numero di unità previste dalla normativa vigente.
Sulla scorta delle specifiche necessità è prevista la selezione secondo la normativa vigente di un profilo professionale da inquadrare nell'area 2, livello 3.

Il Consiglio di Amministrazione nella seduta del 23/05/2025 ha approvato il Regolamento per le progressioni di carriera predisposto ed ha individuato i componenti della Commissione esaminatrice prevista dalla Manifestazione di interesse prot. 2025/41 del 19/02/2025.

Con Determina n. 150/2025 del 26/05/2025 del Direttore Generale è stata formalizzata l'adozione del regolamento per le progressioni di carriera interne del personale dipendente di Sviluppo Campania S.p.A.
La Commissione esaminatrice è stata nominata con Determina del Direttore Generale n. 174/2025 del 13/06/2025.
La segretaria della commissione è stata nominata con determina n. 188/2025 del 26/06/2025, previa autorizzazione del Consiglio di Amministrazione nella seduta di pari data.

Oggetto:

Consuntivo dell'esercizio 2025 per l'assistenza specialistica ambulatoriale: DIALISI e RADIOTERAPIA

IL DIRETTORE GENERALE s.

PREMESSO:

a. che la Deliberazione della Giunta Regionale n. 800 del 29 dicembre 2023 ha definito, tra l'altro, in via definitiva per l'esercizio 2023 ed in via provvisoria per l'esercizio 2024, i limiti di spesa relativi all'acquisto dalle strutture private accreditate di prestazioni di assistenza specialistica ambulatoriale da parte delle ASL, definendone anche le modalità operative e i conseguenti schemi dei contratti ex art. 8 quinquies del D.Lgs. n. 502/1992 e s.m.i., stanziando un importo complessivo di euro 592.463.590;
b. che la successiva delibera della Giunta regionale n. 757 del 27 dicembre 2024, tra l'altro, ha rimodulato ed approvato i volumi massimi di prestazioni e dei correlati limiti di spesa, da assegnare a ciascuna struttura privata accreditata per la specialistica ambulatoriale, in via definitiva, per l'esercizio 2024, incrementandoli di euro 5.000.000;
c. che, successivamente, la DGRC n. 741 del 22.10.2025 ha stabilito di confermare per l'esercizio 2025 l'assegnazione complessiva di euro 597.463.590, che la DGRC n. 757/2024 aveva stabilito in via provvisoria per la macroarea della specialistica ambulatoriale, fatte salve eventuali e più favorevoli sopravvenienze normative, poi non intervenute;
d. che con la medesima Deliberazione n. 757/2024 sono stati determinati, in via provvisoria per l'esercizio 2025, i volumi di prestazioni e i correlati limiti di spesa calcolati sulla base del fabbisogno regionale, confermando le modalità operative e le disposizioni di cui alla citata DGRC n. 800/2023rinviando l'adozione dei nuovi schemi contrattuali ad una successiva delibera;
e. che la delibera della Giunta regionale n. 175 del 2 aprile 2025 (parzialmente modificata dalla DGRC n. 694 del 08.10.2025 e integrata dalla DGRC n. 755 del 04.11.2025, riguardo alle branche della dialisi e della radioterapia), in attuazione delle disposizioni recate dalla DGRC n. 757/2024, ha approvato i nuovi schemi contrattuali, da stipularsi tra le ASL e le singole strutture private accreditate per le varie branche dell'assistenza specialistica ambulatoriale, recanti il tetto di spesa definitivo 2024 e quello provvisorio 2025;
f. che gli schemi dei contratti ex art. 8 quinquies del D.Lgs. n. 502/1992 e s.m.i., inerenti ai tetti di spesa definitivi 2024 e provvisori 2025, approvati dalle soprarichiamate DDGGRRCC hanno confermato, per le branche della Diabetologia, Branche a Visita, Cardiologia, Medicina Nucleare, Radiodiagnostica, Laboratorio di Analisi e Medicina Fisica e Riabilitazione (FKT), la norma in base alla quale sussiste: "*la possibilità, per le strutture che lo ritengano vantaggioso, di produrre un extra tetto che – entro il 10% del tetto di spesa netta – potrà essere remunerato a consuntivo nella misura di almeno il 30%*";
g. che per le branche della Dialisi ambulatoriale e della Radioterapia, in virtù del carattere indifferibile e "*salvavita*", fin dai DCA n. 24 e n. 85/2011, vige una specifica regolamentazione, che prevede – in caso di sforamento - l'integrazione a consuntivo dei relativi limiti di spesa, dopo tutti i controlli ed abbattimenti dovuti, operando:
    a. la compensazione tra sottoutilizzi e sforamenti dei tetti di spesa assegnati ai centri privati operanti nella medesima ASL;
    b. la compensazione, poi, a livello regionale tra gli eventuali risparmi realizzati in una ASL e gli sforamenti residui nelle altre ASL;
    c. dopo i due passaggi precedenti: una decurtazione del 35% della tariffa sugli eventuali sforamenti residui dei tetti di spesa dei singoli centri privati;
h. in coerenza con tali disposizioni, gli schemi di contratto tra le ASL e i singoli centri privati accreditati, operanti nelle branche della Dialisi ambulatoriale e della Radioterapia, approvati dalle menzionate DGRC n. 800/2023 e n. 175/2025 (quest'ultima parzialmente modificata per la Radioterapia dalla DGRC n. 694 del 08.10.2025), dopo aver stabilito, all'art. 4, l'importo del limite di spesa individuale, prevedono all'art. 5 (*criteri di remunerazione delle prestazioni*) la seguente pattuizione: "*Le parti si danno atto che eventuali superamenti del limite di spesa di cui al precedente art. 4 potranno essere remunerati a consuntivo sulla base di quanto effettivamente erogato, previa stipula di apposito accordo integrativo tra la ASL ed il sottoscritto centro privato*";

i. che per la Radioterapia, lo schema di contratto vigente per l'esercizio 2025 di cui alla DGRC 694 del 08.10.2025, prevede altresì che gli acconti in corso d'anno siano commisurati all'85% della produzione resa;

DATO ATTO:

a. che la DGRC 755 del 04.11.2025, in considerazione del carattere indifferibile e "*salvavita*" delle prestazioni di Dialisi ambulatoriale e di Radioterapia, e al fine di evitare interruzioni e/o ritardi nella erogazione di tali prestazioni, ha semplificato e limitato le procedure vigenti, finalizzate a remunerare la spesa eccedente i limiti prefissati, ai seguenti atti da eseguirsi da parte della ASL competente:
a.1 per l'esercizio 2024, sia per la Dialisi ambulatoriale, che per la Radioterapia, ciascuna ASL, con delibera del Direttore Generale, riconosce e liquida i superamenti dei limiti di spesa assegnati alle singole strutture private accreditate, applicando per la Radioterapia la menzionata regressione tariffaria, e certificando l'avvenuta esecuzione di tutti i controlli ed applicato tutti gli abbattimenti previsti dalla normativa vigente;
a.2 per l'esercizio 2025, il Direttore Generale della ASL dovrà adottare una formale delibera, che esamini ed approvi i controlli eseguiti dalle competenti strutture della ASL in merito alla appropriatezza e regolarità delle prestazioni di radioterapia e di dialisi erogate dai centri privati, ed autorizzi la liquidazione ed il pagamento degli acconti mensili anche oltre il limite di spesa annuale assegnato al singolo centro privato;
a.3 successivamente, in sede di saldo annuale:
a.3.1 entro due mesi dalla fine dell'esercizio precedente, ogni ASL accerterà il consuntivo liquidabile a ciascuna struttura privata, al netto di tutti i controlli ed abbattimenti, procedendo con delibera del Direttore Generale alla compensazione tra sforamenti e sottoutilizzi all'interno della ASL;
a.3.2 sulla base del consuntivo delle diverse ASL, che sarà accertato con decreto della Direzione Generale Tutela della salute e Coordinamento del Sistema Sanitario Regionale, ciascuna ASL, con delibera del Direttore Generale, procederà a riconoscere e liquidare gli eventuali residui superamenti dei limiti di spesa assegnati alle singole strutture private accreditate, applicando la menzionata regressione tariffaria sulla eccedenza netta a livello regionale, e dando atto che i competenti Uffici aziendali hanno svolto tutti i controlli ed applicato tutti gli abbattimenti previsti dalla normativa vigente;
a.4 le menzionate delibere dei Direttori Generali delle ASL dovranno essere immediatamente inviate alla Direzione Generale per la Tutela della Salute per consentire l'aggiornamento tempestivo della programmazione regionale;

1. Scopo del documento

Facendo seguito alla richiesta del DG di Regione Campania, pervenuta con lettera protocollo numero 0587327/2025 del 03/11/2025, il presente documento ha l'obiettivo di indirizzare la progettualità relativa all'implementazione, a livello regionale, dei due nuovi flussi informativi nazionali SIAP (Sistema Informativo dell'Assistenza Primaria) e SIOC (Sistema Informativo per il monitoraggio delle attività erogate dagli Ospedali di Comunità), rientranti nell'obiettivo di investimento M6C2 1.3.2 "Adozione da parte delle regioni di 4 nuovi flussi informativi nazionali", in maniera aderente ai dettagli funzionali e tecnici espressi dal Ministero della Salute con i decreti del 4 agosto 2025, recepiti e adottati con il DGRC n. 672 del 30/09/2025 (Burc n. 69 del 6 ottobre 2025), e nel rispetto delle scadenze del target PNRR M6C2-00-ITA-15.
La proposta si colloca nell'ambito del servizio di acquisizione e gestione dei flussi informativi e in generale delle funzioni applicative della piattaforma GAF (Gestione Accoglienza Flussi), dei servizi di reportistica e monitoraggio del DWH.

2. Oggetto dell'iniziativa

Gli interventi progettuali descritti nel presente documento:

- garantiscono l'adeguamento di Regione Campania ai nuovi flussi ministeriali NSIS
    - **SIAP**, relativo a medici di medicina generale, pediatri di libera scelta e continuità assistenziale, con l'obbligo di invio mensile dal 2026 e settimanale dal 2027 come da specifiche ("Specifiche_funzionali_SIAP_v1.1_Dicembre 2025.pdf").
    - **SIOC**, relativo agli ospedali di comunità, con obbligo di invio trimestrale, riportati nelle specifiche fornite ("Specifiche funzionali del sistema informativo ospedali di comunità (SIOC) - versione 1.1 Ottobre 2025.pdf").
- garantiscono l'integrazione dei sistemi del Sistema Informativo Regionale con il nuovo GAF ministeriale, riutilizzando ed evolvendo i moduli già standardizzati (modulo di back-office, cruscotto di monitoraggio e cooperazione applicativa M2M verso GAF).
- Implementano i moduli applicativi specifici SIAP / SIOC della piattaforma regionale Sinfonia per la raccolta, trasformazione, pseudonimizzazione e trasmissione dei nuovi dataset al Ministero della Salute nonché permettono, di ritorno, la diffusione degli esiti delle elaborazioni ai produttori dei dati.
- Assicurano sicurezza, qualità dei dati e continuità progettuale anche attraverso il potenziamento della capacità dell'infrastruttura, che verrà adeguata tecnologicamente per renderla scalabile a gestire la mole di dati prevista dal flusso SIAP e per gestire l'incremento di transazioni di integrazione con gli altri sistemi regionali quali l'anagrafe assistiti (AR) e l'anagrafe strutture e medici.

Per quanto riguarda il flusso SIAP gli interventi di cui sopra sono finalizzati all'istituzione di un nuovo debito informativo regionale in capo ai medici del ruolo unico in forza del Decreto Ministeriale e di quanto previsto dall'art. 6 dell'ACN "Flussi Informativi" punti 1 e 2, lettera a) mediante la cooperazione ed interoperabilità dei propri applicativi, nel rispetto della normativa sulla privacy. Al fine della soluzione, si richiamano l'art. 43 dell'ACN rispetto agli obblighi sulla tenuta e l'aggiornamento della scheda sanitaria individuale informatizzata (SSI) di ciascun assistito, uso della scheda informatizzata "ad utilità dell'assistito e del SSN", condivisione con altri medici della AFT e integrazione con il sistema informativo regionale.
La soluzione proposta prevede un allineamento M2M (machine-to-machine), temporizzato automatico o confermato dai medici, tra i software di Cartella Clinica o eventuali altri software e i sistemi centrali regionali (API di Sinfonia). Il portale Sinfonia acquisirà i dati solamente dai Software di Cartella Clinica che avranno superato un primo processo di validazione secondo i processi previsti da So.Re.Sa S.p.A. I Medici di Assistenza Primaria avranno visibilità degli esiti di elaborazione periodici regionali e ministeriali attraverso il portale Sinfonia o via cooperazione applicativa.

Per quanto riguarda il flusso SIOC, attualmente non gestito, verranno create le dimensioni informative necessarie. Il supporto consulenziale e gli interventi sono quindi finalizzati alla creazione del debito informativo regionale in capo agli Ospedali di Comunità ed accompagnamento del Territorio per la raccolta del nuovo dataset. Per questo è possibile prevedere interventi di cooperazione applicativa con sistemi terzi.

3. Architettura della soluzione proposta

fonte: http://burc.regione.campania.it

La soluzione proposta si fonda sull'evoluzione della piattaforma regionale Sinfonia sia in termini di area gestionale/applicativa, sia in termini di acquisizione flussi GAF (Gestione Accoglienza Flussi) di cui si riportano le principali linee di intervento dovuti agli scenari intrapresi:

- **Acquisizione e controllo immediato della qualità del dato**, alimentano i sistemi verticali dei flussi, storicizzazione ed elaborazione/produzione periodica dei tracciati ministeriali per il caricamento successivo in NSIS

    - Flusso SIAP:

        - Acquisizione a valle dell'implementazione di una nuova area applicativa da dare di medici per inserire le informazioni necessarie delle prestazioni. Le principali informazioni anagrafiche dell'assistito verranno recuperate in automatico a seguito di ricerca da parte dei MMG/PLS e verrà richiesto di inserire le sole informazioni non gestite (sia di anagrafe, che di contatto che di organizzazione). In tal caso, si prevede l'invio automatico del flusso in GAF a fronte dell'immissione dei dati in maniera automatica secondo determinate logiche escludendo quindi ulteriore lavoro ai MMG/PLS;

        - Acquisizione a valle dell'implementazione di apposita cooperazione applicativa con sistemi terzi che vadano a recuperare le informazioni attualmente non gestite dall'applicativo Sinfonia ma gestite appunto su altri applicativi. (ad es. CCE)
          La soluzione proposta prevede la realizzazione di un nuovo Servizio (SIAP Verticale) per la cooperazione applicativa "ad eventi" con altri software allo scopo di recepire tempestivamente dati ed aggiornamenti delle informazioni inserite. È quindi prevista la realizzazione di un nuovo modulo applicativo della piattaforma Sinfonia per l'esposizione via API Manager regionale dei metodi per l'invio dati in tempo reale e la consultazione differita degli esiti delle elaborazioni centrali del back end del modulo SIAP. Le interfacce delle API avranno un contenuto informativo speculare a quello definito dai tracciati ministeriali, mutuando le codifiche e sistemi di controllo degli eventi oggetto di debito informativo. I dati raccolti verranno quindi anonimizzati e successivamente, tramite generazione del codice CUNI, a valle del consolidamento, trasmessi in formato XML al Ministero della Salute. La soluzione prevede invii mensili a partire dal 2026 e settimanali dal 2027, in linea con le disposizioni ministeriali e con le prescrizioni del parere del Garante della privacy 315/2025.
          Il nuovo servizio centrale andrà a recepire in tempo reale i contatti con gli assistiti che vengono registrati nella cartella clinica/Scheda Sanitaria Informatica (SSI) o in altri eventuali software da parte del medico a ciclo di scelta o a regime orario, rilevando data, modalità di contatto e tipologia di accesso alle cure primarie per prestazioni/attività SSN (erogate indistintamente negli studi medici, case di comunità, ambulatorio o al domicilio, in forma singola o di AFT). Le dimensioni informative che il SIAP indirizza sono:
            - Assistito: descrive chi è il paziente (anagrafe, amministrazione, rischio clinico).
            - Contatto: descrive cosa è stato fatto, quando e come (evento clinico-assistenziale).
            - Organizzazione: descrive dove e in quale struttura/contesto opera il medico che ha erogato il contatto.

          Sui dati in ingresso verranno applicati immediatamente i controlli formali e di merito rispetto alle regole generali del flusso SIAP, che permetteranno l'acquisizione dei soli dati completi e di qualità utili al debito ministeriale.

          I dati della dimensione "assistito" verranno acquisiti ed eventualmente arricchiti in relazione ai fattori di rischio (es. patologie croniche) con le fonti anagrafiche regionali/nazionali di assistiti (dati anagrafici di base ARA/ANA, dati di iscrizione al SSR, medico curante, esenzioni ecc.) e strutture/organizzazione (AFAM e Anagrafe Medici per l'organizzazione delle attività).

fonte: http://burc.regione.campania.it

Nei dati dei “contatti” verranno rilevati i problemi emergenti codificati (ICD10-IM), monitorati lo stato della loro evoluzione e la loro gestione in termini di tipologia e quantità di attività, prestazioni erogate:

- Visite ambulatoriali e domiciliari.
- Contatti telefonici/teleconsulti.
- Attività programmate (es. bilanci di salute pediatrico, follow-up cronici).
- Prestazioni di prevenzione e screening (vaccinazioni, counselling).
- Prestazioni di particolare impegno professionale (PPIP).
- Accessi di assistenza domiciliare (ADI, ADP).
- Attività in continuità assistenziale e per turisti.
- Altre attività codificate dagli allegati tecnici del DM.

I dati del verticale SIAP saranno modificabili e cancellabili, a seguito di aggiornamenti da parte dei software invianti, in maniera speculare alle regole di gestione delle chiavi delle tre dimensioni informative del flusso Ministeriale, evitando ridondanze di dati (1 record assistito, 1 record organizzazione e N contatti per la coppia Assistito – Organizzazione).

Mensilmente per il 2026 e settimanalmente dal 2027, i dati del verticale SIAP verranno elaborati per la generazione e storicizzazione dei tracciati XML SIAP ministeriali, attribuendo il CUNI e applicando nuovamente il sistema di controllo ministeriale per i dati delle dimensioni informative arricchite dalla procedura SIAP verticale. Il raffronto dei dati dei diversi periodi storicizzati, permetterà di determinare i record di “I” inserimento, “V” variazione e “C” cancellazione delle tre dimensioni informative contatto, assistito ed organizzazione rispetto ai periodi precedenti o rispetto agli esiti Ministeriali, per l’eventuale reinvio dei record. Le dimensioni informative del SIAP saranno quindi allineate con quanto acquisito ed elaborato dal Ministero della Salute, marcando gli eventuali record errati o con avvertimenti.

- Flusso SIOC: la soluzione proposta prevede la creazione del tracciato ministeriale SIOC in formato XML secondo le specifiche NSIS, garantendo la piena conformità al sistema di controllo ministeriale. La trasmissione dei dati verrà effettuata dagli operatori del Territorio. In acquisizione il GAF regionale applicherà i controlli definiti da specifica tecnica compresa la diffusione degli esiti al Territorio, con un modello logico e di consolidamento dati analogo a quello descritto per il SIAP. Anche per il SIOC verranno realizzati controlli rispetto alle anagrafi centrali di assistiti.

- **Modulo di back-office regionale dei Flussi**, che verrà adeguato ed esteso alla gestione dei due nuovi flussi SIAP e SIOC, permettendo il recepimento degli esiti delle elaborazioni e la marcatura degli eventi per le successive modifiche ed integrazioni da parte degli enti regionali aderenti. Il Backoffice diventerà uno spazio completo per monitorare, schedulare ed eseguire le elaborazioni dei flussi, con una forte componente di configurazione amministrativa e integrazione con dashboard, controlli ed esiti.

- **Sistema direzionale DWH (Business Object regionale) e cruscotti nel sistema di governo (Tableau) relativamente ai 2 nuovi flussi PNRR**

2 CONTESTO

L'amministrazione contraente è **So.Re.Sa. S.p.A.** – Società Regionale per la Sanità – è una società strumentale costituita da Regione Campania per la realizzazione di azioni strategiche finalizzate alla razionalizzazione della spesa sanitaria regionale. Per la sua natura di ente strumentale, opera esclusivamente nell'interesse del socio pubblico e delle aziende del servizio sanitario regionale ed è sottoposta dalla Regione a un controllo analogo a quello esercitato sui propri servizi.

Inoltre, So.Re.Sa. S.p.A. fornisce supporto alle aziende sanitarie campane per la corretta applicazione del Modello regionale di Controllo di gestione aziendale e per la corretta implementazione dei Processi amministrativi e contabili lungo il Percorso alla certificabilità dei bilanci attraverso il consolidamento del SIAC (Sistema Informativo Amministrativo Contabile).

So.Re.Sa. S.p.A., infine, supporta i processi e i servizi di innovazione digitale della Regione Campania con le piattaforme Sinfonia, SIAC, SIAPS e Campania Open Innovation, nello specifico:

- Supporta la Regione Campania nella Governance e nella gestione della trasformazione digitale del Servizio Sanitario Regionale;
- Gestisce il Sistema Informativo Sanitario Regionale;
- Partecipa alla realizzazione di progetti di sanità digitale;
- Promuove il Procurement Pubblico di Innovazione.

2.1 Obiettivi dell'Amministrazione

L'Amministrazione intende implementare, a livello regionale, un'infrastruttura ed una piattaforma regionale per la raccolta, l'elaborazione, l'analisi, la simulazione e il monitoraggio dei flussi informativi sanitari PNRR M6C2 1.3.2., pienamente integrati e interconnessi con le aree già esistenti e interoperabili con i sistemi informativi aziendali.

L'obiettivo è consentire la registrazione, la gestione e il monitoraggio dei dati relativi ai seguenti domini sanitari strategici: Assistenza Primaria (SIAP) e Ospedali di Comunità (SIOC).

Sistema Informativo Assistenza Primaria (SIAP)
Il sistema dedicato all'Assistenza Primaria è finalizzato alla raccolta strutturata delle informazioni relative alle attività e alle prestazioni erogate nell'ambito delle cure primarie, rilevate dai professionisti sanitari e dalle strutture censite secondo il modello ministeriale STS11.
Il dominio comprende l'intero set informativo previsto per l'assistenza sanitaria di base, incluse le prestazioni rese nell'ambito della continuità assistenziale e dell'assistenza ai turisti, in conformità agli articoli 4, 5 e 6 del DPCM 12 gennaio 2017 relativo alla definizione e all'aggiornamento dei LEA. L'obiettivo è garantire una raccolta dati uniforme, completa e coerente con gli standard nazionali, migliorando la capacità regionale di monitorare i processi assistenziali territoriali.

Sistema Informativo Ospedale di Comunità (SIOC)
Il dominio informativo relativo agli Ospedali di Comunità riguarda la raccolta, la gestione e la tracciabilità delle attività e delle prestazioni erogate da queste strutture, che rappresentano un livello intermedio tra il domicilio dell'assistito e il ricovero ospedaliero.
Gli Ospedali di Comunità svolgono una funzione essenziale nella rete territoriale, rappresentando il livello assistenziale intermedio che consente di gestire i pazienti che non necessitano di un ricovero

fonte: http://burc.regione.campania.it

per acuti. Queste strutture permettono di ridurre i ricoveri impropri, garantire percorsi di dimissione protetta e assicurare interventi di stabilizzazione clinica e recupero funzionale in un contesto più vicino al domicilio dell'assistito, favorendo così continuità e prossimità delle cure.
Il sistema informativo dedicato assicura una tracciabilità completa e uniforme delle prestazioni erogate, in coerenza con il modello organizzativo dell'Assistenza Territoriale e con gli standard previsti dal DM 77/2022.

La proposta si colloca nel più ampio processo di potenziamento e integrazione dell'Ecosistema Sinfonia, in linea con gli indirizzi nazionali di digitalizzazione dei flussi informativi sanitari e con le strategie regionali di rafforzamento della rete territoriale. La progettualità rientra nell'ambito dell'investimento M6C2 1.3.2 – "Adozione da parte delle Regioni di 4 nuovi flussi informativi nazionali", in coerenza con i requisiti funzionali e tecnici definiti dal Ministero della Salute nei decreti del 4 agosto 2025, recepiti con DGRC n. 672 del 30/09/2025 (BURC n. 69 del 6 ottobre 2025).

Le attività sono pianificate nel rispetto delle scadenze previste dal target PNRR M6C2-00-ITA-15, configurandosi come un tassello essenziale per garantire un modello di raccolta, gestione e monitoraggio dei dati omogeneo, interoperabile e pienamente aderente agli standard nazionali.

2.2 Soggetti coinvolti

I fabbisogni individuati e le progettualità che verranno implementate prevedono il possibile coinvolgimento dei seguenti soggetti:

- **So.Re.Sa. S.p.A.** – Società Regionale per la Sanità – è una società strumentale costituita da Regione Campania per la realizzazione di azioni strategiche finalizzate alla razionalizzazione della spesa sanitaria.
- **Regione Campania** - Ufficio Tutela della Salute e Coordinamento del Sistema Sanitario Regionale – La D.G. 04 della Regione Campania rappresenta la struttura amministrativa preposta alla programmazione, al coordinamento e alla supervisione del Sistema Sanitario Regionale, assicurandone il corretto funzionamento e l'uniformità dei servizi sul territorio.
- **ASL** - **Aziende Sanitarie Locali** - Enti territoriali del Servizio Sanitario Regionale incaricati di garantire l'erogazione dei servizi sanitari e socio-sanitari ai cittadini.

5 DESCRIZIONE DEI SINGOLI SERVIZI RICHIESTI

5.1 Sviluppo di applicazioni Software Ex novo – Green Field (SA)

Attività e obiettivi previsti

Gli interventi progettuali descritti nel presente documento sono finalizzati a potenziare in modo significativo il patrimonio informativo regionale, attraverso la digitalizzazione e la messa in esercizio di due nuovi domini sanitari strategici: SIAP – Assistenza Primaria e SIOC – Ospedali di Comunità.

La realizzazione di tali sistemi consentirà alla Regione Campania di disporre di strumenti evoluti per la raccolta, la gestione e il monitoraggio dei dati territoriali, garantendo uniformità, completezza e coerenza con gli standard nazionali.

Il dominio SIAP – Assistenza Primaria permetterà di acquisire in modo strutturato le informazioni relative alle attività e alle prestazioni erogate nell'ambito delle cure primarie, secondo il modello ministeriale STS11.

Il sistema assicurerà la registrazione uniforme dell'intero set informativo previsto per l'assistenza di base, comprese le prestazioni di continuità assistenziale e quelle rivolte ai turisti, in conformità al DPCM LEA del 12 gennaio 2017.

Parallelamente, il dominio SIOC – Ospedali di Comunità garantirà la raccolta e l'organizzazione dei dati relativi alle attività svolte da queste strutture territoriali intermedie, che rappresentano un livello assistenziale fondamentale tra il domicilio dell'assistito e il ricovero ospedaliero.

Il sistema consentirà di monitorare i percorsi assistenziali, supportare la gestione dei casi che richiedono stabilizzazione clinica, recupero funzionale o dimissioni protette e assicurare una tracciabilità completa e uniforme delle prestazioni erogate.

Gli interventi previsti rafforzano inoltre l'integrazione tra i diversi domini dell'Ecosistema Sinfonia, garantendo l'allineamento continuo dei dati con l'Anagrafe Assistiti, l'Anagrafe Strutture, l'area Medicina di Base e Pediatria di Libera Scelta, la Gestione Accoglienza Flussi, la Gestione Operativa e le Centrali Operative Territoriali (COT).

Tale integrazione assicura una circolazione informativa uniforme e interoperabile tra i sistemi regionali, favorendo la coerenza dei processi e la qualità dei dati.

Un ulteriore obiettivo riguarda la capacità dei nuovi sistemi di dialogare con i software già installati presso gli Ospedali di Comunità e con le soluzioni informatiche utilizzate negli studi dei Medici di Medicina Generale e dei Pediatri di Libera Scelta.

Attraverso meccanismi di cooperazione applicativa e interfacce standardizzate, sarà possibile recuperare informazioni cliniche e operative attualmente non gestite da Sinfonia, riducendo la frammentazione dei dati e valorizzando il patrimonio informativo esistente.

fonte: http://burc.regione.campania.it

Le nuove soluzioni permetteranno inoltre alle Aziende Sanitarie Locali di informatizzare le attività svolte presso le sedi di Guardia Medica, Guardia Turistica e Case della Comunità, soprattutto nei contesti in cui tali strutture non dispongono di sistemi informativi dedicati. In questo modo sarà possibile garantire la registrazione strutturata delle attività erogate e la loro trasmissione al Sistema NSIS, assicurando che anche tali prestazioni confluiscano nel flusso informativo nazionale e contribuiscano a una rappresentazione completa e omogenea dei servizi territoriali.

Allo stesso modo, le ASL potranno usufruire di un sistema informativo regionale nei casi in cui non siano presenti soluzioni applicative aziendali, garantendo uniformità operativa e continuità dei processi.

Per sostenere tali obiettivi, l'infrastruttura tecnologica regionale sarà potenziata per garantire scalabilità, sicurezza e continuità operativa, così da gestire l'aumento dei volumi informativi generati dai nuovi processi sanitari e l'incremento delle transazioni di integrazione con gli altri sistemi regionali.

La soluzione proposta mira a mettere a disposizione delle Aziende Sanitarie Locali e degli attori coinvolti sistemi informativi dedicati, progettati per digitalizzare e governare in modo strutturato i processi dell'assistenza primaria e dei servizi erogati dagli Ospedali di Comunità, contribuendo al progressivo arricchimento del patrimonio informativo regionale. L'approccio adottato supera la logica della mera raccolta dei dati prevista dai flussi istituzionali, orientandosi verso un modello più ampio di valorizzazione delle informazioni clinico-assistenziali, così da supportare in modo più efficace le attività di monitoraggio, programmazione e governo del sistema sanitario territoriale.

In questo quadro, l'architettura applicativa è concepita per garantire elevati livelli di interoperabilità, prevedendo l'integrazione nativa con i sistemi già presenti presso le strutture territoriali e i professionisti. Tale integrazione facilita lo scambio strutturato delle informazioni, riduce le duplicazioni, assicura la coerenza dei dati e sostiene la continuità dei processi assistenziali. La cooperazione applicativa, basata su interfacce standardizzate e meccanismi di comunicazione sicuri, consente ai sistemi regionali di dialogare con le soluzioni aziendali, abilitando un processo informativo omogeneo, tempestivo e pienamente interoperabile.

Grazie a questo modello, la Regione Campania potrà disporre di un ecosistema informativo più completo e affidabile, capace di integrare i dati provenienti dai diversi contesti operativi — dagli studi dei professionisti ai servizi territoriali, fino agli Ospedali di Comunità — e di restituire una visione unitaria e coerente dei processi sanitari. L'obiettivo finale è rafforzare la capacità del sistema regionale di leggere, interpretare e utilizzare i dati, trasformandoli in uno strumento concreto di supporto alle decisioni e di miglioramento dei servizi erogati ai cittadini

Art. 2 Premesse e oggetto

La Regione Campania, nell'ambito del Programma Regionale Campania FSE+ 2021–2027 – Priorità 3 "Inclusione Sociale" – Obiettivo Specifico ESO 4.11, che è volto a migliorare l'accesso a servizi di qualità, sostenibili e accessibili, promuovendo modelli di intervento integrati e centrati sulla persona, con particolare attenzione ai soggetti vulnerabili, promuove il presente Avviso non competitivo finalizzato al rafforzamento dei servizi territoriali per la presa in carico integrata delle persone con disturbi della salute mentale, nonché alla realizzazione di percorsi personalizzati di inclusione sociale e lavorativa.

In coerenza con il quadro programmatorio di riferimento e con le consolidate prassi regionali basate su Progetti Terapeutico-Riabilitativi Individualizzati (PTRI) e Budget di Salute, l'intervento si propone di sostenere e sviluppare un sistema integrato di servizi multidisciplinari, territoriali e personalizzati, in grado di rispondere in modo efficace ai bisogni complessi delle persone e dei nuclei familiari.

Le attività finanziate si configurano come interventi integrativi e complementari rispetto ai Livelli Essenziali di Assistenza (LEA) e sono finalizzate a rafforzare i percorsi di presa in carico multidimensionale, il supporto ai nuclei familiari e l'inclusione sociale e lavorativa, senza determinare sovrapposizioni con le prestazioni sanitarie già garantite dal Servizio Sanitario Nazionale.

L'intervento è finalizzato a:

- promuovere percorsi personalizzati di inclusione sociale e lavorativa, orientati allo sviluppo delle competenze e all'autonomia, attraverso la definizione di progetti personalizzati che presentano elementi di coerenza con i Progetti Terapeutico-Riabilitativi Individualizzati (PTRI), costruiti sulla base della valutazione multidimensionale dei bisogni della persona e finalizzati all'integrazione di interventi sociosanitari, sociali, educativi e, ove possibile, lavorativi, anche mediante il coinvolgimento dei servizi per il lavoro e l'utilizzo dei servizi disponibili nel catalogo dei servizi erogati dagli Enti del Terzo Settore;
- rafforzare l'autonomia personale, relazionale e abitativa delle persone con disturbi della salute mentale, mediante l'attivazione di percorsi personalizzati che prevedono interventi educativi, abilitativi, di socializzazione e di supporto all'autonomia, realizzati in contesti di vita e in raccordo con la rete territoriale dei servizi;
- sostenere i nuclei familiari attraverso azioni integrate di accompagnamento, orientamento e supporto, tramite attività di tutoraggio finalizzata al coinvolgimento attivo nelle fasi di valutazione, definizione e attuazione del progetto personalizzato;
- sviluppare modelli territoriali multidisciplinari di presa in carico, fondati sulla collaborazione tra servizi sanitari, sociali, educativi e del lavoro, attraverso il coinvolgimento coordinato delle équipe multidisciplinari dei Dipartimenti di Salute Mentale, degli Ambiti territoriali sociali e degli altri attori della rete, al fine di garantire una valutazione integrata e una risposta unitaria ai bisogni della persona;
- favorire la continuità assistenziale e il raccordo tra i diversi livelli di intervento, assicurando una presa in carico globale e integrata, il coordinamento tra servizi sanitari, sociali e del lavoro;

fonte: http://burc.regione.campania.it

- sperimentare e consolidare modelli integrati ispirati al Budget di Salute e PTRI, quali strumenti di personalizzazione degli interventi, offrendo percorsi integrati di cura e inclusione, calibrati sui bisogni della persona e articolati nelle diverse dimensioni della vita (abitare, socialità, formazione-lavoro);
- prevenire e contrastare condizioni di esclusione sociale e marginalità, attraverso interventi tempestivi, personalizzati e continuativi, attivati a seguito della intercettazione del bisogno e integrati con i servizi territoriali competenti;
- promuovere la partecipazione attiva dei destinatari e dei nuclei familiari ai percorsi di presa in carico, valorizzando il coinvolgimento diretto degli stessi nelle fasi di valutazione, coprogettazione e monitoraggio del progetto, nel rispetto dei principi di autodeterminazione e centralità della persona.

L'intervento si realizza attraverso l'attivazione di progetti personalizzati, costruiti a partire da una valutazione multidimensionale dei bisogni, e attuati dalle Aziende Sanitarie Locali

In coerenza con l'assetto operativo e organizzativo meglio descritto nei successivi paragrafi del presente Avviso, relativamente a ciascuna Linea di Attività, è prevista un'azione di comunicazione che sarà realizzata direttamente dalla Regione Campania a valere sul Piano di Comunicazione adottato con DGR n. 709 del 20/12/2022 in stretto raccordo con le ASL territorialmente competenti, che supportano l'attuazione dell'intervento a livello locale.

Le azioni previste dal presente Avviso si inseriscono in una strategia più ampia di integrazione tra politiche sanitarie, sociali e del lavoro e sono attuate in complementarità con gli altri programmi regionali, nazionali ed europei, al fine di garantire un approccio unitario e coordinato alle politiche di inclusione sociale.

Art. 3 Destinatari

1.I destinatari delle misure previste dal presente Avviso sono le donne, gli uomini e le persone non binarie con disabilità conseguenti a disturbi della salute mentale, residenti nel territorio della Regione Campania, con i relativi nuclei familiari ove coinvolti nel percorso personalizzato che, sulla base della valutazione dei servizi competenti, risultino idonei ad essere inseriti in percorsi di inclusione attiva in linea con le indicazioni fornite nell'ambito dello strumento del PTRI.

In coerenza con le finalità dell'intervento, è richiesta, ai fini dell'accesso, una diagnosi già formalizzata all'avvio delle attività relativa a disturbi della salute mentale, incluse nell'ambito dello spettro autistico le diagnosi cosiddette "ad alto funzionamento", dalla quale emerga, unitamente alla valutazione multidimensionale del fabbisogno, la coerenza e l'appropriatezza dell'attivazione di interventi di inclusione attiva, autonomia, socializzazione, accompagnamento e, ove possibile, inclusione lavorativa.

Sulla base della diagnosi e degli esiti della valutazione multidimensionale si costruisce un progetto personalizzato nell'ambito del quale sono ricompresi i servizi ritenuti più idonei al conseguimento delle finalità di cui al presente Avviso.

L'intervento è rivolto, in via prioritaria, ai destinatari con un valore ISEE fino ad euro 25.000/00, quale criterio volto a favorire l'accesso equo ai servizi da parte delle persone in condizioni di maggiore vulnerabilità socio-economica. La soglia ISEE non costituisce requisito esclusivo di accesso, restando ferma la necessità di assicurare la presa in carico delle persone per le quali i servizi competenti rilevino un fabbisogno coerente con le finalità dell'intervento e con l'attivazione di percorsi personalizzati di inclusione attiva.

Art. 4 Beneficiari

fonte: http://burc.regione.campania.it

Sono beneficiari e soggetti attuatori del presente Avviso le Aziende Sanitarie Locali (ASL) - Dipartimenti di Salute Mentale della Regione Campania. Le ASL sono responsabili della progettazione, attuazione, gestione, monitoraggio e rendicontazione degli interventi ammessi a finanziamento, nel rispetto della normativa europea, nazionale e regionale applicabile, del PR Campania FSE+ 2021–2027, del presente Avviso, dell'atto di concessione e della manualistica di riferimento del Programma.

Ai fini dell'attuazione degli interventi, le ASL assicurano obbligatoriamente il raccordo con gli Ambiti Territoriali Sociali competenti per territorio. Coinvolgono, se del caso, gli Enti del Terzo Settore nell'erogazione dei servizi previsti dai progetti personalizzati. Qualora i progetti personalizzati prevedano interventi finalizzati all'inclusione lavorativa, le ASL assicurano altresì il raccordo con i Centri per l'Impiego, con i soggetti autorizzati ai servizi per il lavoro e con gli ulteriori soggetti competenti, secondo le rispettive attribuzioni istituzionali.

Il coinvolgimento dei soggetti della rete territoriale non comporta il trasferimento della titolarità dell'operazione, che resta in capo all'ASL beneficiaria, quale soggetto responsabile in ordine alla corretta realizzazione degli interventi, alla coerenza delle attività con i progetti personalizzati, all'ammissibilità delle spese, al monitoraggio fisico, procedurale e finanziario, all'alimentazione dei sistemi informativi, alla rendicontazione e alla conservazione della documentazione ai fini dei controlli previsti dal PR Campania FSE+ 2021–2027.

Le modalità di individuazione, descrizione e attivazione dei servizi erogati dagli Enti del Terzo Settore selezionati, nonché la disciplina del relativo Catalogo dei servizi, sono definite nei successivi articoli del presente Avviso, con particolare riferimento ai contenuti della proposta progettuale, alle fasi attuative e alle modalità di selezione e attivazione degli interventi.

Art. 5 Dotazione finanziaria e modalità di selezione

La dotazione finanziaria complessiva del presente Avviso è pari a euro 15.000.000,00 ed è ripartita tra le ASL ai fini della realizzazione dell'intervento sulla base della popolazione di riferimento, come segue:

- **ASL Napoli 1 Centro** a cui sono destinati euro 2.551.000,00
- **ASL Napoli 2 Nord**, a cui sono destinati euro2.679.000,00
- **ASL Napoli 3 Sud** a cui sono destinati euro 2.806.000,00
- **ASL Caserta,** a cui sono destinati euro 2.551.000,00
- **ASL Salerno,** a cui sono destinati euro 2.679.000,00
- **ASL Avellino,** a cui sono destinati euro 1.020.000,00
- **ASL Benevento,** a cui sono destinati euro 714.000,00

La ripartizione, effettuata sulla base della popolazione residente nei rispettivi territori, proporzionale del fabbisogno potenziale di servizi, ha carattere programmatorio e potrà essere oggetto di rimodulazione da parte della Regione, in fase di attuazione, in funzione dei fabbisogni effettivamente rilevati, dell'andamento delle attività e del livello di utilizzo delle risorse, al fine di garantire un'efficace ed equilibrata attuazione degli interventi su base territoriale.

Art. 6 Contenuto delle proposte progettuali in relazione ai servizi offerti

Le Aziende Sanitarie Locali (ASL) partecipano al presente Avviso mediante la presentazione di una proposta progettuale, redatta secondo il format di cui all'Allegato 1 articolata in specifiche sezioni descrittive, tecniche e finanziarie, finalizzate a rappresentare in modo organico il modello di intervento, le modalità di attuazione e il relativo quadro economico.

fonte: http://burc.regione.campania.it

La proposta progettuale è presentata dalle ASL in raccordo con gli Ambiti Territoriali Sociali competenti e con i Centri per l'Impiego (CPI), ovvero con i soggetti autorizzati ai servizi per il lavoro, ove siano previsti interventi di inclusione lavorativa, al fine di assicurare l'effettiva integrazione tra le componenti sanitaria, sociale e lavorativa degli interventi previsti dal presente Avviso.

La proposta deve altresì descrivere le modalità di raccordo con gli Enti del Terzo Settore eventualmente coinvolti nell'erogazione dei servizi di inclusione attiva, nonché le modalità attraverso cui tali servizi saranno resi coerenti con i progetti personalizzati definiti dall'ASL per il tramite del Dipartimento di Salute Mentale.

La proposta progettuale ripercorre tutte le fasi di attività in cui si sviluppa il supporto alla persona con disabilità conseguente a disturbi della salute mentale, evidenziando il fabbisogno rilevato, il modello organizzativo proposto, le professionalità coinvolte, i servizi da attivare, i risultati attesi, le modalità di monitoraggio e il relativo quadro economico.

Gli interventi si attuano secondo un processo unitario e semplificato articolato nelle seguenti fasi:

1. Fase di "Presa in carico del destinatario da parte della ASL e definizione del progetto personalizzato quale strumento di riferimento socio-sanitario";
2. Fase di "Individuazione dei fabbisogni della persona, sulla base della valutazione multidimensionale, e selezione dei servizi più adeguati tra quelli disponibili nell'ambito del catalogo";
3. Fase di "Attivazione degli interventi, anche mediante il coinvolgimento dei soggetti attuatori esterni".

In fase di esecuzione delle attività, le ASL si impegnano, nel rispetto della normativa vigente in materia di protezione dei dati personali, a garantire un costante flusso informativo nei confronti dell'Ambito territoriale di riferimento, con riguardo a tutte le fasi di attuazione del progetto.

1. ***Fase di "presa in carico del destinatario da parte della ASL e definizione del progetto personalizzato quale strumento di riferimento sanitario"***

La fase iniziale dell'intervento consiste nella presa in carico della persona da parte delle ASL – Dipartimenti di Salute Mentale, che costituisce il momento fondamentale per l'avvio del percorso.

In tale ambito, anche a seguito di segnalazione da parte dei servizi territoriali, accesso diretto dell'utente o su impulso del nucleo familiare, l'ASL attiva l'équipe multidisciplinare competente e procede alla valutazione clinica e multidimensionale, finalizzata ad analizzare in modo integrato le condizioni della persona nelle diverse dimensioni sanitaria, psicologica, sociale e relazionale, nonché nel contesto di riferimento.

All'esito di tale processo, la ASL formalizza la presa in carico del destinatario e definisce il progetto personalizzato ispirato al modello del PTRI, che rappresenta lo strumento socio-sanitario di riferimento per l'inquadramento del bisogno e per la definizione del percorso assistenziale.

Il progetto personalizzato individua i fabbisogni della persona nelle diverse aree della vita – sanitaria, sociale, relazionale, abitativa e lavorativa – e costituisce la base per la successiva attivazione degli interventi di supporto.

La presa in carico avviene in raccordo con la rete territoriale dei servizi, assicurando il coinvolgimento del nucleo familiare e, ove necessario, degli altri soggetti istituzionali competenti.

2. ***Fase di "individuazione dei fabbisogni della persona, sulla base della valutazione multidimensionale, e selezione dei servizi più adeguati tra quelli disponibili nell'ambito del "Catalogo dei servizi"***

fonte: http://burc.regione.campania.it

Sulla base degli esiti della valutazione multidimensionale e del progetto personalizzato, l'ASL procede all'individuazione dei fabbisogni della persona, con riferimento alle aree di intervento oggetto del presente Avviso, con particolare riguardo ai percorsi di inclusione sociale e lavorativa e al rafforzamento dell'autonomia personale.

In funzione dei fabbisogni rilevati, e alla stregua dei servizi indicati nel progetto, la ASL traduce le esigenze individuate in interventi concreti e attivabili e individua i servizi più adeguati, avvalendosi, tra gli altri strumenti, delle informazioni disponibili nell'ambito del "Catalogo dei servizi" costituito sulla base delle indicazioni di carattere generale fornite dalle ASL attraverso la presentazione dei progetti da candidare al presente Avviso.

La selezione degli interventi avviene assicurando la piena coerenza con il progetto personalizzato e sulla base della scelta da parte della persona e/o del relativo nucleo familiare e/o da parte di chi svolge funzioni di tutoraggio.

Il "Catalogo dei servizi" deve essere inteso quale raccolta informativa strutturata e aggiornabile dei servizi disponibili sul territorio negli ambiti della salute mentale, del disagio sociale e dell'inclusione.

Il "Catalogo dei servizi" non costituisce strumento di accreditamento né determina l'automatica attivazione di servizi. Il "Catalogo dei servizi" è definito nel suo impianto generale dalla Regione Campania, sulla base delle indicazioni formulate da ciascuna ASL/Dipartimento di Salute Mentale che ne curano l'utilizzo a livello territoriale, in coerenza con i fabbisogni rilevati e con le specificità dei contesti locali.

3. ***Fase di "Attivazione degli interventi, anche mediante il coinvolgimento dei soggetti attuatori esterni, ove necessario".***

La fase di attuazione consiste nell'attivazione dei servizi selezionati in coerenza con il progetto personalizzato e con i fabbisogni rilevati.

A tal fine, la ASL provvede ad attivare operativamente i servizi, assegnando il caso ai soggetti erogatori competenti, che possono essere interni all'organizzazione ovvero esterni, per l'esecuzione delle specifiche prestazioni.

La ASL mantiene il ruolo di coordinamento e responsabilità complessiva del percorso, assicurando l'avvio tempestivo degli interventi, il raccordo tra i soggetti coinvolti e la continuità della presa in carico.

Nel corso della realizzazione degli interventi, la ASL garantisce il monitoraggio continuo del percorso e, ove necessario, procede alla rimodulazione delle attività, in funzione dell'evoluzione dei bisogni della persona e degli aggiornamenti del progetto personalizzato. Questa fase prevede il coinvolgimento del destinatario e/o di chi svolge funzioni di tutoraggio con funzioni di riferimento stabile per la persona e per il nucleo familiare eventualmente coinvolto, sulla base della progettualità proposta da ciascuna ASL. Il tutor, se previsto, opera in stretto raccordo con i servizi socio-sanitari coinvolti, assicurando continuità, coerenza e integrazione degli interventi.

Nell'ambito della proposta progettuale, le ASL dovranno esplicitare il modello organizzativo complessivo che intendono adottare, i profili professionali coinvolti e il numero di risorse dedicate ai diversi servizi, specificando se il progetto è finalizzato al potenziamento dei servizi già esistenti ovvero all'attivazione di nuovi servizi.

Devono inoltre essere indicate le modalità di individuazione dei professionisti esplicitando l'utilizzo di soggetti interni ed esterni.

Al fine di efficientare l'adeguatezza della risposta, dovrà essere illustrata la modalità di assegnazione delle figure di riferimento, con particolare riguardo al ruolo di accompagnamento della persona e del nucleo familiare nell'accesso, nella fruizione e nell'integrazione dei servizi.

fonte: http://burc.regione.campania.it

In tale contesto, il servizio di tutoraggio costituisce elemento qualificante dell'intervento, assicurando il coordinamento del percorso, la continuità della presa in carico e l'effettiva integrazione tra servizi sanitari, sociali e di inclusione attiva e di eventuale coinvolgimento del nucleo familiare.

La proposta progettuale dovrà indicare in modo puntuale le tempistiche previste per l'attivazione e l'erogazione delle attività. In ogni caso, a decorrere dalla definizione del progetto personalizzato, l'attivazione dei servizi in favore della persona dovrà avvenire ordinariamente entro il termine di 30 giorni, dalla scelta del servizio di inclusione attiva.

La proposta progettuale deve inoltre contenere il cronoprogramma delle attività, le modalità di monitoraggio fisico, procedurale e finanziario, gli output attesi, gli indicatori di attuazione e le modalità di alimentazione dei sistemi informativi regionali, in coerenza con il PR Campania FSE+ 2021–2027 e con la relativa manualistica.

Art. 8 Durata.

Ciascuna proposta progettuale avrà durata di n.12 mesi, salvo proroga.

Al fine di garantire una uniformità di trattamento e assicurare un'adeguata presa in carico di tutti i destinatari, le attività previste dalla proposta progettuale devono essere avviate simultaneamente alla data indicata con successivo atto dalla Direzione competente, in coerenza con l'obiettivo di garantire il principio di equilibrio territoriale e sociale tra le diverse aree della Regione Campania, assicurando un'omogenea distribuzione degli interventi e delle opportunità di accesso ai servizi.

Art. 9 Modalità e termini di presentazione del progetto

La proposta progettuale, pena irricevibilità, deve essere presentata, completa in tutte le sue parti, esclusivamente a mezzo pec all'indirizzo salute@pec.regione.campania.it.

Non verranno prese in considerazione domande presentate con modalità diverse da quella indicata. La domanda, presentata a mezzo posta elettronica certificata dovrà recare all'oggetto la denominazione "ASL(*indicare il nome dell'ASL*) – Avviso pubblico Interventi disabilità mentale"

Le domande potranno essere presentate dalla data di pubblicazione del presente avviso sul BURC fino alle ore 23.59 del 18/09/2026. Non saranno ammesse alla valutazione le domande pervenute oltre questa data.

Nella domanda deve essere necessariamente riportato l'indirizzo PEC al quale la Regione Campania potrà inviare comunicazioni ufficiali successive. In fase di compilazione on line della domanda di contributo è obbligatoria, pena l'esclusione, compilare e/o trasmettere i seguenti allegati:

- Formulario di progetto (Allegato 1)

- (*eventuale*) Documenti attestanti la collaborazione in rete con altri partner istituzionali (Allegato 4)

Ogni documento allegato dovrà essere firmato digitalmente.

Art. 10 Procedura di selezione

fonte: http://burc.regione.campania.it

Le proposte progettuali non sono soggette a valutazione comparativa, in quanto il presente Avviso non configura una procedura selettiva di tipo competitivo.

La Regione Campania procede alla **verifica di coerenza delle proposte progettuali presentate dalle ASL**, quale fase propedeutica all'ammissione a finanziamento, finalizzata a:

- garantire l'omogenea implementazione del servizio a livello regionale;
- assicurare la conformità delle soluzioni organizzative agli obiettivi perseguiti con il presente Avviso;
- verificare la coerenza delle modalità proposte con gli obiettivi del Programma Regionale FSE+ e con il quadro dei Livelli Essenziali di Assistenza (LEA).

La Direzione competente può attivare il soccorso istruttorio, ai sensi della normativa vigente, al fine di richiedere all'ASL eventuali integrazioni o chiarimenti in merito alla documentazione presentata.

Art. 11 Spese Ammissibili

Sono ammissibili a finanziamento le spese sostenute dalle Aziende Sanitarie Locali (ASL) per la realizzazione delle attività previste dalla proposta progettuale approvata, purché coerenti con la normativa vigente in materia di ammissibilità della spesa, con particolare riferimento alle disposizioni di cui al DPR 10 marzo 2025, n. 66 (recante i criteri sull'ammissibilità della spesa per i programmi cofinanziati dai fondi europei per il periodo di programmazione 2021–2027) nonchè alle indicazioni contenute nei manuali di attuazione e alle Linee Guida in materia di rendicontazione del PR Campania FSE+ 2021–2027, o ad eventuali ulteriori Linee guida in materia di rendicontazione che potranno essere adottate dalla Direzione competente, in coerenza con la struttura dei costi delle proposte progettuali approvate e con le modalità attuative del presente Avviso..

In particolare, sono ammissibili le spese relative ai servizi e alle attività riportati nel quadro economico-finanziario della proposta progettuale approvata (Allegato 2) relative alle seguenti tipologie di spesa:

- spese per l'acquisto di attrezzature, ausili e forniture necessarie per l'erogazione dei servizi previsti, funzionali alla gestione degli interventi, al monitoraggio dei percorsi, alla condivisione delle informazioni tra i servizi e al contatto con le i destinatari e i nuclei familiari eventualmente coinvolti nei limiti in cui tali beni e forniture siano strettamente necessari, direttamente riferibili al progetto approvato e ammissibili secondo la normativa e la manualistica del PR Campania FSE+ 2021–2027;
- ulteriori costi di gestione che derivano dalle esigenze di realizzazione del progetto, non riconducibili alle categorie di spesa sopra richiamate purché coerenti e direttamente necessari per il progetto approvato (es. costi per coperture assicurative, materiali di consumo, , spese di trasporto dei destinatari);

Per essere considerati ammissibili, in ogni caso, i costi devono essere compresi nel piano finanziario e riferirsi temporalmente al periodo ricompreso all'interno del cronoprogramma allegato al progetto e, inoltre, tutte le spese dovranno essere pertinenti ed imputabili alle operazioni eseguite.

Le spese sono riconosciute nel rispetto delle Opzioni di Costo Semplificato (OCS), secondo quanto definito negli atti attuativi e nella manualistica del PR Campania FSE+ 2021–2027.

La seguente tabella è definita in coerenza con la metodologia nazionale per la determinazione delle Unità di Costo Standard (UCS) adottata nell'ambito del Programma Nazionale Inclusione 2021–2027 e del Programma Nazionale Equità nella Salute, come disciplinata nella relativa nota metodologica di riferimento adottata con Decreto del Ministero della Salute - Dipartimento della Programmazione, dei dispositivi medici, del farmaco e delle politiche in favore del servizio sanitario nazionale n. 81 del 27/07/2025.

Tale metodologia, fondata sull'utilizzo delle Opzioni di Costo Semplificato (OCS) ai sensi della normativa europea vigente, consente la valorizzazione dei costi del personale attraverso importi standardizzati per unità di attività, garantendo semplificazione amministrativa, trasparenza e uniformità nella rendicontazione. E', inoltre, coerente con i livelli retributivi medi delle figure professionali coinvolte nel contesto dei servizi sociosanitari e socioeducativi oggetto del presente Avviso. Sono prese a riferimento anche le OCS del Ministero del Lavoro e delle Politiche Sociali.

Le OCS riportate si applicano ai costi del personale impiegato nelle attività progettuali, in relazione alle ore di attività effettivamente dedicate all'operazione e debitamente registrate. Per le ulteriori tipologie di costo non riconducibili alle UCS del personale, il riconoscimento avviene a costi reali, salvo diversa modalità semplificata eventualmente adottata con successivi atti dell'Amministrazione competente.

L'applicazione delle OCS/UCS è subordinata alla coerenza tra la figura professionale impiegata, l'attività effettivamente svolta, la fase progettuale di riferimento, il progetto personalizzato e la corretta registrazione delle ore rese. Le ore valorizzate a UCS non possono essere oggetto di ulteriore rendicontazione a costi reali né essere finanziate a valere su altre fonti pubbliche.

Nel caso in cui le ASL si avvalgano di Enti del Terzo Settore per la realizzazione di specifici servizi o attività di inclusione attiva, autonomia, socializzazione, accompagnamento, sostegno all'abitare, formazione, orientamento o inclusione lavorativa, previsti dal progetto personalizzato e riconducibili ai servizi erogati dagli ETS selezionati i relativi costi non rientranti nelle OCS potranno essere riconosciuti a costi reali, nel rispetto della normativa vigente in materia di ammissibilità della spesa e secondo quanto previsto dagli atti attuativi e dalla manualistica del PR Campania FSE+ 2021–2027.

Rientrano tra le attività a titolo meramente esemplificativo e ove coerenti con il progetto personalizzato, percorsi educativi e abilitativi, laboratori di socializzazione e sviluppo delle competenze, attività di inclusione sociale, percorsi di autonomia personale e abitativa, interventi di accompagnamento alla formazione e al lavoro, tirocini di inclusione, attività di orientamento, tutoraggio e ulteriori servizi integrativi funzionali alla realizzazione del percorso individuale.

Le attività di tirocinio, i percorsi di inclusione lavorativa e le ulteriori misure di accompagnamento al lavoro possono essere valorizzati mediante le Opzioni di Costo Semplificato (OCS) adottate dal Ministero del Lavoro e delle Politiche Sociali e approvate con apposito atto delegato, connesse al Programma Giovani Donne e Lavoro; le relative spese sono ammissibili nei limiti e alle condizioni previste dalla normativa vigente, dal progetto personalizzato, dal quadro economico approvato e dagli atti attuativi del presente Avviso, fermo restando il necessario raccordo con i Centri per l'Impiego, con i soggetti autorizzati ai servizi per il lavoro e con gli ulteriori soggetti competenti, ove previsto.

Gli interventi finanziati dal presente Avviso si configurano come integrativi, aggiuntivi e complementari rispetto ai Livelli Essenziali di Assistenza (LEA) e alle prestazioni ordinariamente garantite dal Servizio Sanitario Nazionale. Non sono pertanto ammissibili spese che determinino sostituzione, duplicazione o sovrapposizione con prestazioni sanitarie già assicurate nell'ambito dei percorsi ordinari, né spese già finanziate da altre fonti pubbliche.

In ogni caso, l'Autorità di Gestione, all'esito della presentazione dei progetti e sulla base dei servizi attivati nell'ambito delle proposte progettuali, si riserva la facoltà di elaborare e attivare ulteriori costi standard da utilizzare ai fini della rendicontazione, allo scopo di ridurre quanto più possibile gli oneri rendicontativi a carico dei beneficiari.

La rendicontazione delle spese afferenti i progetti potrà ricadere nell'ESO 4.8 o ESO 4.11 a seconda della tipologia di situazione.

Art. 12 Modalità attuative. Tempi e modalità di erogazione del finanziamento

I progetti ammessi a finanziamento, ai fini della tracciabilità dell'intervento e della corretta gestione amministrativo-contabile, devono essere individuati tramite Codice Unico di Progetto (CUP).

Il contributo concesso è erogato secondo le seguenti modalità:

a) una prima quota, a titolo di anticipazione, pari al 50% dell'importo ammesso a finanziamento, a seguito dell'avvio delle attività e del trasferimento delle risorse da parte dell'Amministrazione;
b) una seconda quota, pari al 40%, previa presentazione di apposita rendicontazione intermedia attestante una spesa almeno pari al 90% dell'anticipazione ricevuta, corredata da una relazione sullo stato di avanzamento delle attività;
c) il saldo finale, a conclusione dell'intervento, previa approvazione della rendicontazione finale e della relazione conclusiva.

I soggetti beneficiari sono tenuti al rispetto dei seguenti obblighi:

a) garantire l'utilizzo del logo istituzionale e il rispetto degli obblighi di informazione e comunicazione previsti dalla normativa vigente;
b) assicurare il monitoraggio periodico delle attività, mediante la trasmissione di report con cadenza almeno semestrale;
c) rispettare il cronoprogramma approvato;
d) presentare la rendicontazione finale entro e non oltre 3 (tre) mesi dalla conclusione delle attività progettuali

fonte: http://burc.regione.campania.it

L'erogazione del finanziamento avviene secondo le modalità sopra descritte che saranno esplicitate anche nell'atto di concessione, nel rispetto delle disposizioni previste dal PR Campania FSE+ 2021–2027, ed è subordinata alla verifica dello stato di avanzamento delle attività e della rendicontazione delle spese sostenute, secondo quanto stabilito dalle Linee Guida regionali.

Il mancato rispetto dei termini e degli obblighi di cui al presente articolo costituisce causa di revoca, totale o parziale, del finanziamento concesso, secondo quanto previsto dalla normativa vigente e dalle disposizioni del presente Avviso.

A tal fine, sono previste attività di monitoraggio periodico degli esiti e dei livelli di utilizzo, propedeutiche all'introduzione di eventuali correttivi in itinere e alla definizione delle modalità di consolidamento o estensione del modello. Trattandosi di un progetto sperimentale, l'ASL potrà usare i seguenti elementi di monitoraggio ulteriori, ai fini della redazione del report semestrale e di quello finale.

A titolo esemplificativo si suggeriscono:

Le ASL assicurano, inoltre, le adeguate attività di acquisizione e monitoraggio delle informazioni relative agli interventi sanitari e sociosanitari erogati in favore dei pazienti sottoposti a diagnosi e a trattamenti terapeutici e/o riabilitativi, attraverso l'integrazione con la piattaforma regionale "Sinfonia".

Art. 2 - Premesse e oggetto

La Regione Campania, nell'ambito del PR Campania FSE+ 2021–2027 – Priorità 3 "Inclusione Sociale" – Obiettivo Specifico ESO 4.11, adotta il presente Avviso finalizzato a sostenere la diagnosi precoce, la presa in carico tempestiva e lo sviluppo delle competenze evolutive nei minori nella fascia di età 0–3 anni con sospetto rischio evolutivo, disturbo dello spettro autistico e altri disturbi del neurosviluppo, nonché a rafforzare le competenze genitoriali e il supporto ai nuclei familiari.

Al fine di sostenere il potenziamento dei servizi multidisciplinari e territoriali sopra richiamati, il presente Avviso si articola nei seguenti Servizi che, nel loro complesso, definiscono l'insieme delle azioni attivabili.

Servizio 1 – Accesso precoce e valutazione multidimensionale - Potenziamento dei Nuclei di neuropsichiatria

E' finalizzato al rafforzamento e al potenziamento delle attività dei Nuclei di Neuropsichiatria dell'Infanzia e dell'Adolescenza (UONPI) delle Aziende Sanitarie Locali, quali strutture pubbliche titolari delle funzioni sanitarie e sociosanitarie competenti per la presa in carico precoce e integrata di bambini e bambine nella fascia di età compresa tra 0 e 36 mesi che presentano segnali precoci del rischio evolutivo riconducibili ai disturbi del neurosviluppo, inclusi i disturbi dello spettro autistico.

Inoltre, è orientato a ridurre i tempi di intercettazione del bisogno, superando le criticità legate alla tardività della diagnosi e alla frammentazione delle risposte, attraverso il rafforzamento delle competenze professionali e della capacità operativa delle équipe multidisciplinari, composte, a titolo esemplificativo, da neuropsichiatri infantili, psicologi, terapisti della neuro e psicomotricità dell'età evolutiva, logopedisti e assistenti sociali.

Tale Servizio si articola nei seguenti contenuti complementari e integrati:

- Osservazione strutturata del neurosviluppo, finalizzata all'individuazione precoce dei segnali di rischio evolutivo, anche in assenza di una diagnosi formalizzata, mediante l'utilizzo di strumenti osservativi validati e l'analisi del comportamento del minore nei principali contesti di vita, per

garantire un'efficace sorveglianza neuroevolutiva del bambino nell'ambito delle tre aree neuro-funzionali (domini): motorio, sociocomunicativo e della regolazione.

- Valutazione multidisciplinare, svolta dall'équipe UONPI, volta ad analizzare in modo globale il funzionamento del minore sotto il profilo neuropsichico, psicologico, comunicativo e relazionale, nonché a valutare il contesto familiare e ambientale di riferimento;
- Definizione del progetto personalizzato di intervento, elaborato sulla base degli esiti della valutazione multidimensionale e condiviso con il nucleo familiare, che individua obiettivi, intensità, durata e tipologia degli interventi più appropriati, in coerenza con le linee guida e i PDTA regionali;
- Attivazione del percorso di presa in carico, mediante il raccordo con i servizi territoriali competenti e l'avvio tempestivo degli interventi sanitari, sociosanitari ed educativi previsti dal progetto personalizzato, garantendo continuità assistenziale e integrazione tra i diversi ambiti di intervento.

Servizio 2 - Percorso di presa in carico consapevole, tempestivo ed efficace dei minori e dei rispettivi nuclei familiari nella fase immediatamente successiva alla diagnosi di disturbo dello spettro autistico o di altro disturbo del neurosviluppo.

La complessità dei percorsi di presa in carico, la pluralità dei servizi coinvolti e il potenziale rischio di frammentazione degli interventi rendono necessario l'attivazione di un servizio dedicato di accompagnamento, volto a sostenere le famiglie nel passaggio dalla valutazione diagnostica all'avvio concreto degli interventi previsti dal progetto personalizzato.

Tale Servizio prevede, pertanto, l'assegnazione di un "tutor di percorso", con funzioni di riferimento stabile per il nucleo familiare. Il tutor opera in stretto raccordo con i servizi sanitari, sociali ed educativi coinvolti, assicurando continuità, coerenza e integrazione degli interventi.

In particolare, il tutor di percorso svolge le seguenti funzioni:

- Orientamento sui servizi disponibili e sulle opportunità di intervento, supportando la famiglia nella comprensione del sistema dei servizi sanitari, sociosanitari ed educativi, nonché delle modalità di accesso agli interventi previsti dal progetto personalizzato;
- Accompagnamento nella definizione e nell'attuazione del progetto personalizzato, facilitando il processo di condivisione degli obiettivi, delle tempistiche e delle modalità di intervento, e sostenendo la famiglia nella fase di avvio dei percorsi terapeutici, abilitativi ed educativi;
- Supporto nella gestione degli adempimenti amministrativi e degli accessi ai servizi, riducendo il carico burocratico a carico del nucleo familiare e favorendo un accesso più rapido ed efficace alle prestazioni e alle misure di sostegno previste;
- Facilitazione del raccordo tra i diversi soggetti coinvolti nella presa in carico, inclusi servizi sanitari, servizi sociali comunali, strutture educative per la prima infanzia e altri enti competenti, al fine di garantire un approccio unitario e coordinato;
- Monitoraggio del percorso e supporto continuo alla famiglia, attraverso un'azione di accompagnamento costante che consenta di intercettare tempestivamente eventuali criticità, rimodulare gli interventi e rafforzare la capacità del nucleo familiare di partecipare attivamente al percorso di presa in carico.

Servizio 3 - realizzazione di interventi educativi, abilitativi e riabilitativi precoci, orientati a sostenere il percorso di sviluppo delle competenze evolutive del minore, in coerenza con il progetto personalizzato definito a seguito della valutazione multidimensionale.

Le ASL possono prevedere, nell'ambito della proposta progettuale, l'attivazione di ulteriori servizi integrativi e complementari, purché coerenti con le finalità del presente Avviso, con i fabbisogni rilevati e nel rispetto del quadro normativo e finanziario di riferimento.

L'intervento si realizza attraverso l'attivazione di percorsi individualizzati e di servizi di supporto alla prima infanzia volti a garantire un accesso equo e tempestivo alle opportunità di intervento precoce.

Gli interventi finanziati si configurano come azioni integrative e complementari rispetto ai Livelli Essenziali di Assistenza (LEA) e alle prestazioni ordinariamente garantite dal Servizio Sanitario Nazionale (SSN). Essi sono finalizzati al rafforzamento della capacità di individuazione precoce, alla presa in carico multidimensionale, all'accompagnamento dei nuclei familiari, e al potenziamento dell'integrazione tra servizi sanitari, sociosanitari, sociali ed educativi senza determinare duplicazioni o sovrapposizioni con le prestazioni sanitarie già garantite nell'ambito dei percorsi ordinari di diagnosi, cura, abilitazione e riabilitazione.

In coerenza con l'assetto operativo e organizzativo meglio descritto nei successivi paragrafi del presente Avviso, relativamente a ciascun Servizio sopra indicato, è prevista un'azione di comunicazione, informazione e sensibilizzazione che sarà realizzata direttamente dalla Regione Campania a valere sul Piano di Comunicazione adottato con DGR n. 709 del 20/12/2022 in stretto raccordo con le ASL territorialmente competenti, che supportano l'attuazione dell'intervento a livello locale.

Art. 3 - Destinatari

I destinatari delle misure previste dal presente Avviso sono i nuclei familiari residenti nel territorio della Regione Campania con minori nella fascia di età compresa tra 0 e 36 mesi, che presentano segnali precoci di rischio evolutivo riconducibili ai disturbi del neurosviluppo, inclusi i disturbi dello spettro autistico, ovvero per i quali sia ritenuta opportuna, da parte dei servizi territoriali competenti, l'attivazione di percorsi di valutazione e intervento precoce. Ai fini dell'accesso agli interventi non è richiesta una diagnosi già formalizzata, potendo la valutazione diagnostica costituire parte integrante del percorso di presa in carico previsto dal presente Avviso. Resta ferma la possibilità di accesso anche per i minori già in possesso di diagnosi o certificazione, ove coerente con il fabbisogno rilevato e con il progetto personalizzato di intervento.

Nell'ambito dei destinatari sopra individuati, le ASL garantiscono la presa in carico sia di quelli già inseriti in liste di attesa per l'accesso ai servizi di valutazione o trattamento, sia dei nuovi casi intercettati nel corso dell'attuazione dell'intervento anche a seguito di segnalazione da parte dei servizi sanitari, sociosanitari, sociali ed educativi del territorio, ovvero su istanza delle famiglie, previa valutazione del fabbisogno.

I minori presi in carico entro il compimento del trentaseiesimo mese di età potranno concludere il percorso previsto dal progetto personalizzato nell'ambito dei servizi attivati dal presente Avviso, secondo le modalità, la durata e l'intensità definite dalla competente équipe multidisciplinare.

In coerenza con l'Obiettivo Specifico ESO4.11 del PR Campania FSE+ 2021–2027, volto a migliorare l'accesso paritario e tempestivo a servizi di qualità, sostenibili e accessibili, l'accesso agli interventi previsti dal presente Avviso è definito sulla base del fabbisogno rilevato dai servizi competenti e della necessità di

assicurare una presa in carico precoce, tempestiva e appropriata dei minori nella fascia 0–36 mesi che presentano segnali di rischio evolutivo riconducibili ai disturbi del neurosviluppo, inclusi i disturbi dello spettro autistico.

La logica della misura non è quella di erogare un contributo economico in favore del nucleo familiare, bensì quella di evitare che il ritardo nell'intercettazione, nella valutazione e nella presa in carico del minore possa determinare peggiori esiti evolutivi e accrescere, nel medio-lungo periodo, il rischio di esclusione sociale.

Art. 4 - Beneficiari

Sono Beneficiari e attuatori del presente Avviso le Aziende Sanitarie Locali (ASL) della Regione Campania, in qualità di enti pubblici competenti per la presa in carico precoce e integrata dei minori nella fascia di età compresa tra 0 e 36 mesi che presentano segnali precoci di rischio evolutivo riconducibili ai disturbi del neurosviluppo, inclusi i disturbi dello spettro autistico.

Le ASL sono titolari della progettazione, attuazione e gestione degli interventi, nonché del rispetto delle disposizioni previste dal PR Campania FSE+ 2021–2027, dal presente Avviso, dall'atto di concessione e dalla manualistica di riferimento del Programma, assicurando la corretta realizzazione dell'operazione, l'ammissibilità e regolarità delle attività e delle spese, nonché l'assolvimento degli obblighi di monitoraggio, rendicontazione, alimentazione dei sistemi informativi, informazione e pubblicità, conservazione documentale e messa a disposizione degli atti ai fini dei controlli previsti dalla normativa europea, nazionale e regionale applicabile.

Il coinvolgimento di eventuali soggetti pubblici e/o privati, inclusi gli Enti del Terzo Settore, secondo le modalità disciplinate dal successivo articolo 5, non comporta il trasferimento della titolarità dell'operazione, che resta in capo all'ASL beneficiaria, né attenua la responsabilità della stessa in ordine alla corretta attuazione degli interventi finanziati.

Art. 5 – Modalità di attivazione della rete territoriale e collaborazione con altri soggetti

Ai fini dell'attuazione degli interventi previsti dal presente Avviso, le ASL assicurano l'attivazione e il funzionamento di una rete territoriale integrata, mediante il coinvolgimento strutturato di altri soggetti pubblici e privati anche degli Enti del Terzo settore opportunamente qualificati, nel rispetto dei principi di trasparenza, pubblicità e non discriminazione.

La rete territoriale è costituita, in via prioritaria, dai servizi e dalle articolazioni competenti dell'ASL, con particolare riferimento alle Unità Operative di Neuropsichiatria dell'Infanzia e dell'Adolescenza, ai Distretti sanitari e alle Unità di Valutazione Multidimensionale/Integrata (UVM/UVI), nonché dai soggetti istituzionali competenti per l'integrazione sociale ed educativa, quali gli Ambiti territoriali, i Comuni, i servizi sociali territoriali, i servizi educativi per la prima infanzia e gli ulteriori servizi territoriali coinvolti nei percorsi di individuazione precoce, valutazione e presa in carico.

Le ASL possono altresì coinvolgere, per la realizzazione delle attività previste dal presente Avviso, altri soggetti pubblici e/o privati, inclusi gli Enti del Terzo Settore, purché in possesso di adeguati requisiti professionali, organizzativi e, ove previsti, autorizzativi o di accreditamento, coerenti con le attività da svolgere e con le finalità dell'intervento.

Il coinvolgimento dei soggetti di cui sopra avviene con procedure idonee, normativa vigente e dei principi di trasparenza, pubblicità, imparzialità, parità di trattamento, non discriminazione e tracciabilità. A tal fine,

fonte: http://burc.regione.campania.it

le ASL possono procedere mediante avvisi pubblici, manifestazioni di interesse, procedure a evidenza pubblica, accordi, protocolli operativi o, ove ne ricorrano i presupposti, mediante gli strumenti di amministrazione condivisa previsti dal decreto legislativo 3 luglio 2017, n. 117, ivi inclusa la co-progettazione con gli Enti del Terzo Settore.

Le ASL garantiscono la chiara definizione dei ruoli e delle responsabilità dei soggetti coinvolti, assicurando che le attività svolte dagli altri soggetti siano coerenti con il progetto personalizzato e funzionali al perseguimento degli obiettivi previsti dal presente Avviso.

Al fine di garantire un efficace funzionamento della rete territoriale e assicurare l'integrazione tra i diversi soggetti coinvolti, le ASL definiscono e adottano specifici strumenti di governance, idonei a disciplinare in modo strutturato le modalità di organizzazione, coordinamento e attuazione degli interventi. Contestualmente, sono definite modalità strutturate di raccordo tra i servizi sanitari, sociosanitari, sociali ed educativi, finalizzate a garantire la continuità assistenziale e il coordinamento tra i diversi livelli di intervento, evitando frammentazioni e sovrapposizioni nell'erogazione delle prestazioni. Le ASL assicurano altresì l'adozione di strumenti idonei a favorire la comunicazione e lo scambio informativo tra i soggetti della rete, nel rispetto della normativa vigente in materia di protezione dei dati personali, al fine di garantire la tempestiva condivisione delle informazioni rilevanti per la gestione dei percorsi di presa in carico.

Art. 6 - Dotazione finanziaria

La dotazione finanziaria complessiva del presente Avviso è pari a euro 6.000.000,00 ed è ripartita come segue:

- **ASL Napoli 2 Nord**, a cui sono destinati euro 1.170.761,00
- **ASL Napoli 1 Centro** a cui sono destinati euro 1.030.270,00

- **ASL Avellino,** a cui sono destinati euro 357.455,00
- **ASL Benevento,** a cui sono destinati euro 236.225,00

La ripartizione sopra indicata è effettuata sulla base della popolazione residente compresa nella fascia 0-3 anni nei rispettivi territori. Tale ripartizione ha carattere programmatorio e potrà essere oggetto di rimodulazione da parte della Regione, in fase di attuazione, in funzione dei fabbisogni effettivamente rilevati, dell'andamento delle attività e del livello di utilizzo delle risorse, al fine di garantire un'efficace ed equilibrata attuazione degli interventi su base territoriale.

Art. 7 Durata

Le proposte progettuali presentate dovranno avere una durata di n.12 mesi salvo proroga.

Al fine di garantire una uniformità di trattamento e assicurare un'adeguata presa in carico di tutti i destinatari, le attività previste da ciascuna proposta progettuale ricevuta devono essere avviate simultaneamente alla data indicata con successivo atto dalla Direzione competente, in coerenza con l'obiettivo di garantire il principio di equilibrio territoriale e sociale tra le diverse aree della Regione Campania, assicurando un'omogenea distribuzione degli interventi e delle opportunità di accesso ai servizi.

Le domande potranno essere presentate dalla data di pubblicazione del presente avviso sul BURC fino alle ore 23:59 del 18/09/2026. Non saranno ammesse alla valutazione le domande pervenute oltre questa data.

Nella domanda deve essere necessariamente riportato l'indirizzo PEC al quale la Regione Campania potrà inviare comunicazioni ufficiali successive. In fase di presentazione della domanda di contributo online, è obbligatoria, pena l'esclusione, la trasmissione dei seguenti allegati:

- Formulario di progetto (Allegato 1)
- Quadro economico di progetto (Allegato 2)
- Atto di condivisione del progetto da parte dell'ASL e/o distretto sanitario di riferimento con gli Ambiti territoriali competenti (ove necessario - Allegato 3)
- Documenti attestanti la collaborazione in rete con altri partner istituzionali (ove necessario - Allegato 4)

Ogni documento allegato dovrà essere firmato digitalmente.

Ogni ASL dovrà presentare una proposta progettuale che abbia ad oggetto almeno il servizio 2 previsto dal presente Avviso. Resta fermo che, in fase di attuazione ed erogazione degli interventi, le attività previste nell'ambito di ciascun progetto potranno essere oggetto di modulazione in funzione dei fabbisogni specifici rilevati e delle esigenze individuali dei destinatari, nel rispetto degli standard definiti dal presente Avviso.

Art. 9 - Contenuto delle proposte progettuali in relazione ai servizi offerti

Le Aziende Sanitarie Locali (ASL) partecipano al presente Avviso mediante la presentazione di una proposta progettuale, redatta secondo il format di cui all'Allegato A articolata in specifiche sezioni descrittive, tecniche, organizzative e finanziarie, finalizzate a rappresentare in modo organico il modello di intervento, le modalità di attuazione e il relativo quadro economico.

La proposta progettuale deve descrivere in modo puntuale e coerente le modalità di implementazione dei servizi previsti dal presente Avviso con riferimento al fabbisogno rilevato nel territorio di competenza, alla platea potenziale dei destinatari, all'eventuale presenza di liste di attesa per l'accesso ai servizi di valutazione, presa in carico o trattamento, nonché alla capacità di risposta che l'ASL intende attivare mediante le risorse richieste.

Nell'ambito della proposta progettuale, le ASL sono tenute a specificare le modalità di utilizzo delle risorse richieste, indicando puntualmente se le stesse sono finalizzate al potenziamento di servizi già esistenti ovvero all'attivazione di nuovi servizi, esplicitandone in ogni caso le caratteristiche, le modalità di erogazione e il valore aggiunto in termini di risposta ai fabbisogni del territorio.

La proposta deve esplicitare il modello organizzativo complessivo che sarà adottato, con indicazione delle modalità di funzionamento delle équipe multidisciplinari, della composizione delle stesse, dei profili

professionali coinvolti e del numero di risorse dedicate ai diversi servizi, delle sedi e/o modalità di erogazione, nonché delle tempistiche di attivazione ed erogazione delle attività.

La proposta progettuale deve essere articolata in relazione ai servizi previsti dal presente Avviso e deve specificare, per ciascun servizio attivato: gli obiettivi specifici perseguiti; le attività previste; le professionalità coinvolte; le modalità di accesso e presa in carico; la durata, l'intensità e le modalità di erogazione degli interventi; gli output attesi.

La proposta deve inoltre dettagliare le modalità operative di attivazione, integrazione e coordinamento della rete territoriale di cui all'articolo 5, specificando i soggetti coinvolti, i rispettivi ruoli, le modalità di raccordo tra servizi sanitari, sociosanitari, sociali ed educativi, nonché gli strumenti di governance, coordinamento e scambio informativo che l'ASL intende adottare nel rispetto della normativa vigente in materia di protezione dei dati personali.

La proposta progettuale deve contenere un cronoprogramma delle attività, con indicazione delle principali fasi di attuazione, delle tempistiche di avvio dei servizi, delle modalità di presa in carico progressiva dei destinatari, delle scadenze intermedie di verifica e delle attività previste per la conclusione dei percorsi attivati.

Il quadro economico di cui all'Allegato B deve essere coerente con i servizi e le attività previste, con indicazione delle voci di costo.

La proposta deve descrivere le modalità di monitoraggio fisico, procedurale e finanziario dell'intervento, inclusi gli strumenti per la raccolta dei dati relativi ai destinatari, alle attività erogate, ai percorsi attivati, agli esiti intermedi e finali, nonché le modalità di alimentazione dei sistemi informativi previsti dal PR Campania FSE+ 2021–2027 e dagli ulteriori strumenti regionali applicabili.

Infine, in una fase intermedia di attuazione del progetto (indicativamente a sei mesi dall'avvio), le ASL sono tenute a effettuare una verifica strutturata della disponibilità di posti per l'accesso alle fasi successive del percorso terapeutico, al fine di garantire la continuità del trattamento e prevenire eventuali interruzioni nella presa in carico del minore. Qualora tale disponibilità non risulti assicurata, le ASL devono fornire un'adeguata e motivata evidenza delle criticità riscontrate, nonché individuare e attivare tempestivamente soluzioni alternative idonee a garantire la prosecuzione del percorso assistenziale.

Art. 10 Procedura di selezione

Le proposte progettuali non sono soggette a valutazione comparativa, in quanto il presente Avviso non configura una procedura selettiva di tipo competitivo. Le stesse sono oggetto di verifica da parte della Regione Campania ai fini dell'ammissibilità e della coerenza con i requisiti previsti dal presente Avviso, con particolare riferimento alla completezza delle informazioni fornite e alla sostenibilità del modello organizzativo proposto.

La Regione Campania procede alla verifica di coerenza delle proposte progettuali presentate dalle ASL, quale fase propedeutica all'ammissione a finanziamento, finalizzata a:

- garantire l'omogenea implementazione del servizio a livello regionale;
- assicurare la conformità delle soluzioni organizzative ai requisiti minimi definiti dall'Avviso;
- prevenire eventuali criticità attuative, con particolare riferimento all'effettiva operatività del servizio di tutoraggio e alla sua integrazione con i servizi esistenti;

fonte: http://burc.regione.campania.it

- verificare la coerenza delle modalità proposte con gli obiettivi del Programma Regionale FSE+.

La Direzione competente può attivare il soccorso istruttorio, ai sensi della normativa vigente, al fine di richiedere all'ASL eventuali integrazioni o chiarimenti in merito alla documentazione presentata.

Art. 11 - Spese Ammissibili

Sono ammissibili a finanziamento le spese sostenute dalle Aziende Sanitarie Locali (ASL) per la realizzazione delle attività previste dalla proposta progettuale, purché coerenti con la normativa vigente in materia di ammissibilità della spesa, con particolare riferimento alle disposizioni di cui al DPR 10 marzo 2025, n. 66 (Regolamento criteri sull'ammissibilità della spesa per i programmi cofinanziati dai fondi UE) nonchè alle indicazioni contenute nei manuali di attuazione e alle Linee Guida in materia di rendicontazione del PR Campania FSE+ 2021–2027, nonchè in apposite Linee Guida in materia di rendicontazione, coerenti con la struttura dei costi esposti nei progetti approvati di cui al presente Avviso che, all'esito della verifica di coerenza delle proposte progettuali, saranno rese disponibili dalla Direzione competente.

Le spese ammissibili sono riconosciute secondo le modalità definite dal presente Avviso, dagli atti di concessione e dalle eventuali Linee guida in materia di rendicontazione che potranno essere adottate dalla Direzione competente, in coerenza con la struttura dei costi delle proposte progettuali approvate e con le disposizioni del PR Campania FSE+ 2021–2027.

In particolare, sono ammissibili le spese relative ai servizi e alle attività riportati nel quadro economico-finanziario della proposta progettuale approvata (Allegato B) relative alle seguenti tipologie di spesa:

- spese per il personale (interno ed esterno), relativo alle diverse categorie professionali coinvolte nell'attuazione dei servizi valorizzate secondo le Opzioni di Costo Semplificate (OCS) e sulle ore/uomo dedicate alle attività di: (i) valutazione multidisciplinare e presa in carico (Servizio 1); (ii) tutoraggio e accompagnamento delle famiglie (Servizio 2); (iii) interventi educativi, abilitativi e riabilitativi (Servizio 3), attraverso contratti di lavoro, collaborazioni o incarichi professionali, secondo quanto previsto e consentito dalla normativa vigente;
- spese per l'acquisto di mezzi, attrezzature, ausili e forniture strettamente necessarie per l'erogazione dei servizi previsti, e necessariamente funzionali alla gestione degli interventi, al monitoraggio dei percorsi, alla condivisione delle informazioni tra i servizi e al contatto con le famiglie, purché affidati nel rispetto della normativa applicabile, incluse le disposizioni in materia di contratti pubblici, tracciabilità, trasparenza;
- ulteriori costi di gestione direttamente connessi alla realizzazione del progetto non riconducibili alle categorie di spesa sopra richiamate, purché pertinenti, necessari, proporzionati, coerenti con il progetto approvato e adeguatamente documentati, quali, a titolo esemplificativo, costi per coperture assicurative, materiali di consumo e spese di trasporto dei destinatari;
- spese derivanti dall'affidamento di servizi strettamente funzionali alla realizzazione delle attività progettuali e coerenti con quanto previsto nel quadro economico approvato.

Per essere considerati ammissibili, in ogni caso, i costi devono essere compresi nel piano finanziario e riferirsi temporalmente al periodo ricompreso all'interno del cronoprogramma allegato al progetto e, inoltre, tutte le spese dovranno essere pertinenti ed imputabili alle operazioni eseguite.

I costi del personale sono riconosciuti prioritariamente mediante il ricorso a Opzioni di Costo Semplificate (OCS) e, in particolare, a Unità di Costo Standard (UCS), secondo quanto definito dal presente Avviso, dagli atti attuativi e dalla manualistica del PR Campania FSE+ 2021–2027.

fonte: http://burc.regione.campania.it

La tabella delle UCS di cui al presente articolo è definita in coerenza con la metodologia nazionale per la determinazione delle Unità di Costo Standard adottata nell'ambito del Programma Nazionale Inclusione e lotta alla povertà 2021–2027 e utilizzata anche nell'ambito del Programma Nazionale Equità nella Salute 2021–2027 per la rendicontazione dei costi del personale a valere sul FSE+, ai sensi dell'articolo 53, lettera b), del Regolamento (UE) 2021/1060. Tale metodologia consente la valorizzazione dei costi del personale attraverso importi standardizzati per unità di attività, assicurando semplificazione amministrativa, uniformità di trattamento, trasparenza e riduzione degli oneri rendicontativi.

Le UCS riportate nella seguente tabella si applicano ai costi del personale impiegato nelle attività progettuali, in relazione alle ore di attività effettivamente dedicate all'operazione e debitamente registrate secondo le modalità previste dagli atti attuativi e dalle Linee guida di rendicontazione.

Le OCS riportate si applicano trasversalmente a tutti i servizi previsti dal presente Avviso, costituendo il riferimento unico per la quantificazione dei costi delle risorse professionali coinvolte.

Figura professionale	Area professionale*	OCS oraria (€)
Psicologo	Professionisti della salute	29,38 €
Terapista della neuro e psicomotricità dell'età evolutiva (TNPEE)	Professionisti della salute	29,38 €
Logopedista	Professionisti della salute	29,38 €
Educatore professionale	Assistenti	26,11 €
Assistente sociale	Funzionari	29,38 €
Case manager / Coordinatore di progetto	Funzionari	29,38 €
Altri specialisti sanitari (es. terapisti della riabilitazione)	Professionisti della salute	29,38 €

**come da CCNL del comparto sanità (triennio 2019–2021 e s.m.i.)*

L'applicazione delle UCS è subordinata alla coerenza tra la figura professionale impiegata, l'attività effettivamente svolta, il servizio di riferimento e il progetto personalizzato del minore, nonché alla corretta registrazione delle ore di attività rese.

Nel caso in cui le ASL si avvalgano di soggetti esterni, inclusi gli Enti del Terzo Settore, per la realizzazione di specifici servizi o attività non riconducibili alle UCS di cui al presente articolo, i relativi costi possono essere riconosciuti a costi reali, nel rispetto della normativa vigente in materia di ammissibilità della spesa, delle procedure di affidamento o collaborazione applicabili, del quadro economico approvato e della manualistica del PR Campania FSE+ 2021–2027.

Rientrano tra le attività di cui sopra, a titolo meramente esemplificativo e purché coerenti con le finalità dell'Avviso, con il progetto personalizzato e con la proposta progettuale approvata, interventi integrativi quali: interventi assistiti con animali, musicoterapia, arteterapia, teatro-terapia o espressione corporea, attività ludico-sensoriali strutturate, percorsi psicomotori ludici, laboratori di socializzazione precoce e ulteriori attività educative, abilitative o di accompagnamento familiare funzionali al percorso di presa in carico.

Non sono ammissibili spese non coerenti con la proposta progettuale approvata, non direttamente riconducibili alle attività finanziate, prive di adeguata documentazione giustificativa, sostenute al di fuori del periodo di ammissibilità, già finanziate a valere su altre fonti pubbliche o comunque riferibili a prestazioni ordinarie già garantite dal Servizio Sanitario Nazionale o da altre misure nazionali o regionali, ove ciò determini duplicazione o sovrapposizione di finanziamento.

In ogni caso, l'Autorità di Gestione, all'esito della presentazione dei progetti e sulla base dei servizi attivati nell'ambito delle proposte progettuali, si riserva la facoltà di elaborare e attivare ulteriori costi standard da utilizzare ai fini della rendicontazione, allo scopo di ridurre quanto più possibile gli oneri rendicontativi a carico dei beneficiari.

Art. 12 - Modalità attuative. Tempi e modalità di erogazione del finanziamento

I progetti ammessi a finanziamento, ai fini della tracciabilità dell'intervento e della corretta gestione amministrativo-contabile, devono essere individuati tramite Codice Unico di Progetto (CUP).

Il contributo concesso è erogato secondo le seguenti modalità:

a) una prima quota, a titolo di anticipazione, pari al 50% dell'importo ammesso a finanziamento, a seguito dell'avvio delle attività e del trasferimento delle risorse da parte dell'Amministrazione;
b) una seconda quota, pari al 40%, previa presentazione di apposita rendicontazione intermedia attestante una spesa almeno pari al 90% dell'anticipazione ricevuta, corredata da una relazione sullo stato di avanzamento delle attività;
c) il saldo finale, a conclusione dell'intervento, previa approvazione della rendicontazione finale e della relazione conclusiva.

I soggetti beneficiari sono tenuti al rispetto dei seguenti obblighi:

a) garantire l'utilizzo del logo istituzionale e il rispetto degli obblighi di informazione e comunicazione previsti dalla normativa vigente;
b) assicurare il monitoraggio periodico delle attività, mediante la trasmissione di report con cadenza almeno semestrale;
c) rispettare il cronoprogramma approvato;
d) presentare la rendicontazione finale entro e non oltre 3 (tre) mesi dalla conclusione delle attività progettuali

L'erogazione del finanziamento avviene secondo le modalità sopra descritte che saranno esplicitate anche nell'atto di concessione, nel rispetto delle disposizioni previste dal PR Campania FSE+ 2021–2027, ed è subordinata alla verifica dello stato di avanzamento delle attività e della rendicontazione delle spese sostenute, secondo quanto stabilito dalle Linee Guida regionali.

Il mancato rispetto dei termini e degli obblighi di cui al presente articolo costituisce causa di revoca, totale o parziale, del finanziamento concesso, secondo quanto previsto dalla normativa vigente e dalle disposizioni del presente Avviso.

Art. 13 - Motivi di inammissibilità delle istanze progettuali

Sono considerate inammissibili le istanze presentate dalle ASL che:

- non prevedano il rispetto delle finalità e degli obiettivi del presente Avviso;
- prevedano attività non coerenti o non compatibili con il quadro normativo di riferimento;
- siano presentate da soggetto diverso da quanto stabilito all'art. 4 del presente Avviso

fonte: http://burc.regione.campania.it

Trattandosi di avviso non competitivo e stante la sottostante finalità pubblica, l'Amministrazione si riserva la facoltà di supportare le ASL ai fini della presentazione del progetto.

Art 14 - Monitoraggio delle attività progettuali

Le ASL sono tenute a garantire il monitoraggio fisico, procedurale e finanziario degli interventi. A tal fine:

- devono assicurare l'implementazione del sistema informativo regionale (SURF);
- devono trasmettere i dati necessari al monitoraggio secondo le tempistiche stabilite dalla Regione;
- devono garantire la tracciabilità delle attività e dei beneficiari.

A tal fine dovranno popolare i pertinenti indicatore di output e di risultato del Programma

Il presente modello si configura quale intervento a carattere sperimentale, finalizzato a testare l'efficacia e la sostenibilità del sistema di offerta basato proposto. A tal fine, sono previste attività di monitoraggio periodico degli esiti e dei livelli di utilizzo, propedeutiche all'introduzione di eventuali correttivi in itinere e alla definizione delle modalità di consolidamento o estensione del modello. Trattandosi di un progetto sperimentale, l'ASL potrà usare i seguenti elementi di monitoraggio ulteriori, ai fini della redazione del report semestrale e di quello finale.

A titolo esemplificativo si suggeriscono:

- per il Servizio 1
  - tempo medio tra segnalazione e avvio della valutazione;
  - tempo medio tra valutazione e definizione del progetto personalizzato;
  - percentuale di minori sottoposti a valutazione multidisciplinare sul totale delle segnalazioni;
  - percentuale di progetti personalizzati definiti entro un tempo predefinito;
  - numero di valutazioni multidisciplinari effettuate;
  - percentuale di attività di valutazione tracciate nei sistemi informativi;
- per il Servizio 2
  - tempo medio tra visita medica e assegnazione del tutor;
  - percentuale di famiglie con tutor attivo;
  - percentuale di percorsi attivati a seguito della diagnosi;
  - numero di contatti/incontri con le famiglie;
  - numero di servizi attivati per ciascun percorso.
- per il Servizio 3:
  - tempo medio tra definizione del progetto personalizzato e avvio degli interventi;
  - numero di minori che accedono agli interventi abilitativi/riabilitativi;
  - numero di interventi erogati (per tipologia);
  - numero medio di ore di trattamento erogate per minore;
  - percentuale di minori con continuità del percorso (frequenza regolare degli interventi);
  - numero di famiglie coinvolte in attività di supporto e accompagnamento;
  - percentuale di interventi realizzati nei contesti di vita (domicilio/servizi educativi);
  - percentuale di attività tracciate nei sistemi informativi.

Art. 15 - Modalità di rendicontazione

L'attività di rendicontazione è in capo al soggetto beneficiario dell'intervento. La rendicontazione delle spese avviene, prevalentemente, mediante l'utilizzo delle Opzioni di Costo Semplificato (OCS), secondo quanto previsto dalla normativa europea e dalla manualistica del PR Campania FSE+ 2021–2027 ma anche in modalità mista.

Ai fini dell'attività di rendicontazione delle spese sostenute, tutti i pagamenti devono essere effettuati esclusivamente tramite lo strumento del bonifico bancario o postale, ovvero con altri strumenti di pagamento idonei a consentire la piena tracciabilità delle operazioni. Gli strumenti di pagamento devono riportare il codice unico progetto (CUP).

La normativa sulla tracciabilità dei flussi finanziari deve essere applicata ad ogni movimentazione finanziaria posta in essere. I pagamenti in contanti non sono ammissibili.

Per un corretto riconoscimento in sede di rendicontazione, i costi devono:

- figurare nell'elenco dei costi previsti dal progetto;
- essere documentati con giustificativi in originale o conformi all'originale se accompagnati da dichiarazione sostitutiva di atto di notorietà ai sensi del D.P.R. 445/2000 e ss.mm.ii., da esibire in sede controllo, anche nelle ipotesi di UCS;

Art. 4

Criteri di valutazione titoli - Griglia dei punti - Modalità di attribuzione

Nel rispetto del principio di trasparenza dell'azione amministrativa e del principio della predeterminazione dei criteri di valutazione dei titoli, sono state fissate le seguenti griglie di punti attribuibili, nonché le modalità di attribuzione:

1. **Titoli valutabili ai fini dell'attribuzione dei relativi punti**
   Le situazioni valutabili (titoli), ai fini dell'attribuzione dei previsti punti sottoindicati, sono quelle risultanti alla data di pubblicazione nel BURC del presente Bando.

2. **Punti da attribuire**

   - per il titolo relativo al "BACINO DI POTENZIALE UTENZA DELLA SEDE FARMACEUTICA" (MINOR NUMERO DI RESIDENTI) **fino a** ..... **punti 20**

   - per il titolo relativo alla esistenza di una "SENTENZA ESECUTIVA DI SFRATTO DAI LOCALI ADIBITI A FARMACIA" ..... **punti 20**

   - per il titolo relativo alla localizzazione della farmacia ad una "DISTANZA INFERIORE A 200 METRI DALLA PIÙ VICINA FARMACIA" (misurata per la via pedonale più breve tra soglia e soglia) **fino a** ..... **punti 20**

   - per il titolo relativo alla situazione di "PROMISCUITÀ" della sede di appartenenza della farmacia ..... **punti 20**

   - per il titolo relativo al "FATTURATO LORDO SSN" della farmacia, media riferita agli anni 2023-2024-2025 (minor fatturato) **fino a** ..... **punti 15**

   - per il titolo relativo alla "ANZIANITÀ DI TITOLARITÀ", intesa come attività di "titolare" del candidato attuale titolare (persona fisica o giuridica), **fino a** ..... **punti 5**

3. **Criteri di valutazione**
   Viene riconosciuto a tutti i titolari il diritto a concorrere alle nuove zone conseguendo il punteggio derivante dall'attribuzione dei punti per tutti i titoli oggetto di valutazione, secondo i predeterminati criteri di attribuzione.

   L'attribuzione dei punti relativi al "BACINO DI POTENZIALE UTENZA", alla "DISTANZA INFERIORE A 200 METRI DALLA PIÙ VICINA FARMACIA", al "FATTURATO LORDO SSN" ed all'"ANZIANITÀ DI TITOLARITÀ" sarà determinata in base alla *"percentualizzazione proporzionale"* dei punti previsti; nello specifico:

   - inversamente proporzionale per quanto attiene al "BACINO DI POTENZIALE UTENZA", alla "DISTANZA INFERIORE A 200 METRI DALLA PIÙ VICINA FARMACIA" ed al "FATTURATO LORDO SSN": minore popolazione = maggiore punteggio; minore distanza = maggiore punteggio; minore fatturato = maggiore punteggio;
   - direttamente proporzionale per l'"ANZIANITÀ DI TITOLARITÀ": maggiore attività = maggiore punteggio.

L'attribuzione dei punti relativi al "BACINO DI POTENZIALE UTENZA" avverrà sulla base dei dati relativi alla popolazione delle sedi, forniti dal Comune di Napoli.

L'attribuzione dei punti relativi "DISTANZA INFERIORE A 200 METRI DALLA PIÙ VICINA FARMACIA", (misurata per la via pedonale più breve tra soglia e soglia), sarà effettuata sulla base del dato risultante da perizia giurata di un tecnico di parte.

L'attribuzione dei punti relativi al "FATTURATO LORDO SSN" sarà riferita al dato costituito dalla media relativa agli anni 2023-2024-2025, certificata.

L'attribuzione dei punti relativi all'"ANZIANITÀ DI TITOLARITÀ" sarà riferita all'attività del candidato attuale titolare (persona fisica o giuridica), documentata.

  - agli altri concorrenti, le cui sedi abbiano una popolazione progressivamente superiore a quella del bacino di potenziale utenza individuato come il più basso, saranno attribuiti, a scalare, in base al previsto criterio della "Percentualizzazione, inversamente proporzionale" i punti risultanti dall'applicazione della formula 20:X=B:A ove deve, così leggersi:
    X = punti da attribuire;
    20 = punti da attribuire per la popolazione relativa al bacino di (potenziale) utenza individuato come il più basso;
    A = popolazione relativa al bacino di (potenziale) utenza individuato come il più basso;
    B = popolazione relativa ad altro bacino di (potenziale) utenza, di consistenza superiore a quello individuato come il più basso;

  X = punti da attribuire

  20 = punti da attribuire per la distanza individuata come la minore

  C = distanza individuata come la minore

  D = altra distanza, superiore a quella individuata come la minore distanza

Le risorse complessive del programma GOL sono pari a euro 4.577.838.882,36, alla luce dell'approvazione in data 27 novembre 2025 da parte del Consiglio europeo della revisione del PNRR riguardante i Target (UE).

Con Decreto Ministero del lavoro e delle politiche sociali del 4 dicembre 2025 sono state assegnate le risorse della Riforma 1.1 Programma GOL per l'annualità 2026: le risorse attribuite alla Regione Campania sono pari a € 72.432.133,47 a valere sul PNRR.

La programmazione regionale per l'attuazione della Riforma 1.1 "Programma GOL" e il conseguimento del relativo target regionale è descritta nel "Piano di Attuazione Regionale" di cui – per ultimo – alla deliberazione n. 64 adottata dalla Giunta Regionale il 27 febbraio 2026.

A livello regionale, con riferimento all'anno finanziario 2026, la Regione Campania deve intercettare almeno 12.862 beneficiari coinvolti in attività di formazione.

Elemento costitutivo della riforma, da cui dipendono i finanziamenti UE, è la definizione di milestone e target. La declinazione della riforma a livello territoriale, nel rispetto del dettato costituzionale, è assicurata dalla predisposizione e dall'entrata in vigore dei Piani di attuazione regionali. La riforma, alla luce della Decisione di Esecuzione del Consiglio del 27 novembre 2025, che modifica la decisione di esecuzione del 13 luglio 2021, relativa all'approvazione della valutazione del piano per la ripresa e la resilienza dell'Italia, prevede due target da conseguire entro la fine del 2025 ed un target da conseguire entro giugno 2026:

- (M5C1-3, Q4/2025) Almeno 3.000.000 di persone beneficeranno del programma di Occupabilità Garantita dei Lavoratori (GOL). Inoltre, i Livelli Essenziali delle prestazioni, come definiti nel programma GOL, saranno disponibili in almeno l'80% dei Centri Pubblici per l'Impiego (CPI);
- (M5C1-4, Q4/2025) Almeno 600.000 tra i beneficiari del programma GOL parteciperanno alla formazione, di cui almeno 300.000 parteciperanno alla formazione sulle competenze digitali. Saranno pubblicati gli elenchi dei beneficiari selezionati dei programmi di formazione "Progetto per l'autoimpiego" "Fondo nuove competenze" e "Skills Partnership Ucraina-Italia";
- (M5C1-4bis, Q2/2026) Almeno 200.000 persone dovranno partecipare alla formazione attraverso il programma GOL, "Fondo nuove competenze" o "Progetto per l'autoimpiego", di cui almeno 75.000 dovranno essere beneficiari del Programma GOL.

Gli obiettivi principali del Programma GOL sono:

a) Centralità dei livelli essenziali delle prestazioni: superare l'eterogeneità delle prestazioni e dei servizi garantiti nei territori. Esigibilità dei medesimi sulla base delle risorse disponibili;
b) Prossimità dei servizi: indirizzare gli investimenti sia verso l'offerta di servizi digitali, anche sfruttando l'esperienza maturata con la pandemia, sia in direzione di una presenza fisica con la diffusione capillare dei CPI;
c) Integrazione con le politiche attive regionali: evitare il più possibile canali separati di intervento poiché le sovrapposizioni tra strumenti con le medesime finalità producono solo inefficienze;

fonte: http://burc.regione.campania.it

d) Integrazione con le politiche della formazione: superare la separazione tra politiche della formazione e politiche attive del lavoro, con la personalizzazione degli interventi e formazione dedicata sulla base dei fabbisogni rilevati;
e) Rete territoriale dei servizi: integrare tra loro i servizi territoriali; servizi di conciliazione per promuovere l'offerta di lavoro femminile; per i lavoratori meno qualificati, intervenire sulle competenze di base, oltre che sulla formazione professionale; realizzare una programmazione integrata tra i servizi sociali e quelli sanitari, nel caso di persone con disabilità o altre fragilità;
f) Cooperazione tra sistema pubblico e privato: va resa strutturale la cooperazione tra i servizi pubblici e agenzie per il lavoro, soggetti accreditati per la formazione, altri soggetti riconosciuti dalle Regioni, incluso il privato sociale. Coinvolgimento del privato anche per le persone con meno chances occupazionali;
g) Personalizzazione degli interventi: differenziare gli interventi a seconda dell'età, del livello di competenze, della complessità del bisogno, delle esigenze di conciliazione, del contesto del mercato del lavoro di riferimento, dei fabbisogni espressi dalle imprese, delle concrete opportunità occupazionali;
h) Coinvolgimento delle imprese e del territorio: coinvolgere gli operatori economici locali affinché i CPI possano divenire punto di riferimento nell'intermediazione tra domanda e offerta di lavoro territoriale, con la stipula di veri e propri «patti territoriali» per fornire strumenti formativi dedicati e condizionati all'assunzione;
i) Rafforzamento di capacità analitiche: sviluppo strumenti analitici per la conoscenza dei sistemi locali del lavoro e la previsione dei nuovi fabbisogni di competenze richiesti;
j) Innovazione, sperimentazione, valutazione: sviluppo di progetti innovativi e sperimentali, scale-up di quelli che si dimostrano efficaci, valutazione rigorosa delle politiche basata su evidenze;
k) Programmazione orientata ai risultati: milestone e target sono la regola non solo per il finanziamento nazionale da parte dell'UE, ma anche per quello delle Regioni in sede di attuazione;
l) Sistema informativo e monitoraggio capillare: accelerazione e completamento della realizzazione del Sistema informativo unitario del lavoro, osservazione capillare e in tempo reale dell'attuazione a livello di singolo centro per l'impiego.

GOL si articola in cinque percorsi:

1) Reinserimento lavorativo: per i soggetti più vicini al mercato del lavoro, servizi di orientamento e intermediazione per l'accompagnamento al lavoro;
2) Aggiornamento (upskilling): per lavoratori più lontani dal mercato, ma comunque con competenze spendibili, interventi formativi richiesti prevalentemente di breve durata e dal contenuto professionalizzante;
3) Riqualificazione (reskilling): per lavoratori lontani dal mercato e con competenze non adeguate ai fabbisogni richiesti, formazione professionalizzante più approfondita, generalmente caratterizzata da un innalzamento del livello di qualificazione/EQF rispetto al livello di istruzione;
4) Lavoro e inclusione: nei casi di bisogni complessi, cioè in presenza di ostacoli e barriere che vanno oltre la dimensione lavorativa, oltre ai servizi precedenti si prevede l'attivazione della rete dei servizi territoriali (a seconda dei casi, educativi, sociali, socio-sanitari, di conciliazione) come già avviene per il Reddito di cittadinanza;
5) Ricollocazione collettiva: valutazione delle chances occupazionali sulla base della specifica situazione aziendale di crisi, della professionalità dei lavoratori coinvolti e del contesto territoriale di riferimento per individuare soluzioni idonee all'insieme dei lavoratori stessi.

Inoltre, il Programma sarà anche uno spazio di innovazione e sperimentazione per progetti su scala ridotta, adottati d'intesa con le regioni, la cui valutazione, se positiva, potrà introdurre modifiche delle policy nazionali. In particolare, alcune aree di sperimentazione possono essere già individuate:

- competenze digitali;
- target occupazionali che più difficilmente si rivolgono ai Centri per l'impiego: mappatura e/o promozione di spazi accreditati o accreditabili per co-working, fab-lab e incubazione;

fonte: http://burc.regione.campania.it

- fragilità e vulnerabilità: sperimentazione di forme di occupazione «protetta» o di percorsi di accompagnamento dedicato, con il coinvolgimento degli Enti del Terzo Settore, per persone con disabilità grave o per i disoccupati più fragili.

Con Deliberazione della Giunta Regionale n. 303 del 18 giugno 2026 è stato approvato il Piano Straordinario per il Rafforzamento del Capitale Umano e dell'Occupabilità della Regione Campania, quale quadro strategico unitario di riferimento per la programmazione regionale in materia di lavoro, formazione professionale, sviluppo delle competenze e politiche attive del lavoro. Il Piano individua quale principio metodologico fondamentale il progressivo orientamento della programmazione regionale alla conoscenza dei fabbisogni professionali, al rafforzamento della funzione pubblica nel mercato del lavoro, alla misurazione degli esiti occupazionali e al miglioramento dell'incontro tra domanda e offerta di lavoro. Il Programma GOL costituisce uno dei principali strumenti attuativi di tale strategia regionale, nel rispetto della disciplina nazionale ed europea di riferimento.

Procedure regionali di applicazione dell'art. 3, comma 4, del Decreto-legge 29 marzo 2019, n. 27, convertito con modificazioni dalla legge 21 maggio 2019, n. 44, e successive modifiche ed integrazioni – versione 2.

1. Premessa

Il presente documento definisce le procedure regionali finalizzate a dare applicazione all'art. 3, comma 4, del Decreto legge 29 marzo 2019, n. 27 convertito con modificazioni dalla legge 21 maggio 2019, n. 44, così come modificato dall'art. 41, comma 2-bis, del decreto-legge 30 dicembre 2019, n. 162, convertito, con modificazioni, dalla legge 28 febbraio 2020, n. 8, dall'art. 224, comma 5, del decreto-legge 19 maggio 2020, n. 34, convertito, con modificazioni, dalla legge 17 luglio 2020, n. 77 e dall'articolo 9 bis del Decreto Legge 15 maggio 2024 convertito, con modificazioni, dalla legge 12 luglio 2024, n. 101 in tema di dichiarazioni obbligatorie nel settore del latte e dei prodotti lattiero caseari.

Il richiamato comma 4 recita testualmente "*Chiunque non adempie agli obblighi di registrazione di cui ai commi 1, 2 e 4-bis entro i termini previsti è soggetto a una sanzione amministrativa pecuniaria da euro 1.000 a euro 6.000. Se il ritardo nella registrazione non supera trenta giorni lavorativi, la sanzione è ridotta del 50 per cento. Nel caso di mancata o tardiva registrazione mensile di quantitativi di latte vaccino, ovino e caprino superiori a 500 ettolitri per due mesi consecutivi si applica la sanzione accessoria del divieto di svolgere l'attività di cui ai commi 1 e 2 nel territorio italiano, per un periodo da sette a trenta giorni*".

Nel caso di un piccolo produttore, in conformità a quanto previsto dal comma 4-bis, che non adempie agli obblighi di registrazione di cui al comma 2, le sanzioni di cui al comma 4 si applicano a partire dalle dichiarazioni riferite alle produzioni realizzate nell'anno 2024.

Quindi le previste sanzioni del decreto-legge 29 marzo 2019, n. 27, convertito, con modificazioni, dalla legge 21 maggio 2019, n. 44 e successive modifiche ed integrazioni trovano applicazione nel caso in cui siano accertate le richiamate inadempienze.

I Decreti Mipaaf 6 agosto 2021 e 26 agosto 2021 e successive modifiche ed integrazioni hanno definito in seguito le modalità di applicazione dell'articolo 3 del decreto-legge 29

marzo 2019, n. 27, convertito, con modificazioni, dalla legge 21 maggio 2019, n. 44, e successive modifiche ed integrazioni rispettivamente per il settore del latte bovino e per il settore del latte ovicaprino statuendo in particolare, ai commi 2, 5 e 6 dell'articolo 6, gli obblighi e la tempistica di registrazione delle relative dichiarazioni.

L'articolo 1, comma 3, e l'articolo 2, comma 3, del Decreto Masaf 18 gennaio 2023 n. 25422, invece, hanno stabilito che le disposizioni previste dall'articolo 8, commi 6 e 8 dei Decreti Mipaaf 6 agosto 2021 e 26 agosto 2021 si applicano alle dichiarazioni presentate successivamente al mese di giugno 2023, per consentire a tutti i soggetti interessati di espletare tutte le attività necessarie e propedeutiche all'assolvimento dei previsti adempimenti di competenza. E tanto sia per le dichiarazioni relative al latte bovino che per le dichiarazioni relative al latte ovicaprino.

L'obiettivo del presente documento è anche quello di garantire un quadro delle vigenti disposizioni in materia di sanzioni amministrative, in tutti i casi di accertata inadempienza, nel settore delle dichiarazioni obbligatorie nel settore del latte e dei prodotti lattiero-caseari che sia chiaro e definito per tutti i soggetti della filiera latte bovino ed ovicaprino interessati, vale a dire i primi acquirenti, le aziende che producono prodotti lattiero-caseari (cosiddetti fabbricanti), i piccoli produttori ed i produttori di latte stabiliti sul territorio regionale.

Le presenti procedure sostituiscono le precedenti approvate con Decreto Dirigenziale Regionale (50.07.00) n. 263 del 30 aprile 2024 (BURC n. 35 del 6 maggio 2024) che di fatto non hanno trovato mai applicazione per la tardività di inizio delle operazioni di controllo nel settore del latte e dei prodotti lattiero-caseari in tutte le Regioni e province autonome.

L'entrata in vigore dell'articolo 9 bis del Decreto-legge 15 maggio 2024, convertito in legge 12 luglio 2024, n. 101 nonché della Legge regionale 15 maggio 2024, n. 6 "*Ordinamento e organizzazione degli uffici della Giunta regionale*" ha determinato, inoltre, l'esigenza di rivedere le precedenti procedure di cui al Decreto n. 263/2024 che per comodità di lettura ed applicazione sono integralmente sostituite dalle presenti.

Soltanto nel caso in cui il latte viene contabilizzato ai fini fiscali da un primo acquirente si configura il caso di "consegna" con conseguente dichiarazione da parte del primo acquirente.

4. Le attività di controllo di competenza regionale

La Regione Campania, per ogni anno solare, effettua i controlli volti a verificare il rispetto della tempistica, della correttezza e della completezza delle dichiarazioni dei primi acquirenti, delle aziende che producono prodotti lattiero-caseari e dei piccoli produttori di cui ai commi 2, 5 e 6, articolo 6, dei Decreti Mipaaf 6 agosto 2021 e 26 agosto 2021.

I controlli sono svolti attraverso verifiche amministrative presso tutti i richiamati soggetti e, ove necessario, attraverso verifiche in loco presso le aziende conferenti.

Il campione dei controlli, parte integrante di un apposito *Piano dei controlli*, è comunicato alla Regione da AGEA per ogni anno solare e viene estratto in conformità ai criteri definiti

fonte: http://burc.regione.campania.it

con la circolare prot. n. 0053456 dell'11 luglio 2023; criteri eventualmente integrati di concerto tra Regioni, ICQRF e la stessa AGEA.

L'Amministrazione regionale può ad ogni modo effettuare ogni ulteriore attività di verifica in ordine agli adempimenti di legge a carico dei richiamati soggetti della filiera lattiero-casearia in tutti i casi di presunte irregolarità, accertate d'ufficio o su segnalazione, con la finalità di assicurare il più ampio rispetto delle disposizioni normative di riferimento.

Per le inadempienze degli obblighi amministrativi di registrazione di cui ai commi 2, 5 e 6, articolo 6, dei Decreti Mipaaf *6 agosto 2021* e 26 agosto 2021 e, quindi, per la violazione degli obblighi di legge previsti dall'art. 3, commi 1, 2 e 4 bis, del decreto-legge 29 marzo 2019, n. 27, convertito, con modificazioni, dalla legge 21 maggio 2019, n. 44 trovano applicazione le sanzioni previste dalla stessa legge all'articolo 3, comma 4. Tale adempimento è rispettato se le registrazioni sono effettuate nei termini prescritti e sono corrette. In tutti i casi in cui le registrazioni non sono effettuate in maniera corretta, sebbene nel pieno rispetto della tempistica prevista dalle vigenti disposizioni, sono da ritenersi non in linea con la norma e, quindi, i soggetti tenuti ai relativi adempimenti sono sottoposti a contestazione di illecito amministrativo.

La competenza dei diversi uffici regionali in relazione ai controlli da effettuare è rilevata in base alla sede legale per quanto riguarda i primi acquirenti e le aziende che producono prodotti lattiero-caseari. Mentre per i produttori è rilevata, in via generale, in base alla provincia di ubicazione dell'allevamento, riscontrabile in sigla (AV, BN, CE, NA o SA) dal codice alfanumerico aziendale (codice stalla). Resta ferma la possibilità, per uniformità e celerità dei controlli stessi, di poter anche operare al di fuori della provincia di competenza, in accordo fra le UOS Servizi territoriali provinciali interessate, sentiti i relativi Uffici di Settore e la Direzione Generale.

Per i controlli fuori Regione, invece, bisogna che gli stessi siano effettuati in accordo anche con le Direzioni Generali competenti di quella Regione o Provincia autonoma. Tali attività possono essere espletate congiuntamente, in via autonoma o delegate ai competenti Uffici extraregionali, ma pur sempre a seguito di apposita condivisione di tali modalità con i richiamati Uffici.

Le sanzioni sono irrogate dall'ICQRF - *Dipartimento dell'Ispettorato centrale della tutela della qualità e della repressione frodi dei prodotti agroalimentari* del Masaf al quale,

fonte: http://burc.regione.campania.it

pertanto, devono essere trasmessi tutti gli atti di accertamento ai sensi dell'articolo 17 della legge n. 689/1981 e successive modifiche ed integrazioni in tutti i casi di mancato pagamento in misura ridotta nel termine perentorio di 60 giorni dalla contestazione dell'illecito amministrativo.

Il trasgressore, o il suo obbligato in solido, può richiedere di essere sentito, presentare scritti e memorie difensive entro 30 giorni dalla contestazione dell'illecito amministrativo alla sede dell'ICQRF competente per territorio, direttamente o per il tramite dell'Ufficio regionale che ha contestato l'inadempienza.

I soggetti della filiera lattiero-casearia interessati dalle attività di controllo sono i seguenti:

- ✓ Primi acquirenti
- ✓ Aziende che producono prodotti lattiero-caseari
- ✓ Produttori di latte bovino e/o ovicaprino
- ✓ Piccoli produttori

5.1. Attività dei Settori (207.01.00) *Politiche per la competitività dell'agroalimentare campano* e (207.02.00) *Gestione controllo e semplificazione dei processi amministrativi in ambito agricolo – valorizzazione*.

I Settori 207.01 e 207.02 in stretta collaborazione con la DG-PAAF espletano una attività di programmazione e coordinamento di tutta l'attività regionale in materia assicurando i necessari raccordi con l'Avvocatura regionale, il Masaf, l'ICQRF ed AGEA per tutte le attività che per la loro natura e rilevanza devono essere svolte in maniera unitaria, ivi compreso eventuali attività di controllo/audit sul territorio regionale da parte di organi nazionali o unionali.

Provvedono ad assicurare, altresì, il necessario raccordo con i competenti Uffici delle altre Regioni e Province autonome in tutti i casi in cui devono essere espletati controlli al di fuori del territorio regionale, debba essere acquisita o inoltrata specifica documentazione concernente le attività di controllo o che, comunque, debbano essere espletate attività di controllo in maniera congiunta o delegate.

5.1. Attività delle Unità Operative Semplici – Servizi territoriali provinciali di Avellino (207.02.03), Benevento (207.01.04), Caserta (207.02.04), Napoli (207.01.01) e Salerno (207.02.02).

Le UOS *Servizi territoriali provinciali* di Avellino, Benevento Caserta, Napoli e Salerno sono incaricate dell'espletamento delle attività di controllo presso tutti i soggetti interessati della filiera lattiero-casearia indicati al paragrafo 4, vale a dire:

Gli incaricati delle attività di controllo sono individuati con apposito provvedimento adottato dal Direttore Generale per le Politiche Agricole Alimentari e Forestali (207.00.00) della Giunta Regionale della Regione Campania.

Qualsiasi attività di controllo deve essere verbalizzata a mezzo dell'apposita modulistica (allegato C.1. verbale di sopralluogo). Nel caso in cui si tratti di controllo che rientra nel *Piano dei Controlli* predisposto da AGEA annualmente può essere utilizzata, in alternativa al modello C.1., la modulistica resa disponibile dall'Agenzia per i previsti controlli.

In tutti i casi in cui a seguito delle attività di controllo si rilevino degli illeciti amministrativi è fatto obbligo agli agenti verbalizzanti di effettuare, in via generale, la contestazione immediata dell'inadempienza a mezzo dell'apposito verbale (allegato C.2. processo verbale).

Il processo verbale prevede, da parte degli agenti verbalizzanti, l'indicazione, tra gli altri, dei seguenti dati:

- ✓ data e numero del verbale; il numero del verbale è costituito da 16 caratteri di cui i primi 4 identificano l'anno di riferimento della contestazione dell'infrazione, i caratteri dal n. 5 al n. 11 identificano il codice dell'Ufficio di appartenenza degli agenti verbalizzanti (2070203, 2070104, 2070204, 2070101 e 2070202 rispettivamente per le UOS-Stp di Avellino, Benevento, Caserta, Napoli e Salerno), i caratteri dal n. 12 al numero 13 indicano la sigla della provincia dell'Ufficio di appartenenza degli agenti verbalizzanti (AV, BN, CE, NA e SA) ed i caratteri dal n. 14 al n. 16 identificano il progressivo del verbale dell'anno di riferimento (ad es. 001, 002, 003, ecc.);
- ✓ trasgressore ed obbligato in solido;
- ✓ descrizione dell'infrazione di legge rilevata (inadempienze preimpostate nel verbale);
- ✓ il trasgressore, l'obbligato in solido e/o loro delegato i quali possono riportare delle osservazioni nell'apposito spazio del verbale a pagina 2;
- ✓ apposita dichiarazione del trasgressore e dell'obbligato in solido di elezione del proprio domicilio digitale;
- ✓ indicazione dell'importo del pagamento in misura ridotta a titolo di oblazione pari ad un terzo del massimo o al doppio del minimo della sanzione prevista, ai sensi dell'articolo 16 della legge n. 689/1981 e successive modifiche ed integrazioni;

fonte: http://burc.regione.campania.it

- ✓ le modalità di pagamento: versamento tramite bonifico bancario intestato a “Ministero dell’Economia e delle Finanze” IBAN “IT74N0100003245BE00000000IL” riportando nella causale ““DL n. 27/2019 - Verbale Regione Campania numero e data e le generalità del trasgressore (nome, cognome/ragione sociale e Codice fiscale)”;
- ✓ l’importo da versare in euro con due cifre decimali arrotondate per eccesso o per difetto con la regola del 5; le prime due cifre decimali vanno indicate anche nell’ipotesi in cui la cifra sia espressa in unità di euro (ad es. 2.000,00);
- ✓ indicazione che il pagamento a titolo di oblazione deve essere effettuato entro 60 giorni dalla contestazione immediata al trasgressore o all’obbligato in solido dell’illecito amministrativo o, se questa non vi è stata, dalla notificazione degli estremi della violazione;
- ✓ indicazione al trasgressore, nel caso in cui sia effettuato il pagamento in misura ridotta, di provvedere a trasmettere l’attestazione di avvenuto versamento entro 10 giorni dal termine ultimo per effettuare il versamento stesso all’Ufficio regionale competente che ha contestato la violazione amministrativa;
- ✓ indicazione della somma ridotta da pagare con effetto liberatorio, con abbattimento del 30 percento, ai sensi dell'articolo 1, comma 4, della Legge 11 agosto 2014, n. 116, di quanto dovuto a titolo di oblazione (art. 16 della legge n. 689/1981) qualora il pagamento sia effettuato entro 5 giorni dalla data di notifica del verbale;
- ✓ indicazione dell’autorità competente a ricevere scritti difensivi e documenti o essere sentiti sui fatti contestati, ai sensi dell’articolo 18 della legge n. 689/1981.

In conformità a quanto previsto dall’articolo 14 della legge n. 689/1981 e successive modifiche ed integrazioni la violazione, quando è possibile, deve essere contestata immediatamente tanto al trasgressore quanto alla persona che sia obbligata in solido al pagamento della somma dovuta per la violazione stessa.

Se non è avvenuta la contestazione immediata per tutte o per alcune delle persone indicate nel periodo precedente, gli estremi della violazione debbono essere notificati agli interessati residenti nel territorio della Repubblica entro il termine di novanta giorni e a quelli residenti all'estero entro il termine di trecentosessanta giorni dall'accertamento.

Per la forma della contestazione immediata o della notificazione si applicano le disposizioni previste dalle leggi vigenti. In ogni caso la notificazione può essere effettuata,

con le modalità previste dal Codice di Procedura Civile, anche da un funzionario dell'amministrazione che ha accertato la violazione.

L'obbligazione di pagare la somma dovuta per la violazione si estingue per la persona nei cui confronti è stata omessa la notificazione nel termine prescritto.

I trasgressori, nel termine di trenta giorni dalla notifica del verbale, possono produrre scritti difensivi, documenti, nonché richiesta di audizione sui fatti contestati, da inviare direttamente all'ICQRF Via Amerigo Vespucci, 168 - 80142 Napoli, PEC: aoo.icqrf.cm@pec.masaf.gov.it, informandone comunque l'Ufficio regionale verbalizzante, oppure per il tramite dell'Ufficio che ha contestato l'infrazione agli indirizzi indicati nel processo verbale.

L'ICQRF, sentiti gli interessati, ove questi ne abbiano fatto richiesta, ed esaminati i documenti inviati e gli argomenti esposti negli scritti difensivi, se ritiene fondato l'accertamento, determina, con ordinanza motivata, la somma dovuta per la violazione e ne ingiunge il pagamento, insieme con le eventuali spese, all'autore della violazione ed alle persone che vi sono obbligate solidalmente, altrimenti emette ordinanza motivata di archiviazione degli atti comunicandola integralmente all'organo che ha redatto il rapporto, al trasgressore ed all'obbligato in solido. Nei casi previsti provvede all'applicazione della sanzione accessoria di cui all'articolo 3, comma 4, terzo periodo, del Decreto-legge 29 marzo 2019, n. 27 convertito con modificazioni dalla legge 21 maggio 2019, n. 44.

L'Ufficio regionale competente che ha accertato la violazione qualora non sia stato effettuato il pagamento in misura ridotta trasmette allo scadere dei 60 giorni concessi per il pagamento (+ 10 giorni per la trasmissione della ricevuta di pagamento) dalla contestazione dell'illecito amministrativo alla richiamata sede dell'ICQRF, ai sensi di quanto previsto dall'articolo 17, della legge n. 689/1981 e successive modifiche ed integrazioni, un dettagliato rapporto con la prova delle eseguite contestazioni o notificazioni.

L'Ufficio regionale competente che ha accertato la violazione provvede a trasmettere all'ICQRF un dettagliato rapporto con la prova delle eseguite contestazioni o notificazioni anche nel caso in cui acquisisca nei 30 giorni successivi alla contestazione dell'illecito amministrativo da parte del trasgressore o dell'obbligato in solido "*scritti difensivi,*

fonte: http://burc.regione.campania.it

documenti, nonché richiesta di audizione sui fatti contestati", che possono essere trasmessi appunto all'ICQRF anche per il tramite dell'Ufficio regionale verbalizzante.

Nel caso in cui, invece, il trasgressore ha provveduto ad effettuare il versamento in misura ridotta a titolo di oblazione l'Ufficio regionale competente che ha accertato la violazione provvede a trasmettere all'ICQRF la sola copia dell'avvenuto versamento, unitamente a copia della contestazione dell'illecito amministrativo.

Al richiamato Ufficio dell'ICQRF, in qualità di Autorità competente ai sensi di quanto previsto dall'articolo 3, comma 5, del decreto-legge 29 marzo 2019, n. 27 convertito con modificazioni dalla legge 21 maggio 2019, n. 44, compete l'applicazione di quanto previsto dall'articolo 18 della legge n. 689/1981 e successive modifiche ed integrazioni.

Al suddetto Ufficio dell'ICQRF compete, altresì, l'applicazione della sanzione accessoria del divieto di svolgere l'attività di cui ai commi 1 e 2, articolo 3, del DL n. 27/2019, convertito con modificazioni dalla legge 21 maggio 2019, n. 44 in conformità a quanto previsto dallo stesso decreto-legge all'articolo 3, comma 4, terzo periodo.

b. il quadro di avanzamento della spesa, desumibile dalle previsioni di attuazione per il 2026, rende necessario procedere alla razionalizzazione della programmazione sinora disposta sul PR Campania FESR 2021/2027, al fine di selezionare gli interventi effettivamente in grado di contribuire al conseguimento dei target del Programma;
c. con Deliberazione n. 63 del 27/02/2026, la Giunta ha demandato all'Autorità di Gestione del Fondo Europeo per lo Sviluppo Regionale (di seguito AdG FESR) di formalizzare tempestivamente, con proprio provvedimento, l'esito dell'attività di valutazione delle operazioni programmate a valere sul PR FESR 2021/2027, ai fini dell'accertamento della sussistenza dei requisiti di priorità degli interventi, ai sensi di quanto disposto dalle DDGR n. 738/2024 e n. 248/2025;
d. nella medesima Delibera di Giunta si stabilisce che, tenuto conto della predetta attività di valutazione, i ROS procedano, per quanto di rispettiva competenza, alla definitiva analisi delle operazioni classificate come "non prioritarie", al fine di verificarne alternativamente:
   - la possibilità di differimento su altro periodo di programmazione;

g. il medesimo decreto stabilisce che i Responsabili di Obiettivo Specifico, procedano, per gli interventi già ammessi a finanziamento, e per tutti quelli classificati come "prioritari", alla valutazione del rispetto delle scadenze previste nei rispettivi cronoprogrammi, e, nel caso di ritardi superiori a 6 mesi complessivi tra i vari step procedurali, fisici e/o di spesa, ad attivare un contraddittorio con il beneficiario, ad esito del quale, in assenza di giustificati e documentati motivi, dare avvio al procedimento di revoca totale o parziale del finanziamento ed al recupero delle somme eventualmente liquidate;
h. in raccordo con l'AdG FESR, la Direzione Generale Istruzione, Università, Ricerca e Innovazione ha definito i contenuti della DGR n. 261 del 03/06/2026. L'atto punta ad assestare e razionalizzare, tra gli altri, la programmazione del PR FESR 2021-2027 afferente all'Azione 4.2.2;

Il Beneficiario, dal canto suo, si obbliga al rispetto delle misure di informazione e comunicazione di cui all'Allegato IX al Reg. n. (UE) 1060/2021 e:

- a garantire che i partecipanti all'operazione e la cittadinanza siano informati che l'operazione è stata selezionata nel quadro del Programma Regionale cofinanziato dal FESR;
- a fornire, nei casi previsti dai Regolamenti comunitari e dalla normativa e dalle procedure interne, le opportune prove documentali dell'osservanza delle norme, in particolare di quelle relative alla cartellonistica all'atto della richiesta dell'anticipazione;
- a dare prova documentale della targa apposta al progetto in occasione della richiesta di pagamento del saldo;
- a garantire, inoltre, che in qualsiasi documento figuri una dichiarazione da cui risulti che l'operazione è stata cofinanziata dal PR Campania FESR 21/27;
- a garantire che tutti i documenti informativi e pubblicitari prodotti dallo stesso nell'ambito delle operazioni finanziate dal PR Campania FESR 21/27 e rivolti al pubblico (come ad esempio pubblicazioni di ogni genere, cataloghi, brochure, filmati, video ecc.) contengano l'emblema dell'Unione Europea, l'indicazione del PR Campania FESR 21/27 e lo slogan.

Articolo 5
Condizioni di erogazione del finanziamento

Con riferimento alle modalità di erogazione del finanziamento, il ROS emette e notifica al Beneficiario il Decreto di ammissione a finanziamento. A seguito della stipula della Convenzione, il ROS emette il decreto di impegno contabile in conformità alle vigenti norme in materia di contabilità pubblica ed in particolare nel rispetto del principio della competenza finanziaria potenziata e liquida al Beneficiario l'anticipazione del **10%** del costo dell'intervento ammesso a finanziamento per consentirgli di avviare tempestivamente le procedure di gara. Tale anticipazione è subordinata:

- alla sottoscrizione della presente Convenzione alla quale devono essere allegati i cronoprogrammi, procedurale e di spesa, relativi all'operazione ammessa a finanziamento;
- alla comunicazione del CUP (Codice Unico di Progetto);
- alla comunicazione delle coordinate bancarie del conto corrente dedicato, nei casi previsti per legge così come previsto dal Manuale di Attuazione.

L'importo del Decreto di ammissione a finanziamento può essere revocato nella sua totalità o ridotto dal ROS a seguito del riscontro di irregolarità/frodi e/o nei casi in cui non siano rispettate le tempistiche previste per l'espletamento dei vari *step* procedurali indicati dal Beneficiario nel cronoprogramma e attinenti le diverse fasi dell'operazione cofinanziata: dalle procedure di gara, all'esecuzione del contratto, fino al collaudo e messa in esercizio dell'opera, in caso di lavori, ovvero alla verifica di conformità per i servizi e per le forniture.

In tal caso è previsto, inoltre, nei confronti del Beneficiario Ente pubblico, l'obbligo di restituire le somme indebitamente ricevute, secondo le indicazioni e modalità dettate dal ROS in ossequio alla normativa comunitaria e nazionale vigente in materia, anche attraverso la compensazione del credito vantato dalla Regione Campania (pari all'importo delle liquidazioni erogate al Beneficiario fino a quella data) con ogni eventuale altro credito vantato dal Beneficiario nei confronti della stessa, ai sensi degli artt. 1241, 1242 e 1252 codice civile.

fonte: http://burc.regione.campania.it

In seguito all'aggiudicazione dei lavori o della fornitura di beni/servizi, il RUP trasmette al ROS/RLA la richiesta di un'ulteriore anticipazione **nella misura del 10%** del costo dell'intervento ammesso a finanziamento e rimodulato a seguito dell'espletamento della procedura ad evidenza pubblica.

Tale anticipazione sommata a quella erogata a seguito dell'ammissione a finanziamento del progetto, non deve superare la misura del **20%** del costo dell'intervento ammesso a finanziamento, come rimodulato a seguito dell'espletamento della procedura ad evidenza pubblica.

Tale richiesta dovrà essere corredata dalla documentazione prevista dal Manuale di Attuazione.

Per i progetti il cui valore è inferiore o pari a 5Mln/€, le successive tre liquidazioni, saranno, di norma, pari rispettivamente a:

- **30%** del costo ammesso a finanziamento e rimodulato a seguito dell'espletamento della gara d'appalto;
- **30%** del costo ammesso a finanziamento e rimodulato a seguito dell'espletamento della gara d'appalto;
- **10%** del costo ammesso a finanziamento e rimodulato a seguito dell'espletamento della gara d'appalto.

Tali erogazioni saranno concesse a seguito della rendicontazione delle spese da parte del Beneficiario di almeno **il 95% dell'importo complessivo ricevuto fino a quel momento**. Le spese dovranno essere comprovate dalla documentazione prevista nel Manuale di Attuazione.

Il saldo finale, pari **al valore delle spese ancora da sostenere**, potrà essere richiesto dal Beneficiario solo dopo aver rendicontato, con fatture quietanzate, il 100% degli acconti ricevuti. La richiesta dovrà essere corredata dalla documentazione attestante la fine di tutti i lavori o del servizio/fornitura prevista nel Manuale di Attuazione.

Con riferimento all'erogazione delle risorse, il Beneficiario dovrà ricevere l'importo totale della spesa pubblica ammissibile **entro 80 giorni** dalla data di presentazione della richiesta di pagamento. A tale ultimo riguardo, il Beneficiario dovrà, necessariamente e quale condizione del pagamento, caricare sul sistema di monitoraggio i dati relativi all'avanzamento procedurale, fisico e finanziario dell'intervento oggetto di richiesta di pagamento unitamente all'inoltro della Dichiarazione di Spesa/Domanda di rimborso al ROS, se pertinente, e dovrà fornire, in particolare, informazioni sui dati relativi ai progressi realizzati per il raggiungimento dei target degli indicatori previsti nel "Quadro di riferimento dell'efficacia dell'attuazione", se inerenti, **pena il mancato trasferimento di risorse in suo favore e l'inesigibilità delle stesse**.

Il ROS, inoltre, dovrà celermente procedere a inserire, nella Dichiarazione di Spesa di propria competenza, le spese rendicontate dal Beneficiario, al fine di garantirne la certificazione in tempi brevi. La dichiarazione di spesa/domanda di rimborso ai fini della sua ricevibilità dovrà contenere i dati relativi ai progressi realizzati per il raggiungimento dei target degli indicatori previsti dal Programma.

Articolo 6
Spese ammissibili

Le Parti si danno reciprocamente atto che le tipologie di spese ammissibili al finanziamento del FESR, che ricadono nell'ambito delle operazioni del Programma Regionale, sono quelle previste dall'art. 63 del Regolamento (UE) n.1060/2021nonché quelle previste dalla normativa nazionale vigente *ratione temporis*.

fonte: http://burc.regione.campania.it

Inoltre, si specifica che si ritengono ammissibili le spese effettuate dal 01/01/2021 al 31/12/2029.

Articolo 7
Verifiche e controlli

Il ROS svolge le verifiche ordinarie rientranti nell'attività di gestione e attuazione degli interventi che riguardano, dal punto di vista temporale, l'intero "ciclo di vita" dell'operazione.
In fase di realizzazione dell'operazione, le verifiche hanno ad oggetto la domanda di rimborso del Beneficiario e/o dell'operatore economico esecutore/fornitore e le rendicontazioni di spesa che la accompagnano e, in particolare, riguardano, a titolo esemplificativo:

- la correttezza formale delle domande di rimborso;
- il rispetto delle norme comunitarie e nazionali in materia di appalti pubblici e pubblicità;
- l'istruttoria svolta al fine di giustificare la scelta di affidare eventualmente ad una Società in house la prestazione di servizi specialistici;
- la sussistenza, la conformità e la regolarità del contratto/convenzione o altro documento negoziale e/odi pianificazione delle attività rispetto all'avanzamento delle attività e la relativa tempistica. Tale verifica può essere svolta sulla base di documenti descrittivi delle attività svolte, quali stati avanzamento lavori o relazioni delle attività svolte;
- nel caso di verifica di ritardi superiori a 6 mesi complessivi tra i vari step procedurali, fisici e/o di spesa indicati nei rispettivi cronoprogrammi, dovrà avviare un contraddittorio con il Beneficiario da concludersi entro 30 (trenta) giorni;
- qualora le giustificazioni e la documentazione trasmessa dal beneficiario in contradditorio non siano sufficienti a giustificare le cause del ritardo, avvierà il procedimento di revoca totale o parziale del finanziamento;
- la regolarità finanziaria della spesa sui documenti giustificativi presentati ovvero l'ammissibilità delle spese mediante verifica dei seguenti principali aspetti:
  - la completezza e la coerenza della documentazione giustificativa di spesa (comprendente almeno fatture quietanzate o documentazione contabile equivalente) ai sensi della normativa nazionale e comunitaria di riferimento, al PR FESR, al bando di selezione/bando di gara, al contratto/convenzione e a eventuali rinegoziazioni secondo buona fede delle condizioni contrattuali per il ripristino dell'originario equilibrio del contratto, modifiche e/o varianti intervenute in corso di esecuzione e debitamente approvate;
  - la conformità della documentazione giustificativa di spesa alla normativa civilistica e fiscale;
  - l'ammissibilità della spesa in quanto riferibile alle tipologie di spesa consentite congiuntamente dalla normativa comunitaria e nazionale di riferimento, dal bando di selezione/di gara, dal contratto/convenzione e da sue eventuali varianti;
  - l'eleggibilità della spesa, in quanto sostenuta nel periodo consentito dal Programma;
  - la riferibilità della spesa al Beneficiario dell'operatore economico esecutore/fornitore e all'operazione selezionata;
  - il rispetto dei limiti di spesa ammissibile a contributo previsti dalla normativa comunitaria e nazionale di riferimento, dal contratto/convenzione e da eventuali varianti; tale verifica deve essere riferita anche alle singole voci di spesa incluse nella rendicontazione sottoposta a controllo;
- il rispetto delle disposizioni previste per le modalità di erogazione del finanziamento; in relazione ai contratti, indipendentemente dall'esperimento o meno di una gara per l'affidamento di lavori, forniture e servizi, la normativa in vigore sulla tracciabilità dei flussi finanziari in applicazione del "*Piano finanziario contro le mafie, nonché delega al Governo in materia di normativa antimafia*" di cui alla Legge n. 136 del 13 agosto 2010 e s.m.i..

In fase di conclusione, le verifiche devono essere effettuate con riferimento ai seguenti aspetti:

fonte: http://burc.regione.campania.it

- l'avvenuta presentazione del rendiconto finale da parte del Beneficiario;
- la verifica della documentazione giustificativa di spesa residuale presentata secondo le modalità riportate precedentemente nella "fase di realizzazione";
- l'avvenuta presentazione della domanda di saldo da parte del Beneficiario;
- la determinazione dell'importo effettivamente riconosciuto e del relativo saldo.

A seguito della conclusione delle operazioni, per il caso di operazione che comporta investimenti in infrastrutture o investimenti produttivi, il ROS verificherà il rispetto della "stabilità delle operazioni" secondo quanto previsto all'art. 65 del Reg. (UE) n. 1060/2021.
Inoltre, al fine di individuare tempestivamente eventuali irregolarità e/o errori e/o difformità esecutive, il ROS può effettuare delle verifiche *in loco*, con lo scopo di:

- completare le verifiche eseguite a livello amministrativo;
- comunicare al Beneficiario di riferimento le dovute correzioni da apportare possibilmente mentre l'operazione è ancora in corso d'opera.

Qualora a seguito dei controlli svolti dalla Struttura Dirigenziale di Secondo Livello per i Controlli di I livello emergessero irregolarità/criticità sui progetti di propria competenza, il ROS potrà procedere ad acquisire dal Beneficiario dell'operazione eventuali controdeduzioni e/o documentazione integrativa utile a superare le criticità riscontrate.
Il Beneficiario è responsabile della corretta attuazione dell'operazione cofinanziata.
Il Beneficiario, inoltre, garantisce alle strutture competenti della Regione (Autorità di Gestione, Autorità di Certificazione, ROS, Autorità di Audit) e, se del caso, agli Organismi Intermedi, al Ministero dell'Economia e delle Finanze (IGRUE), ai Servizi ispettivi della Commissione, nonché a tutti gli organismi deputati allo svolgimento di controlli sull'utilizzo dei fondi comunitari, l'accesso a tutta la documentazione, amministrativa, tecnica e contabile, connessa all'operazione cofinanziata. Esso è tenuto, inoltre, a fornire agli esperti o organismi deputati alla valutazione interna o esterna del PR FESR tutti i documenti necessari alla valutazione del Programma.
Il Beneficiario è, infine, tenuto a prestare la massima collaborazione nelle attività svolte dai soggetti incaricati dei controlli fornendo tempestivamente le informazioni richieste e gli estratti o copie dei documenti o dei registri contabili.

Articolo 8
Recuperi

Ogni irregolarità, rilevata prima o dopo l'erogazione del contributo pubblico versato ai Beneficiari, dovrà essere immediatamente rettificata e gli importi eventualmente già corrisposti dovranno essere recuperati dal ROS in conformità con la normativa di riferimento, secondo i rispettivi ordinamenti.
Il ROS dovrà fornire tempestivamente all'AdG ogni informazione in merito agli importi recuperati, agli importi da recuperare e agli importi non recuperabili.

Articolo 9
Casi di revoca del finanziamento e risoluzione della Convenzione

Qualora l'attuazione dell'intervento dovesse procedere in sostanziale difformità dalle modalità, dai tempi, dai contenuti, dalle finalità e dagli obblighi sanciti e prescritti dalla normativa comunitaria e nazionale applicabile alla presente Convenzione, dal PR FESR 21/27, dal Manuale per l'Attuazione e dalla presente Convenzione, si procede alla risoluzione della Convenzione e alla contestuale revoca del finanziamento.

fonte: http://burc.regione.campania.it

Come previsto dall'articolo 5 della presente Convenzione, a seguito del riscontro di irregolarità e/o frodi oppure nel caso di ritardi superiori a 6 mesi complessivi tra i vari *step* procedurali, fisici e/o di spesa indicati nei rispettivi cronoprogrammi, il ROS è tenuto ad avviare un contraddittorio con il Beneficiario.

In tale circostanza, il beneficiario potrà fornire al ROS giustificati e documentati motivi comprovanti la legittimità della causa del ritardo unitamente ai cronoprogrammi aggiornati. Il ROS qualora ritenga che la documentazione trasmessa e le motivazioni fornite dal beneficiario siano esaustive a giustificare le cause del ritardo dovrà tempestivamente approvare - con proprio atto motivato - i nuovi cronoprogrammi che dovranno in ogni caso essere compatibili con le tempistiche previste dal PR FESR 21/27 evidenziando, altresì, eventuali impatti sul quadro economico dell'intervento. Qualora le giustificazioni e la documentazione trasmessa dal beneficiario in contradditorio non siano sufficienti a giustificare le cause del ritardo, avvierà il procedimento di revoca totale o parziale del finanziamento.

La revoca del finanziamento comporterà l'obbligo da parte del beneficiario di restituire le somme indebitamente ricevute maggiorate degli interessi legali maturati medio tempore, secondo le indicazioni dettate dal ROS in ossequio alla normativa comunitaria e nazionale vigente in materia.

Per il beneficiario Ente Pubblico, la restituzione delle somme indebitamente ricevute potrà avvenire anche attraverso la compensazione del credito vantato dalla Regione Campania (pari all'importo delle liquidazioni erogate al beneficiario fino a quella data) con ogni eventuale altro credito vantato dal beneficiario nei confronti della stessa, ai sensi degli artt. 1241, 1242 e 1252 codice civile. I crediti della Regione nascenti dal recupero delle somme indebitamente percepite dal beneficiario e oggetto di revoca sono assistiti da privilegio speciale sui beni immobili realizzati con le risorse regionali, con preferenza sui creditori ipotecari ai sensi dell'art. 2748 codice civile e prevalenza su ogni titolo di prelazione da qualsiasi causa derivante.

Il processo descritto dovrà concludersi entro 30 (trenta) giorni dalla data di avvio del contraddittorio con il beneficiario.

Nel caso in cui il ROS decida di rimborsare, in favore del Beneficiario, fatture non pagate (anche in sede di erogazione del saldo) la mancata presentazione delle quietanze entro il termine massimo di 80 giorni ovvero entro l'inferiore termine stabilito con atto amministrativo dal ROS costituisce, altresì, motivo di revoca del finanziamento.

La risoluzione della Convenzione e la revoca totale e/o parziale del contributo comporterà l'obbligo per il Beneficiario di restituire le somme indebitamente ricevute maggiorate degli interessi legali maturati *medio tempore.*

Per il caso di Beneficiario **Ente pubblico**, come indicato al precedente articolo 5, la restituzione delle somme indebitamente ricevute potrà avvenire anche attraverso la compensazione del credito vantato dalla Regione Campania (pari all'importo delle liquidazioni erogate al Beneficiario fino a quella data) con ogni eventuale altro credito vantato dal Beneficiario nei confronti della stessa, ai sensi degli artt. 1241, 1242 e 1252 codice civile.
Le parti convengono, ai sensi dell'art. 2745 codice civile, che i crediti della Regione nascenti dal recupero delle somme indebitamente percepite dal Beneficiario e oggetto di revoca sono assistiti da privilegio speciale sui beni immobili realizzati con le risorse regionali, con preferenza sui creditori ipotecari ai sensi dell'art. 2748 codice civile e prevalenza su ogni titolo di prelazione da qualsiasi causa derivante.

Articolo 10

Divieto di cumulo

Il Beneficiario dichiara di non percepire contributi, finanziamenti, o altre sovvenzioni, comunque denominati, da organismi pubblici per l'operazione oggetto della presente Convenzione.
In caso di accertata violazione di tale obbligo, il ROS dispone la revoca integrale del finanziamento e la risoluzione della presente Convenzione ai sensi del precedente articolo 9.

Articolo 11
Clausola di manleva

Il Beneficiario dovrà inserire nel contratto di affidamento dell'intervento una clausola che esplicitamente esoneri la Regione da qualsiasi rapporto di debito o di responsabilità diretta nei confronti dell'operatore economico affidatario dell'esecuzione dell'intervento finanziato con la presente Convenzione.

Il Beneficiario è responsabile in via esclusiva di qualsiasi danno che i terzi subiscano, direttamente e/o indirettamente, in dipendenza dell'esecuzione dell'intervento e delle attività connesse e non potrà, quindi, pretendere di rivalersi nei confronti della Regione che rimarrà estranea a ogni tipo di contenzioso, stragiudiziale e/o giudiziale.

Articolo 12

a) che non sussistono relazioni di parentela, affinità, o situazioni di convivenza o frequentazione abituale tra i titolari, gli amministratori, i soci e i dipendenti del Beneficiario e gli amministratori, i dirigenti e i dipendenti della Regione;
b) di non aver concluso contratti di lavoro subordinato o autonomo con ex dipendenti della Regione, che hanno esercitato poteri autorizzativi o negoziali per conto della medesima, per il triennio successivo alla cessazione del loro rapporto di lavoro, né di aver attribuito loro incarichi a qualsiasi titolo.

I contratti conclusi e gli incarichi conferiti in violazione di tale clausola sono nulli e comportano il divieto, al Beneficiario che li ha conclusi o conferiti, di contrattare con le Pubbliche Amministrazioni per i successivi tre anni, con l'obbligo di restituzione dei compensi eventualmente percepiti e accertati a essi riferiti, fatta salva, in ogni caso, la facoltà della Regione di richiedere, ai sensi di legge, il risarcimento di ogni eventuale danno subito.

Rimane espressamente esclusa dalle Parti la compromissione in arbitri.

Articolo 4
Obblighi di informazione e pubblicità

fonte: http://burc.regione.campania.it

Con riferimento alle attività connesse alle azioni di informazione, comunicazione e pubblicità il ROS provvede ad assicurare il rispetto degli obblighi in materia di informazione e pubblicità previsti nel Capo III – Sezione I e II e Allegato IX del Regolamento (UE) n. 1060/2021.

Il Beneficiario, dal canto suo, si obbliga al rispetto delle misure di informazione e comunicazione di cui all'Allegato IX al Reg. n. (UE) 1060/2021 e:

- a garantire che i partecipanti all'operazione e la cittadinanza siano informati che l'operazione è stata selezionata nel quadro del Programma Regionale cofinanziato dal FESR;
- a fornire, nei casi previsti dai Regolamenti comunitari e dalla normativa e dalle procedure interne, le opportune prove documentali dell'osservanza delle norme, in particolare di quelle relative alla cartellonistica all'atto della richiesta dell'anticipazione;
- a dare prova documentale della targa apposta al progetto in occasione della richiesta di pagamento del saldo;
- a garantire, inoltre, che in qualsiasi documento figuri una dichiarazione da cui risulti che l'operazione è stata cofinanziata dal PR Campania FESR 21/27;
- a garantire che tutti i documenti informativi e pubblicitari prodotti dallo stesso nell'ambito delle operazioni finanziate dal PR Campania FESR 21/27 e rivolti al pubblico (come ad esempio pubblicazioni di ogni genere, cataloghi, brochure, filmati, video ecc.) contengano l'emblema dell'Unione Europea, l'indicazione del PR Campania FESR 21/27 e lo slogan.

Articolo 5
Condizioni di erogazione del finanziamento

Con riferimento alle modalità di erogazione del finanziamento, il ROS emette e notifica al Beneficiario il Decreto di ammissione a finanziamento. A seguito della stipula della Convenzione, il ROS emette il decreto di impegno contabile in conformità alle vigenti norme in materia di contabilità pubblica ed in particolare nel rispetto del principio della competenza finanziaria potenziata e liquida al Beneficiario l'anticipazione del **10%** del costo dell'intervento ammesso a finanziamento per consentirgli di avviare tempestivamente le procedure di gara. Tale anticipazione è subordinata:

- alla sottoscrizione della presente Convenzione alla quale devono essere allegati i cronoprogrammi, procedurale e di spesa, relativi all'operazione ammessa a finanziamento;
- alla comunicazione del CUP (Codice Unico di Progetto);
- alla comunicazione delle coordinate bancarie del conto corrente dedicato, nei casi previsti per legge così come previsto dal Manuale di Attuazione.

L'importo del Decreto di ammissione a finanziamento può essere revocato nella sua totalità o ridotto dal ROS a seguito del riscontro di irregolarità/frodi e/o nei casi in cui non siano rispettate le tempistiche previste per l'espletamento dei vari *step* procedurali indicati dal Beneficiario nel cronoprogramma e attinenti le diverse fasi dell'operazione cofinanziata: dalle procedure di gara, all'esecuzione del contratto, fino al collaudo e messa in esercizio dell'opera, in caso di lavori, ovvero alla verifica di conformità per i servizi e per le forniture.

In tal caso è previsto, inoltre, nei confronti del Beneficiario Ente pubblico, l'obbligo di restituire le somme indebitamente ricevute, secondo le indicazioni e modalità dettate dal ROS in ossequio alla normativa comunitaria e nazionale vigente in materia, anche attraverso la compensazione del credito vantato dalla Regione Campania (pari all'importo delle liquidazioni erogate al Beneficiario fino a quella data) con ogni eventuale altro credito vantato dal Beneficiario nei confronti della stessa, ai sensi degli artt. 1241, 1242 e 1252 codice civile.

fonte: http://burc.regione.campania.it

In seguito all'aggiudicazione dei lavori o della fornitura di beni/servizi, il RUP trasmette al ROS/RLA la richiesta di un'ulteriore anticipazione **nella misura del 10%** del costo dell'intervento ammesso a finanziamento e rimodulato a seguito dell'espletamento della procedura ad evidenza pubblica.

Tale anticipazione sommata a quella erogata a seguito dell'ammissione a finanziamento del progetto, non deve superare la misura del **20%** del costo dell'intervento ammesso a finanziamento, come rimodulato a seguito dell'espletamento della procedura ad evidenza pubblica.

Tale richiesta dovrà essere corredata dalla documentazione prevista dal Manuale di Attuazione.

Per i progetti il cui valore è inferiore o pari a 5Mln/€, le successive tre liquidazioni, saranno, di norma, pari rispettivamente a:

- **30%** del costo ammesso a finanziamento e rimodulato a seguito dell'espletamento della gara d'appalto;
- **30%** del costo ammesso a finanziamento e rimodulato a seguito dell'espletamento della gara d'appalto;
- **10%** del costo ammesso a finanziamento e rimodulato a seguito dell'espletamento della gara d'appalto.

Tali erogazioni saranno concesse a seguito della rendicontazione delle spese da parte del Beneficiario di almeno **il 95% dell'importo complessivo ricevuto fino a quel momento**. Le spese dovranno essere comprovate dalla documentazione prevista nel Manuale di Attuazione.

Il saldo finale, pari **al valore delle spese ancora da sostenere**, potrà essere richiesto dal Beneficiario solo dopo aver rendicontato, con fatture quietanzate, il 100% degli acconti ricevuti. La richiesta dovrà essere corredata dalla documentazione attestante la fine di tutti i lavori o del servizio/fornitura prevista nel Manuale di Attuazione.

Con riferimento all'erogazione delle risorse, il Beneficiario dovrà ricevere l'importo totale della spesa pubblica ammissibile **entro 80 giorni** dalla data di presentazione della richiesta di pagamento. A tale ultimo riguardo, il Beneficiario dovrà, necessariamente e quale condizione del pagamento, caricare sul sistema di monitoraggio i dati relativi all'avanzamento procedurale, fisico e finanziario dell'intervento oggetto di richiesta di pagamento unitamente all'inoltro della Dichiarazione di Spesa/Domanda di rimborso al ROS, se pertinente, e dovrà fornire, in particolare, informazioni sui dati relativi ai progressi realizzati per il raggiungimento dei target degli indicatori previsti nel "Quadro di riferimento dell'efficacia dell'attuazione", se inerenti, **pena il mancato trasferimento di risorse in suo favore e l'inesigibilità delle stesse**.

Il ROS, inoltre, dovrà celermente procedere a inserire, nella Dichiarazione di Spesa di propria competenza, le spese rendicontate dal Beneficiario, al fine di garantirne la certificazione in tempi brevi. La dichiarazione di spesa/domanda di rimborso ai fini della sua ricevibilità dovrà contenere i dati relativi ai progressi realizzati per il raggiungimento dei target degli indicatori previsti dal Programma.

Articolo 6
Spese ammissibili

Le Parti si danno reciprocamente atto che le tipologie di spese ammissibili al finanziamento del FESR, che ricadono nell'ambito delle operazioni del Programma Regionale, sono quelle previste dall'art. 63 del Regolamento (UE) n.1060/2021nonché quelle previste dalla normativa nazionale vigente *ratione temporis*.

fonte: http://burc.regione.campania.it

Inoltre, si specifica che si ritengono ammissibili le spese effettuate dal 01/01/2021 al 31/12/2029.

Articolo 7
Verifiche e controlli

Il ROS svolge le verifiche ordinarie rientranti nell'attività di gestione e attuazione degli interventi che riguardano, dal punto di vista temporale, l'intero "ciclo di vita" dell'operazione.
In fase di realizzazione dell'operazione, le verifiche hanno ad oggetto la domanda di rimborso del Beneficiario e/o dell'operatore economico esecutore/fornitore e le rendicontazioni di spesa che la accompagnano e, in particolare, riguardano, a titolo esemplificativo:

- la correttezza formale delle domande di rimborso;
- il rispetto delle norme comunitarie e nazionali in materia di appalti pubblici e pubblicità;
- l'istruttoria svolta al fine di giustificare la scelta di affidare eventualmente ad una Società in house la prestazione di servizi specialistici;
- la sussistenza, la conformità e la regolarità del contratto/convenzione o altro documento negoziale e/odi pianificazione delle attività rispetto all'avanzamento delle attività e la relativa tempistica. Tale verifica può essere svolta sulla base di documenti descrittivi delle attività svolte, quali stati avanzamento lavori o relazioni delle attività svolte;
- nel caso di verifica di ritardi superiori a 6 mesi complessivi tra i vari step procedurali, fisici e/o di spesa indicati nei rispettivi cronoprogrammi, dovrà avviare un contraddittorio con il Beneficiario da concludersi entro 30 (trenta) giorni;
- qualora le giustificazioni e la documentazione trasmessa dal beneficiario in contradditorio non siano sufficienti a giustificare le cause del ritardo, avvierà il procedimento di revoca totale o parziale del finanziamento;
- la regolarità finanziaria della spesa sui documenti giustificativi presentati ovvero l'ammissibilità delle spese mediante verifica dei seguenti principali aspetti:
  - la completezza e la coerenza della documentazione giustificativa di spesa (comprendente almeno fatture quietanzate o documentazione contabile equivalente) ai sensi della normativa nazionale e comunitaria di riferimento, al PR FESR, al bando di selezione/bando di gara, al contratto/convenzione e a eventuali rinegoziazioni secondo buona fede delle condizioni contrattuali per il ripristino dell'originario equilibrio del contratto, modifiche e/o varianti intervenute in corso di esecuzione e debitamente approvate;
  - la conformità della documentazione giustificativa di spesa alla normativa civilistica e fiscale;
  - l'ammissibilità della spesa in quanto riferibile alle tipologie di spesa consentite congiuntamente dalla normativa comunitaria e nazionale di riferimento, dal bando di selezione/di gara, dal contratto/convenzione e da sue eventuali varianti;
  - l'eleggibilità della spesa, in quanto sostenuta nel periodo consentito dal Programma;
  - la riferibilità della spesa al Beneficiario dell'operatore economico esecutore/fornitore e all'operazione selezionata;
  - il rispetto dei limiti di spesa ammissibile a contributo previsti dalla normativa comunitaria e nazionale di riferimento, dal contratto/convenzione e da eventuali varianti; tale verifica deve essere riferita anche alle singole voci di spesa incluse nella rendicontazione sottoposta a controllo;
- il rispetto delle disposizioni previste per le modalità di erogazione del finanziamento; in relazione ai contratti, indipendentemente dall'esperimento o meno di una gara per l'affidamento di lavori, forniture e servizi, la normativa in vigore sulla tracciabilità dei flussi finanziari in applicazione del "*Piano finanziario contro le mafie, nonché delega al Governo in materia di normativa antimafia*" di cui alla Legge n. 136 del 13 agosto 2010 e s.m.i..

In fase di conclusione, le verifiche devono essere effettuate con riferimento ai seguenti aspetti:

fonte: http://burc.regione.campania.it

- l'avvenuta presentazione del rendiconto finale da parte del Beneficiario;
- la verifica della documentazione giustificativa di spesa residuale presentata secondo le modalità riportate precedentemente nella "fase di realizzazione";
- l'avvenuta presentazione della domanda di saldo da parte del Beneficiario;
- la determinazione dell'importo effettivamente riconosciuto e del relativo saldo.

A seguito della conclusione delle operazioni, per il caso di operazione che comporta investimenti in infrastrutture o investimenti produttivi, il ROS verificherà il rispetto della "stabilità delle operazioni" secondo quanto previsto all'art. 65 del Reg. (UE) n. 1060/2021.
Inoltre, al fine di individuare tempestivamente eventuali irregolarità e/o errori e/o difformità esecutive, il ROS può effettuare delle verifiche *in loco*, con lo scopo di:

- completare le verifiche eseguite a livello amministrativo;
- comunicare al Beneficiario di riferimento le dovute correzioni da apportare possibilmente mentre l'operazione è ancora in corso d'opera.

Qualora a seguito dei controlli svolti dalla Struttura Dirigenziale di Secondo Livello per i Controlli di I livello emergessero irregolarità/criticità sui progetti di propria competenza, il ROS potrà procedere ad acquisire dal Beneficiario dell'operazione eventuali controdeduzioni e/o documentazione integrativa utile a superare le criticità riscontrate.
Il Beneficiario è responsabile della corretta attuazione dell'operazione cofinanziata.
Il Beneficiario, inoltre, garantisce alle strutture competenti della Regione (Autorità di Gestione, Autorità di Certificazione, ROS, Autorità di Audit) e, se del caso, agli Organismi Intermedi, al Ministero dell'Economia e delle Finanze (IGRUE), ai Servizi ispettivi della Commissione, nonché a tutti gli organismi deputati allo svolgimento di controlli sull'utilizzo dei fondi comunitari, l'accesso a tutta la documentazione, amministrativa, tecnica e contabile, connessa all'operazione cofinanziata. Esso è tenuto, inoltre, a fornire agli esperti o organismi deputati alla valutazione interna o esterna del PR FESR tutti i documenti necessari alla valutazione del Programma.
Il Beneficiario è, infine, tenuto a prestare la massima collaborazione nelle attività svolte dai soggetti incaricati dei controlli fornendo tempestivamente le informazioni richieste e gli estratti o copie dei documenti o dei registri contabili.

Articolo 8
Recuperi

Ogni irregolarità, rilevata prima o dopo l'erogazione del contributo pubblico versato ai Beneficiari, dovrà essere immediatamente rettificata e gli importi eventualmente già corrisposti dovranno essere recuperati dal ROS in conformità con la normativa di riferimento, secondo i rispettivi ordinamenti.
Il ROS dovrà fornire tempestivamente all'AdG ogni informazione in merito agli importi recuperati, agli importi da recuperare e agli importi non recuperabili.

Articolo 9
Casi di revoca del finanziamento e risoluzione della Convenzione

Qualora l'attuazione dell'intervento dovesse procedere in sostanziale difformità dalle modalità, dai tempi, dai contenuti, dalle finalità e dagli obblighi sanciti e prescritti dalla normativa comunitaria e nazionale applicabile alla presente Convenzione, dal PR FESR 21/27, dal Manuale per l'Attuazione e dalla presente Convenzione, si procede alla risoluzione della Convenzione e alla contestuale revoca del finanziamento.

fonte: http://burc.regione.campania.it

Come previsto dall'articolo 5 della presente Convenzione, a seguito del riscontro di irregolarità e/o frodi oppure nel caso di ritardi superiori a 6 mesi complessivi tra i vari *step* procedurali, fisici e/o di spesa indicati nei rispettivi cronoprogrammi, il ROS è tenuto ad avviare un contraddittorio con il Beneficiario.

In tale circostanza, il beneficiario potrà fornire al ROS giustificati e documentati motivi comprovanti la legittimità della causa del ritardo unitamente ai cronoprogrammi aggiornati. Il ROS qualora ritenga che la documentazione trasmessa e le motivazioni fornite dal beneficiario siano esaustive a giustificare le cause del ritardo dovrà tempestivamente approvare - con proprio atto motivato - i nuovi cronoprogrammi che dovranno in ogni caso essere compatibili con le tempistiche previste dal PR FESR 21/27 evidenziando, altresì, eventuali impatti sul quadro economico dell'intervento. Qualora le giustificazioni e la documentazione trasmessa dal beneficiario in contradditorio non siano sufficienti a giustificare le cause del ritardo, avvierà il procedimento di revoca totale o parziale del finanziamento.

La revoca del finanziamento comporterà l'obbligo da parte del beneficiario di restituire le somme indebitamente ricevute maggiorate degli interessi legali maturati medio tempore, secondo le indicazioni dettate dal ROS in ossequio alla normativa comunitaria e nazionale vigente in materia.

Per il beneficiario Ente Pubblico, la restituzione delle somme indebitamente ricevute potrà avvenire anche attraverso la compensazione del credito vantato dalla Regione Campania (pari all'importo delle liquidazioni erogate al beneficiario fino a quella data) con ogni eventuale altro credito vantato dal beneficiario nei confronti della stessa, ai sensi degli artt. 1241, 1242 e 1252 codice civile. I crediti della Regione nascenti dal recupero delle somme indebitamente percepite dal beneficiario e oggetto di revoca sono assistiti da privilegio speciale sui beni immobili realizzati con le risorse regionali, con preferenza sui creditori ipotecari ai sensi dell'art. 2748 codice civile e prevalenza su ogni titolo di prelazione da qualsiasi causa derivante.

Il processo descritto dovrà concludersi entro 30 (trenta) giorni dalla data di avvio del contraddittorio con il beneficiario.

Nel caso in cui il ROS decida di rimborsare, in favore del Beneficiario, fatture non pagate (anche in sede di erogazione del saldo) la mancata presentazione delle quietanze entro il termine massimo di 80 giorni ovvero entro l'inferiore termine stabilito con atto amministrativo dal ROS costituisce, altresì, motivo di revoca del finanziamento.

La risoluzione della Convenzione e la revoca totale e/o parziale del contributo comporterà l'obbligo per il Beneficiario di restituire le somme indebitamente ricevute maggiorate degli interessi legali maturati *medio tempore.*

Per il caso di Beneficiario **Ente pubblico**, come indicato al precedente articolo 5, la restituzione delle somme indebitamente ricevute potrà avvenire anche attraverso la compensazione del credito vantato dalla Regione Campania (pari all'importo delle liquidazioni erogate al Beneficiario fino a quella data) con ogni eventuale altro credito vantato dal Beneficiario nei confronti della stessa, ai sensi degli artt. 1241, 1242 e 1252 codice civile.
Le parti convengono, ai sensi dell'art. 2745 codice civile, che i crediti della Regione nascenti dal recupero delle somme indebitamente percepite dal Beneficiario e oggetto di revoca sono assistiti da privilegio speciale sui beni immobili realizzati con le risorse regionali, con preferenza sui creditori ipotecari ai sensi dell'art. 2748 codice civile e prevalenza su ogni titolo di prelazione da qualsiasi causa derivante.

In caso di accertata violazione di tale obbligo, il ROS dispone la revoca integrale del finanziamento e la risoluzione della presente Convenzione ai sensi del precedente articolo 9.

Articolo 11

Il Beneficiario dovrà inserire nel contratto di affidamento dell'intervento una clausola che esplicitamente esoneri la Regione da qualsiasi rapporto di debito o di responsabilità diretta nei confronti dell'operatore economico affidatario dell'esecuzione dell'intervento finanziato con la presente Convenzione.

Il Beneficiario è responsabile in via esclusiva di qualsiasi danno che i terzi subiscano, direttamente e/o indirettamente, in dipendenza dell'esecuzione dell'intervento e delle attività connesse e non potrà, quindi, pretendere di rivalersi nei confronti della Regione che rimarrà estranea a ogni tipo di contenzioso, stragiudiziale e/o giudiziale.

a) che non sussistono relazioni di parentela, affinità, o situazioni di convivenza o frequentazione abituale tra i titolari, gli amministratori, i soci e i dipendenti del Beneficiario e gli amministratori, i dirigenti e i dipendenti della Regione;

I contratti conclusi e gli incarichi conferiti in violazione di tale clausola sono nulli e comportano il divieto, al Beneficiario che li ha conclusi o conferiti, di contrattare con le Pubbliche Amministrazioni per i successivi tre anni, con l'obbligo di restituzione dei compensi eventualmente percepiti e accertati a essi riferiti, fatta salva, in ogni caso, la facoltà della Regione di richiedere, ai sensi di legge, il risarcimento di ogni eventuale danno subito.

Articolo 5
Condizioni di erogazione del finanziamento

Con riferimento alle modalità di erogazione del finanziamento, il ROS emette e notifica al Beneficiario il Decreto di ammissione a finanziamento. A seguito della stipula della Convenzione, il ROS emette il decreto di impegno contabile in conformità alle vigenti norme in materia di contabilità pubblica ed in particolare nel rispetto del principio della competenza finanziaria potenziata e liquida al Beneficiario l'anticipazione del **10%** del costo dell'intervento ammesso a finanziamento per consentirgli di avviare tempestivamente le procedure di gara. Tale anticipazione è subordinata:

- alla sottoscrizione della presente Convenzione alla quale devono essere allegati i cronoprogrammi, procedurale e di spesa, relativi all'operazione ammessa a finanziamento;
- alla comunicazione del CUP (Codice Unico di Progetto);
- alla comunicazione delle coordinate bancarie del conto corrente dedicato, nei casi previsti per legge così come previsto dal Manuale di Attuazione.

L'importo del Decreto di ammissione a finanziamento può essere revocato nella sua totalità o ridotto dal ROS a seguito del riscontro di irregolarità/frodi e/o nei casi in cui non siano rispettate le tempistiche previste per l'espletamento dei vari *step* procedurali indicati dal Beneficiario nel cronoprogramma e attinenti le diverse fasi dell'operazione cofinanziata: dalle procedure di gara, all'esecuzione del contratto, fino al collaudo e messa in esercizio dell'opera, in caso di lavori, ovvero alla verifica di conformità per i servizi e per le forniture.

In tal caso è previsto, inoltre, nei confronti del Beneficiario Ente pubblico, l'obbligo di restituire le somme indebitamente ricevute, secondo le indicazioni e modalità dettate dal ROS in ossequio alla normativa comunitaria e nazionale vigente in materia, anche attraverso la compensazione del credito vantato dalla Regione Campania (pari all'importo delle liquidazioni erogate al Beneficiario fino a quella data) con ogni

eventuale altro credito vantato dal Beneficiario nei confronti della stessa, ai sensi degli artt. 1241, 1242 e 1252 codice civile.

In seguito all'aggiudicazione dei lavori o della fornitura di beni/servizi, il RUP trasmette al ROS/RLA la richiesta di un'ulteriore anticipazione **nella misura del 10%** del costo dell'intervento ammesso a finanziamento e rimodulato a seguito dell'espletamento della procedura ad evidenza pubblica.

Tale anticipazione sommata a quella erogata a seguito dell'ammissione a finanziamento del progetto, non deve superare la misura del **20%** del costo dell'intervento ammesso a finanziamento, come rimodulato a seguito dell'espletamento della procedura ad evidenza pubblica.

Tale richiesta dovrà essere corredata dalla documentazione prevista dal Manuale di Attuazione.

Per i progetti il cui valore è inferiore o pari a 5Mln/€, le successive tre liquidazioni, saranno, di norma, pari rispettivamente a:

- **30%** del costo ammesso a finanziamento e rimodulato a seguito dell'espletamento della gara d'appalto;
- **30%** del costo ammesso a finanziamento e rimodulato a seguito dell'espletamento della gara d'appalto;
- **10%** del costo ammesso a finanziamento e rimodulato a seguito dell'espletamento della gara d'appalto.

Tali erogazioni saranno concesse a seguito della rendicontazione delle spese da parte del Beneficiario di almeno **il 95% dell'importo complessivo ricevuto fino a quel momento**. Le spese dovranno essere comprovate dalla documentazione prevista nel Manuale di Attuazione.

Il saldo finale, pari **al valore delle spese ancora da sostenere**, potrà essere richiesto dal Beneficiario solo dopo aver rendicontato, con fatture quietanzate, il 100% degli acconti ricevuti. La richiesta dovrà essere corredata dalla documentazione attestante la fine di tutti i lavori o del servizio/fornitura prevista nel Manuale di Attuazione.

Con riferimento all'erogazione delle risorse, il Beneficiario dovrà ricevere l'importo totale della spesa pubblica ammissibile **entro 80 giorni** dalla data di presentazione della richiesta di pagamento. A tale ultimo riguardo, il Beneficiario dovrà, necessariamente e quale condizione del pagamento, caricare sul sistema di monitoraggio i dati relativi all'avanzamento procedurale, fisico e finanziario dell'intervento oggetto di richiesta di pagamento unitamente all'inoltro della Dichiarazione di Spesa/Domanda di rimborso al ROS, se pertinente, e dovrà fornire, in particolare, informazioni sui dati relativi ai progressi realizzati per il raggiungimento dei target degli indicatori previsti nel "Quadro di riferimento dell'efficacia dell'attuazione", se inerenti, **pena il mancato trasferimento di risorse in suo favore e l'inesigibilità delle stesse**.

Il ROS, inoltre, dovrà celermente procedere a inserire, nella Dichiarazione di Spesa di propria competenza, le spese rendicontate dal Beneficiario, al fine di garantirne la certificazione in tempi brevi. La dichiarazione di spesa/domanda di rimborso ai fini della sua ricevibilità dovrà contenere i dati relativi ai progressi realizzati per il raggiungimento dei target degli indicatori previsti dal Programma.

fonte: http://burc.regione.campania.it

Le Parti si danno reciprocamente atto che le tipologie di spese ammissibili al finanziamento del FESR, che ricadono nell'ambito delle operazioni del Programma Regionale, sono quelle previste dall'art. 63 del Regolamento (UE) n.1060/2021nonché quelle previste dalla normativa nazionale vigente *ratione temporis*.

Inoltre, si specifica che si ritengono ammissibili le spese effettuate dal 01/01/2021 al 31/12/2029.

Articolo 7
Verifiche e controlli

Il ROS svolge le verifiche ordinarie rientranti nell'attività di gestione e attuazione degli interventi che riguardano, dal punto di vista temporale, l'intero "ciclo di vita" dell'operazione.
In fase di realizzazione dell'operazione, le verifiche hanno ad oggetto la domanda di rimborso del Beneficiario e/o dell'operatore economico esecutore/fornitore e le rendicontazioni di spesa che la accompagnano e, in particolare, riguardano, a titolo esemplificativo:

- la correttezza formale delle domande di rimborso;
- il rispetto delle norme comunitarie e nazionali in materia di appalti pubblici e pubblicità;
- l'istruttoria svolta al fine di giustificare la scelta di affidare eventualmente ad una Società in house la prestazione di servizi specialistici;
- la sussistenza, la conformità e la regolarità del contratto/convenzione o altro documento negoziale e/odi pianificazione delle attività rispetto all'avanzamento delle attività e la relativa tempistica. Tale verifica può essere svolta sulla base di documenti descrittivi delle attività svolte, quali stati avanzamento lavori o relazioni delle attività svolte;
- nel caso di verifica di ritardi superiori a 6 mesi complessivi tra i vari step procedurali, fisici e/o di spesa indicati nei rispettivi cronoprogrammi, dovrà avviare un contraddittorio con il Beneficiario da concludersi entro 30 (trenta) giorni;
- qualora le giustificazioni e la documentazione trasmessa dal beneficiario in contradditorio non siano sufficienti a giustificare le cause del ritardo, avvierà il procedimento di revoca totale o parziale del finanziamento;
- la regolarità finanziaria della spesa sui documenti giustificativi presentati ovvero l'ammissibilità delle spese mediante verifica dei seguenti principali aspetti:
  - la completezza e la coerenza della documentazione giustificativa di spesa (comprendente almeno fatture quietanzate o documentazione contabile equivalente) ai sensi della normativa nazionale e comunitaria di riferimento, al PR FESR, al bando di selezione/bando di gara, al contratto/convenzione e a eventuali rinegoziazioni secondo buona fede delle condizioni contrattuali per il ripristino dell'originario equilibrio del contratto, modifiche e/o varianti intervenute in corso di esecuzione e debitamente approvate;
  - la conformità della documentazione giustificativa di spesa alla normativa civilistica e fiscale;
  - l'ammissibilità della spesa in quanto riferibile alle tipologie di spesa consentite congiuntamente dalla normativa comunitaria e nazionale di riferimento, dal bando di selezione/di gara, dal contratto/convenzione e da sue eventuali varianti;
  - l'eleggibilità della spesa, in quanto sostenuta nel periodo consentito dal Programma;
  - la riferibilità della spesa al Beneficiario dell'operatore economico esecutore/fornitore e all'operazione selezionata;
  - il rispetto dei limiti di spesa ammissibile a contributo previsti dalla normativa comunitaria e nazionale di riferimento, dal contratto/convenzione e da eventuali varianti; tale verifica deve essere riferita anche alle singole voci di spesa incluse nella rendicontazione sottoposta a controllo;
- il rispetto delle disposizioni previste per le modalità di erogazione del finanziamento; in relazione ai contratti, indipendentemente dall'esperimento o meno di una gara per l'affidamento di lavori, forniture e servizi, la normativa in vigore sulla tracciabilità dei flussi finanziari in applicazione del "*Piano finanziario*

contro le mafie, nonché delega al Governo in materia di normativa antimafia" di cui alla Legge n. 136 del 13 agosto 2010 e s.m.i..

In fase di conclusione, le verifiche devono essere effettuate con riferimento ai seguenti aspetti:

- l'avvenuta presentazione del rendiconto finale da parte del Beneficiario;
- la verifica della documentazione giustificativa di spesa residuale presentata secondo le modalità riportate precedentemente nella "fase di realizzazione";
- l'avvenuta presentazione della domanda di saldo da parte del Beneficiario;
- la determinazione dell'importo effettivamente riconosciuto e del relativo saldo.

A seguito della conclusione delle operazioni, per il caso di operazione che comporta investimenti in infrastrutture o investimenti produttivi, il ROS verificherà il rispetto della "stabilità delle operazioni" secondo quanto previsto all'art. 65 del Reg. (UE) n. 1060/2021.
Inoltre, al fine di individuare tempestivamente eventuali irregolarità e/o errori e/o difformità esecutive, il ROS può effettuare delle verifiche *in loco*, con lo scopo di:

- completare le verifiche eseguite a livello amministrativo;
- comunicare al Beneficiario di riferimento le dovute correzioni da apportare possibilmente mentre l'operazione è ancora in corso d'opera.

Qualora a seguito dei controlli svolti dalla Struttura Dirigenziale di Secondo Livello per i Controlli di I livello emergessero irregolarità/criticità sui progetti di propria competenza, il ROS potrà procedere ad acquisire dal Beneficiario dell'operazione eventuali controdeduzioni e/o documentazione integrativa utile a superare le criticità riscontrate.
Il Beneficiario è responsabile della corretta attuazione dell'operazione cofinanziata.
Il Beneficiario, inoltre, garantisce alle strutture competenti della Regione (Autorità di Gestione, Autorità di Certificazione, ROS, Autorità di Audit) e, se del caso, agli Organismi Intermedi, al Ministero dell'Economia e delle Finanze (IGRUE), ai Servizi ispettivi della Commissione, nonché a tutti gli organismi deputati allo svolgimento di controlli sull'utilizzo dei fondi comunitari, l'accesso a tutta la documentazione, amministrativa, tecnica e contabile, connessa all'operazione cofinanziata. Esso è tenuto, inoltre, a fornire agli esperti o organismi deputati alla valutazione interna o esterna del PR FESR tutti i documenti necessari alla valutazione del Programma.
Il Beneficiario è, infine, tenuto a prestare la massima collaborazione nelle attività svolte dai soggetti incaricati dei controlli fornendo tempestivamente le informazioni richieste e gli estratti o copie dei documenti o dei registri contabili.

Il ROS dovrà fornire tempestivamente all'AdG ogni informazione in merito agli importi recuperati, agli importi da recuperare e agli importi non recuperabili.

Articolo 9
Casi di revoca del finanziamento e risoluzione della Convenzione

fonte: http://burc.regione.campania.it

Qualora l'attuazione dell'intervento dovesse procedere in sostanziale difformità dalle modalità, dai tempi, dai contenuti, dalle finalità e dagli obblighi sanciti e prescritti dalla normativa comunitaria e nazionale applicabile alla presente Convenzione, dal PR FESR 21/27, dal Manuale per l'Attuazione e dalla presente Convenzione, si procede alla risoluzione della Convenzione e alla contestuale revoca del finanziamento.

Come previsto dall'articolo 5 della presente Convenzione, a seguito del riscontro di irregolarità e/o frodi oppure nel caso di ritardi superiori a 6 mesi complessivi tra i vari *step* procedurali, fisici e/o di spesa indicati nei rispettivi cronoprogrammi, il ROS è tenuto ad avviare un contraddittorio con il Beneficiario.

In tale circostanza, il beneficiario potrà fornire al ROS giustificati e documentati motivi comprovanti la legittimità della causa del ritardo unitamente ai cronoprogrammi aggiornati. Il ROS qualora ritenga che la documentazione trasmessa e le motivazioni fornite dal beneficiario siano esaustive a giustificare le cause del ritardo dovrà tempestivamente approvare - con proprio atto motivato - i nuovi cronoprogrammi che dovranno in ogni caso essere compatibili con le tempistiche previste dal PR FESR 21/27 evidenziando, altresì, eventuali impatti sul quadro economico dell'intervento. Qualora le giustificazioni e la documentazione trasmessa dal beneficiario in contradditorio non siano sufficienti a giustificare le cause del ritardo, avvierà il procedimento di revoca totale o parziale del finanziamento.

La revoca del finanziamento comporterà l'obbligo da parte del beneficiario di restituire le somme indebitamente ricevute maggiorate degli interessi legali maturati medio tempore, secondo le indicazioni dettate dal ROS in ossequio alla normativa comunitaria e nazionale vigente in materia.

Per il beneficiario Ente Pubblico, la restituzione delle somme indebitamente ricevute potrà avvenire anche attraverso la compensazione del credito vantato dalla Regione Campania (pari all'importo delle liquidazioni erogate al beneficiario fino a quella data) con ogni eventuale altro credito vantato dal beneficiario nei confronti della stessa, ai sensi degli artt. 1241, 1242 e 1252 codice civile. I crediti della Regione nascenti dal recupero delle somme indebitamente percepite dal beneficiario e oggetto di revoca sono assistiti da privilegio speciale sui beni immobili realizzati con le risorse regionali, con preferenza sui creditori ipotecari ai sensi dell'art. 2748 codice civile e prevalenza su ogni titolo di prelazione da qualsiasi causa derivante.

Il processo descritto dovrà concludersi entro 30 (trenta) giorni dalla data di avvio del contraddittorio con il beneficiario.

Nel caso in cui il ROS decida di rimborsare, in favore del Beneficiario, fatture non pagate (anche in sede di erogazione del saldo) la mancata presentazione delle quietanze entro il termine massimo di 80 giorni ovvero entro l'inferiore termine stabilito con atto amministrativo dal ROS costituisce, altresì, motivo di revoca del finanziamento.

La risoluzione della Convenzione e la revoca totale e/o parziale del contributo comporterà l'obbligo per il Beneficiario di restituire le somme indebitamente ricevute maggiorate degli interessi legali maturati *medio tempore.*

Per il caso di Beneficiario **Ente pubblico**, come indicato al precedente articolo 5, la restituzione delle somme indebitamente ricevute potrà avvenire anche attraverso la compensazione del credito vantato dalla Regione Campania (pari all'importo delle liquidazioni erogate al Beneficiario fino a quella data) con ogni eventuale altro credito vantato dal Beneficiario nei confronti della stessa, ai sensi degli artt. 1241, 1242 e 1252 codice civile.

fonte: http://burc.regione.campania.it

Le parti convengono, ai sensi dell'art. 2745 codice civile, che i crediti della Regione nascenti dal recupero delle somme indebitamente percepite dal Beneficiario e oggetto di revoca sono assistiti da privilegio speciale sui beni immobili realizzati con le risorse regionali, con preferenza sui creditori ipotecari ai sensi dell'art. 2748 codice civile e prevalenza su ogni titolo di prelazione da qualsiasi causa derivante.

Articolo 10
Divieto di cumulo

Il Beneficiario dichiara di non percepire contributi, finanziamenti, o altre sovvenzioni, comunque denominati, da organismi pubblici per l'operazione oggetto della presente Convenzione.
In caso di accertata violazione di tale obbligo, il ROS dispone la revoca integrale del finanziamento e la risoluzione della presente Convenzione ai sensi del precedente articolo 9.

Articolo 11
Clausola di manleva

Il Beneficiario dovrà inserire nel contratto di affidamento dell'intervento una clausola che esplicitamente esoneri la Regione da qualsiasi rapporto di debito o di responsabilità diretta nei confronti dell'operatore economico affidatario dell'esecuzione dell'intervento finanziato con la presente Convenzione.

Il Beneficiario è responsabile in via esclusiva di qualsiasi danno che i terzi subiscano, direttamente e/o indirettamente, in dipendenza dell'esecuzione dell'intervento e delle attività connesse e non potrà, quindi, pretendere di rivalersi nei confronti della Regione che rimarrà estranea a ogni tipo di contenzioso, stragiudiziale e/o giudiziale.

Articolo 12
Tutela della privacy

Il Beneficiario si obbliga ad osservare le disposizioni in materia di trattamento dei dati e di tutela della riservatezza nei confronti delle notizie di qualsiasi natura comunque acquisite nello svolgimento delle attività oggetto della presente Convenzione.

Articolo 13
Clausola anti-pantouflage

In relazione alle previsioni di cui all'art. 1, comma 9, lett. e), della Legge n. 190/2012, e dell'art. 53, comma 16-*ter*, del D.Lgs. n. 165/2001, il Beneficiario dichiara e attesta con la sottoscrizione della presente Convenzione:

a) che non sussistono relazioni di parentela, affinità, o situazioni di convivenza o frequentazione abituale tra i titolari, gli amministratori, i soci e i dipendenti del Beneficiario e gli amministratori, i dirigenti e i dipendenti della Regione;
b) di non aver concluso contratti di lavoro subordinato o autonomo con ex dipendenti della Regione, che hanno esercitato poteri autorizzativi o negoziali per conto della medesima, per il triennio successivo alla cessazione del loro rapporto di lavoro, né di aver attribuito loro incarichi a qualsiasi titolo.

fonte: http://burc.regione.campania.it

I contratti conclusi e gli incarichi conferiti in violazione di tale clausola sono nulli e comportano il divieto, al Beneficiario che li ha conclusi o conferiti, di contrattare con le Pubbliche Amministrazioni per i successivi tre anni, con l'obbligo di restituzione dei compensi eventualmente percepiti e accertati a essi riferiti, fatta salva, in ogni caso, la facoltà della Regione di richiedere, ai sensi di legge, il risarcimento di ogni eventuale danno subito.

Articolo 14
Modifiche e durata della Convenzione

La presente Convenzione entra in vigore dalla data di relativa sottoscrizione di ambo le Parti ed è efficace fino al compimento delle attività in essa previste e, in ogni caso fino al 31/12/2029, data ultima di ammissibilità della spesa (art. 63 Reg. (UE) n. 1060/2021). Il Beneficiario si obbliga, comunque, a garantire, anche oltre tale data, e con la richiesta tempestività i necessari adempimenti relativi alle attività di chiusura della Programmazione fino all'esaurimento di tutti gli effetti giuridici ed economici relativi al Programma Regionale FESR 2021-2027.
Eventuali modifiche e/o integrazioni alla presente Convenzione sono apportate con atto scritto.

Articolo 15

Il Foro competente per la risoluzione di eventuali controversie derivanti dall'applicazione ed esecuzione della presente Convenzione, nonché di tutte le controversie derivanti dagli atti contrattuali e negoziali presupposti e connessi, è esclusivamente quello di Napoli, con espressa deroga a ogni e qualsiasi altro Foro concorrente o alternativo individuato in base ai criteri fissati agli artt. 18 e segg. c.p.c.
Rimane espressamente esclusa dalle Parti la compromissione in arbitri.

Articolo 16
Imposte e tasse

Tutte le imposte e tasse relative alla presente Convenzione, anche se sopravvenute successivamente alla sottoscrizione della stessa, compresa la sua registrazione, restano a esclusivo carico del Beneficiario.

Art. 17

Con tale progetto si realizzerà la ristrutturazione di un edificio per la creazione di un Mind Village dedicato ad ospitare personalità istituzionali, scientifiche, politiche per corsi universitari e convegni internazionali all'insegna della qualità del trasferimento della cultura universitaria. Tale trasformazione certamente rientra in un'ottica di completamento e miglioramento del servizio di divulgazione culturale proposto dall'Università degli Studi di Napoli Federico II, già avviata con grande riscontro positivo sul territorio con la messa in esercizio dei primi moduli del complesso "San Giovanni", pertanto uno degli obiettivi principali che si pone il progetto de quo è quello di soddisfare al meglio i fabbisogni della collettività e dell'utenza specifica. L'edificio ospiterà al piano terra ambienti destinati ad uffici, una sala conferenze e servizi igienici. Al piano primo e secondo saranno ubicati alloggi con i relativi servizi igienici. Per questo edificio il progetto conserva le funzioni residenziali. Le tipologie di alloggio, ad uso foresteria, sono funzionali a prevedere la presenza di ospiti singoli, o di ricercatori con famiglia, articolandosi su una pezzatura variabile, con superfici non inferiore ai 28 mq. Ogni alloggio è dotato di propri servizi igienico-sanitari

L.R. n. 3/2022 art. 7 comma 1bis. Adeguamento inflattivo delle tariffe di viaggio dei servizi TPL marittimi.

IL DIRIGENTE

IL DIRIGENTE

PREMESSO che

a. nell'ambito delle azioni tese all'efficientamento del sistema pubblico locale assume particolare rilievo l'aspetto relativo alla politica tariffaria, sia sotto il profilo del conseguimento degli obiettivi di incremento ricavi/costi posti dalla legge nazionale, sia sotto l'aspetto della accessibilità e non discriminazione dei servizi;
b. in particolare, gli interventi in materia di politica tariffaria devono mirare al conseguimento degli obiettivi posti dal DPCM 11 marzo 2013, emanato ai sensi dell'art. 16 bis del decreto-legge 6 luglio 2012, n. 95, convertito con modificazioni dalla legge 7 agosto 2012, n. 135;
c. in detto contesto normativo, l'art. 7 della Legge regionale n. 3 del 28 marzo 2002 attribuisce alla Regione, tra l'altro, il compito di determinare i criteri che regolano il sistema tariffario del trasporto pubblico regionale e locale, di definire la politica tariffaria e le sue modalità di applicazione, nonché le diverse tipologie di titoli di viaggio e i corrispondenti livelli tariffari;
d. il comma 1 bis del citato art. 7 demanda alla struttura amministrativa competente in materia di mobilità della Giunta regionale, sulla base dei criteri e della politica tariffaria regionale, l'adozione degli adeguamenti tariffari necessari per tener conto, tra l'altro, degli adeguamenti inflattivi, con il supporto di ACaMIR e sentito il Comitato di indirizzo e monitoraggio di cui all'articolo 1, comma 90, della Legge regionale 6 maggio 2013, n. 5;

PREMESSO, altresì, che

a. in attuazione dei compiti di cui ai punti che precedono, con delibere n. 183 del 29.4.2011 e n. 67 del 7.3.2013, la Giunta regionale ha provveduto all'approvazione dei piani tariffari dei servizi marittimi di interesse regionale;
b. con decreto dirigenziale n. 74 del 8.5.2017 sono stati adottati, sulla base del documento predisposto da ACaMIR e previo "sentito" del Comitato di indirizzo e monitoraggio TPL, adeguamenti tariffari dei titoli ordinari di viaggio dei servizi di trasporto pubblico locale marittimo;
c. con decreti dirigenziali n. 54 del 13.5.2022 e n. 102 del 23.6.2026 sono stati adottati, sulla base del documento predisposto da ACaMIR e previo "sentito" del Comitato di indirizzo e monitoraggio TPL, ulteriori adeguamenti tariffari dei titoli ordinari di viaggio riferiti ai servizi di trasporto pubblico locale marittimo;

RILEVATO che

a. sono pervenute da parte degli operatori del settore marittimo, nonché da parte delle associazioni di categoria delle imprese di trasporto marittimo, richieste di aggiornamento inflattivo tariffario motivate sia dal tempo trascorso dall'ultimo adeguamento, sia dalla necessità di far fronte all'incremento subito dai costi di esercizio, tra i quali, negli ultimi anni, soprattutto quello del carburante e dell'energia, a causa della particolare situazione internazionale;
b. con nota prot. n. 352321 del 13.4.2026 è stata chiesta ad ACaMIR la formulazione di una proposta complessiva di adeguamento tariffario, allo scopo di consentire di avviare le successive interlocuzioni con i soggetti istituzionali;
c. con nota prot. 2550 del 18.6.2026 è stato trasmesso da ACaMIR il documento "Proposta di adeguamento inflattivo dei titoli di viaggio relativi ai servizi marittimi", che tiene conto dell'andamento inflattivo riscontrato nel periodo aprile 2023 - maggio 2026, nonché degli arrotondamenti, al fine di semplificare la gestione aziendale delle vendite;
d. nel corso della seduta del 18 giugno 2026 è stato sentito il Comitato in ordine al documento di ACaMIR avente ad oggetto l'adeguamento inflattivo dei titoli di viaggio relativi ai servizi marittimi, che riconosce un incremento ISTAT del 5,8% sui titoli di viaggio di corsa semplice e sui titoli orari, lasciando invariato il costo

degli abbonamenti mensili e annuali, al fine di non gravare sugli utenti fidelizzati, e il costo dei biglietti agevolati per i residenti delle isole;

e. con delibera n. 346 del 30.6.2026, tra l'altro, la Giunta regionale ha demandato alla Direzione Generale per la Mobilità, con il supporto tecnico dell'ACAMIR, l'adozione dei provvedimenti necessari a dare attuazione a quanto rappresentato in sede di Comitato di indirizzo e monitoraggio del 18 giugno 2026 in ordine alla proposta di adeguamento inflattivo attualizzato dei titoli ordinari di viaggio di Trasporto Pubblico Locale su ferro, gomma e mare;

CAPO I

DISPOSIZIONI GENERALI

Articolo 1 – Premessa

Il presente Regolamento garantisce che il trattamento dei dati personali, effettuato mediante l'attivazione di sistemi di videosorveglianza gestiti dalla Regione Campania - Direzione Generale Mobilità - Settore Servizi di Trasporto Pubblico Locale via Mare e Interventi connessi alle Infrastrutture Portuali e Aeroportuali. Società, Enti e Organismi di Riferimento della Direzione Generale - Unità Operativa Semplice Infrastrutture Portuali, Aeroportuali e Demanio Marittimo Portuale ed impiegati dall'Autorità Marittima del Porto di Maiori, si svolga nel rispetto dei diritti, delle libertà fondamentali, nonché della dignità delle persone fisiche, con particolare riferimento alla riservatezza e all'identità personale. Garantisce altresì i diritti delle persone giuridiche e di ogni altro Ente o associazione coinvolti nel trattamento.

Inoltre, nel rispetto del Provvedimento Generale emesso in data 8 aprile 2010 dal Garante della Privacy in cui viene stabilito che la raccolta, la registrazione, la conservazione e, in generale, l'utilizzo di immagini configurano un trattamento di dati personali, il presente Regolamento descrive un Sistema di Gestione della Sicurezza delle Informazioni idoneo a ridurre al minimo i rischi di distruzione, di perdita, anche accidentale, di accesso non autorizzato, di trattamento non consentito o non conforme alle finalità della raccolta, anche in relazione alla trasmissione delle immagini secondo quanto previsto dalla normativa dell'Unione Europea entrata in vigore nel 2018 - GDPR (Regolamento Generale sulla Protezione dei Dati). A tale scopo, quindi, verranno descritte le specifiche misure tecniche adottate ed i provvedimenti organizzativi che consentano al titolare dei dati di verificare l'attività espletata da parte di chi accede alle immagini o controlla i sistemi di ripresa.

Articolo 2 - Principi generali

La Regione Campania ha realizzato e gestisce un sistema di videosorveglianza composto da telecamere di contesto e telecamere dedicate, con l'obiettivo di migliorare le condizioni di sicurezza dell'area portuale di Maiori, assicurando un controllo sempre più puntuale ed efficace del territorio.

L'architettura dell'impianto è installata presso l'area portuale, mentre le immagini raccolte sono trasmesse in tempo reale alla sala di controllo dell'Ufficio Locale Marittimo del Porto di Maiori.

Il presente atto intende definire le modalità operative per la gestione e l'impiego del suddetto sistema di videosorveglianza da parte dell'Ente gestore, al fine di:

fonte: http://burc.regione.campania.it

- Rafforzare le attività di controllo del territorio portuale;
- Migliorare i livelli di **safety** (sicurezza operativa) e **security** (sicurezza pubblica);
- Tutelare il patrimonio pubblico e la sicurezza delle persone che transitano nell'area, incluso lo specchio acqueo del porto.

L'attività di controllo richiede una risposta concreta e coordinata, basata sulla sinergia tra le diverse istituzioni coinvolte (Regione Campania e Autorità Marittima), nel rispetto dei rispettivi ruoli e delle competenze attribuite dalla normativa vigente.

La cooperazione tra le Parti rappresenta un elemento fondamentale per rispondere alla crescente domanda di sicurezza integrata. In tale contesto, il sistema di videosorveglianza costituisce uno strumento strategico per monitorare situazioni emergenziali o condizioni che richiedano l'intervento delle autorità competenti.

Il sistema è progettato per garantire l'archiviazione delle immagini per un periodo di tempo idoneo a consentire l'attivazione delle opportune misure da parte degli Enti interessati.

Il trattamento delle immagini acquisite tramite telecamere costituisce trattamento di "dati personali", in quanto le immagini possono rendere identificabili persone fisiche, e pertanto è soggetto ai principi del Regolamento (UE) 2016/679 (GDPR) e del D.Lgs. 30 giugno 2003, n. 196 (Codice Privacy), come modificato dal D.Lgs. 10 agosto 2018, n. 101.

Ai sensi del D.Lgs. 14 novembre 2009, n. 150 (attuazione della Direttiva 2008/ 114/CE) e successive norme, gli enti pubblici possono installare sistemi di videosorveglianza per finalità di tutela della sicurezza pubblica e dell'ordine pubblico in luoghi pubblici o aperti al pubblico.

Il Provvedimento del Garante per la privacy dell'8 aprile 2010 reca le regole specifiche per i sistemi di videosorveglianza, stabilendo fra l'altro che la conservazione delle immagini deve essere limitata al "tempo strettamente necessario" e che, in assenza di motivazioni specifiche, il termine ordinario è 24 ore (fatta eccezione per casi particolari fino a 7 giorni).

In materia di sicurezza urbana, la Direttiva (UE) 2016/680 (indagini penali e di polizia) recepita con il D.Lgs. 11 aprile 2018, n. 51 consente, in determinate condizioni, deroghe ai principi generali del GDPR per trattamenti finalizzati ad attività investigative.

I principi generali da rispettare sono quelli di liceità, correttezza, trasparenza, finalità, minimizzazione, esattezza, limitazione della conservazione e integrità/confidenzialità, come previsto dai (artt. 5 e 32 del GDPR).

Articolo 4 - Ambito di applicazione

Il presente Regolamento disciplina le modalità di raccolta, trattamento e conservazione di dati personali mediante sistemi di videosorveglianza attivati nell'ambito portuale gestita dalla Regione Campania e collegati alla Sala Operativa dell'Autorità Marittima, definendone il perimetro esclusivamente nel raggio di azione del sistema di videosorveglianza, ovvero l'area portuale di Maiori in cui sono posizionate le telecamere. Il presente regolamento non si applica ai trattamenti di dati personali effettuati dalle Forze di Polizia competenti ai fini di prevenzione, indagine, accertamento o perseguimento di reati o esecuzione di sanzioni penali, incluse la salvaguardia contro minacce alla sicurezza pubblica e la prevenzione delle stesse.

Art. 5 – Principi generali

Le finalità perseguite mediante l'attivazione e l'utilizzo dell'impianto di videosorveglianza sono coerenti con le funzioni istituzionali della Regione Campania, in particolare con riferimento alla sicurezza negli accosti delle navi alle banchine, nonché alla prevenzione e gestione di eventi che possano compromettere

l'incolumità pubblica e la tutela del patrimonio demaniale e si fondano sui principi di liceità, necessità, proporzionalità, finalità, riservatezza e responsabilizzazione.

1. **Principio di liceità**

   In ossequio al principio di liceità, la Regione Campania utilizza sistemi di videosorveglianza esclusivamente per l'espletamento delle proprie funzioni istituzionali e in conformità alle normative in materia di sicurezza e security portuale. Il trattamento dei dati personali da parte di soggetti pubblici è lecito qualora necessario per l'esecuzione di compiti di interesse pubblico o connessi all'esercizio di pubblici poteri, ai sensi dell'art. 5, par. 1, lett. a), e dell'art. 6, par. 1, lett. e), del RGPD. Pertanto, la videosorveglianza nell'ambito portuale è consentita **senza necessità di acquisire il consenso** degli interessati.

2. **Principio di necessità (minimizzazione dei dati)**

   In applicazione del principio di necessità, e nel rispetto dei criteri di pertinenza, adeguatezza e limitazione dei dati (art. 5, par. 1, lett. c) e art. 6, par. 1, lett. e), RGPD), il sistema di videosorveglianza adottato è configurato in modo da ridurre al minimo la raccolta e la registrazione di dati personali o identificativi. È previsto l'impiego di modalità che consentano l'identificazione dell'interessato solo in caso di stretta necessità, privilegiando, ove possibile, l'utilizzo di dati anonimi.

3. **Principio di proporzionalità**

   Conformemente al principio di proporzionalità, la raccolta e l'uso delle immagini devono essere proporzionati agli scopi perseguiti. Nel determinare la necessità dell'installazione degli impianti, è stata effettuata una valutazione in merito al rischio concreto, evitando il monitoraggio di aree non esposte a pericoli reali o prive di esigenze effettive di deterrenza. Laddove si è proceduto all'installazione è stata finalizzata alla protezione di beni, anche in relazione ad atti di vandalismo, di danneggiamento o di furto, essa è avvenuta solo dopo aver constatato **l'inefficacia di misure alternative**, quali: presenza di personale addetto, sistemi di allarme, controllo degli accessi, barriere fisiche.

4. **Principio di finalità**

   Ai sensi dell'art. 5, par. 1, lett. b), RGPD, i dati personali devono essere raccolti per finalità determinate, esplicite e legittime. La videosorveglianza è stata dunque adottata come **misura complementare** per garantire e migliorare la sicurezza dell'ambito portuale, in conformità con quanto previsto dal **Regolamento (CE) n. 725/2004**, finalizzato a prevenire atti illeciti intenzionali (es. atti terroristici) e a tutelare aree dove si svolgono attività produttive, industriali, commerciali o di servizio, con particolare attenzione alle banchine e accosti utilizzati da navi adibite al Trasporto Pubblico Locale.

fonte: http://burc.regione.campania.it

5. **Principio di integrità e riservatezza**

   In applicazione del principio di integrità e riservatezza (art. 5, par. 1, lett. f), RGPD), il Titolare del trattamento adotta misure tecniche e organizzative adeguate per garantire la sicurezza dei dati trattati. Tali misure sono finalizzate a prevenire accessi non autorizzati, trattamenti illeciti, perdita, distruzione o danni accidentali dei dati personali raccolti mediante i sistemi di videosorveglianza.

6. **Principio di responsabilizzazione (accountability)**

   Ai sensi dell'art. 5, par. 2, RGPD, il Titolare del trattamento è tenuto a mettere in atto misure **efficaci e documentabili** per dimostrare la conformità al Regolamento. Tali misure devono considerare la natura, l'ambito di applicazione, il contesto e le finalità del trattamento, nel pieno rispetto dei diritti e delle libertà fondamentali delle persone fisiche.

Articolo 6 – Finalità

Obiettivi chiave:

- **Deterrente:** la presenza visibile delle telecamere ha un effetto preventivo su atti criminali di qualsiasi indole e natura (come furti, vandalismo, abbandono di rifiuti, etc), scoraggiando i malintenzionati.
- **Controllo dell'ambito portuale**: le telecamere aiutano a monitorare aree sensibili, come le banchine e le zone operative, i punti di rifornimento e di alaggio e varo unità navali, i cantieri navali, l'accesso veicolare alle zone operative delimitate da varchi elettronici, permettendo un controllo più capillare dell'area portuale.
- **Supporto investigativo**: le registrazioni forniscono prove preziose alle Forze di Polizia ed all'Autorità Giudiziaria per identificare i colpevoli e supportare le indagini ed i procedimenti giudiziari.

L'utilizzo dell'impianto di videosorveglianza è finalizzato, in particolare, a:

a) prevenire e reprimere atti illeciti di natura penale e/o amministrativa commessi nell'ambito portuale di Maiori, al fine di garantire maggiore sicurezza ai cittadini nell'ambito del più ampio concetto di "sicurezza urbana" di cui all'art. 4 del D. L. n. 14/2017;

b) prevenire e reprimere ogni tipo di illecito, di natura penale e/o amministrativa legato a fenomeni di degrado ambientale e urbano, nonché di sicurezza della navigazione in genere e sicurezza stradale;

c) tutelare gli operatori di Polizia Giudiziaria, nell'ambito di operazioni e accertamenti svolti nell'esercizio delle proprie funzioni;

d) tutelare gli immobili di proprietà o in gestione dell'Amministrazione Comunale e del patrimonio pubblico in generale contro eventuali atti di vandalismo o danneggiamento;

e) prevenire, accertare e perseguire reati o procedere a esecuzioni di sanzioni penali;

f) arresto in flagranza differito (nei casi consentiti dalla Legge);

g) tutelare danneggiamenti semplici o aggravati di cose esposte alla pubblica fede (su richiesta motivata o querela sporta dalla persona offesa);

fonte: http://burc.regione.campania.it

h) monitorare e controllare il traffico passeggeri, cantieristico, diportistico e le operazioni portuali (alaggio e varo, bunkeraggio);

j) rilevare e controllare i veicoli in transito nelle zone operative dotate di sistemi specifici in grado di consentire l'accesso ai veicoli autorizzati (c.d. "varchi elettronici"), nonchè di rilevare la targa (c.d. "telecamere al lettura ottica della targa");

k) attivare procedure inerenti protocolli di Protezione Civile in caso di emergenze, calamità naturali o situazioni di pericolo per la pubblica incolumità;

I sistemi di videosorveglianza di cui al presente regolamento, non possono essere impiegati per l'accertamento differito e la notificazione di sanzioni per violazioni amministrative alle norme del Codice della Strada, al di fuori dei casi espressamente consentiti dallo stesso CDS (art. 201). È in ogni caso consentito l'utilizzo dei sistemi di videosorveglianza e delle registrazioni, nell'ambito dell'accertamento di violazioni amministrative a norma dell'articolo 13 della Legge 24 Novembre 1981, N. 689.

Articolo 7– Informativa

Gli interessati saranno informati che stanno per accedere o che si trovano in una zona videosorvegliata e dell'eventuale relativa registrazione, mediante un modello semplificato di informativa "breve", ovvero cartelli informativi posizionati agli ingressi e nelle varie zone dell'area portuale. Una prima informazione, quindi, è costituita dalla cartellonistica, che deve essere ben visibile immediatamente prima che l'Interessato possa accedere nell'area videosorvegliata. Qualora la videocamera effettui anche riprese notturne, il cartello deve essere visibile anche di notte. L'informativa breve deve essere collocata nelle immediate vicinanze dei luoghi ripresi, deve avere un formato ed una dimensione che ne permetta un'agevole leggibilità e un posizionamento tale da essere chiaramente visibile agli interessati. L'informativa breve deve identificare il Titolare del trattamento e specificare le finalità della sorveglianza. Il Titolare del trattamento comunicherà agli interessati in ambito portuale l'attivazione del sistema di videosorveglianza e il conseguente avvio del trattamento dei dati personali, l'eventuale incremento dimensionale degli impianti e l'eventuale successiva cessazione per qualsiasi causa del trattamento medesimo, mediante l'affissione di appositi manifesti informativi e/o altri mezzi di diffusione locale.

Il Titolare del trattamento nomina l'Ufficio Locale Marittimo del Porto di Maiori, Responsabile del trattamento dei dati personali effettuato nell'esecuzione del Contratto ai sensi dell'art. 28 del Regolamento.

A tale riguardo il Responsabile del trattamento, sottoscrivendo il presente atto:

- conferma la sua diretta e approfondita conoscenza degli obblighi che si assume in relazione a quanto disposto dal Regolamento (UE) 2016/679 "GDPR", dalle Direttive europee nonché dai provvedimenti e normative sopra richiamate e, più in generale, dalle Norme in materia di protezione dei dati personali;
- si obbliga a procedere al trattamento dei dati – esclusivamente per le finalità di cui all'articolo 5 - e comunque nei limiti delle funzioni ed attribuzioni che fanno capo all'A.M.
- sebbene tali finalità siano perseguite con sistemi di videosorveglianza, le stesse non sono oggetto di monitoraggio h24 da parte del personale della sala operativa dell'Ufficio Locale Marittimo del Porto di Maiori;
- si attiene in materia di sicurezza dei dati, oltre che al rispetto della normativa vigente in materia di protezione dei dati personali anche, alle istruzioni di carattere generale nonché a ogni altra istruzione documentata concordata con il Titolare.

Il Titolare, eventualmente con apposita nomina ex art. 28 GDPR, può valutare di incaricare un fornitore per la realizzazione degli interventi di manutenzione ordinaria e straordinaria hardware e software, comprensiva degli interventi necessari su dispositivi di archiviazione e di gestione del sistema di

videosorveglianza, richiamandola al pieno rispetto di quanto previsto, in tema di trattamento dei dati personali, dalle vigenti disposizioni normative, ivi incluso il profilo della sicurezza. Tale azienda potrà accedere ai locali e ai supporti informatici di registrazione con le modalità individuate e concordate con il Responsabile del trattamento.

Articolo 10 – Incaricati del trattamento

Il Titolare o il Responsabile del trattamento può designare, mediante atto formale, soggetti autorizzati al trattamento dei dati personali (c.d. **Incaricati**), individuati tra il personale appositamente formato e istruito. Gli Incaricati operano sotto l'autorità diretta del Titolare o del Responsabile e trattano i dati personali attenendosi alle istruzioni impartite, nel rispetto del principio di riservatezza e delle misure tecniche e organizzative adottate.

Articolo 11 – Obblighi di riservatezza e formazione

Tutti i soggetti coinvolti nel trattamento dei dati personali sono tenuti al rispetto della **riservatezza** e al **segreto professionale**, anche dopo la cessazione del trattamento. Il Titolare assicura che i Responsabili e gli Incaricati del trattamento ricevano **adeguata formazione** in materia di protezione dei dati personali e siano informati circa i rischi e le responsabilità connessi all'uso dei sistemi di videosorveglianza.

Articolo 12 - Registro delle autorizzazioni

Il Titolare del trattamento conserva un **registro aggiornato delle designazioni** dei Responsabili e degli Incaricati del trattamento, indicante le relative mansioni e gli ambiti di operatività.

Articolo 13 – Trattamento e conservazione dei dati

I dati personali oggetto di trattamento sono:

a. trattati in modo lecito e secondo correttezza;
b. raccolti e registrati per le finalità di cui al presente regolamento e resi utilizzabili per operazioni non incompatibili con tali scopi;
c. monitorati, in tempo reale, dove sarà gestito e controllato il corretto funzionamento dell'impianto, presso la sala operativa dell'Autorità Marittima;
d. raccolti in modo pertinente, completo e non eccedente il rispetto delle finalità per le quali sono raccolti o successivamente trattati;
e. trattati con modalità volta a salvaguardare l'anonimato degli interessati;

f. conservati per un periodo non superiore a *sette giorni* successivi alla rilevazione, fatte salve speciali esigenze di ulteriore conservazione in caso di specifica richiesta, con finalità investigativa, inoltrata dall'Autorità Giudiziaria o dalla Polizia Giudiziaria. L'eventuale allungamento dei tempi di conservazione rivestirà carattere di eccezionalità in relazione a necessità cogenti imposte da un evento già accaduto o realmente incombente, oppure dalla necessità di consegnare una copia su specifica richiesta dell'Autorità Giudiziaria o della Polizia Giudiziaria in relazione ad attività investigative in corso.

Si precisa che in tutti i casi in cui si renda necessario procedere ad un allungamento dei tempi di conservazione per un periodo superiore alla settimana, occorre che una richiesta in tal senso sia sottoposta ad una verifica preliminare da parte del Titolare del trattamento. L'allungamento dei tempi di conservazione, oltre i termini previsti, deve in ogni caso ritenersi di carattere eccezionale, e ciò nel pieno rispetto del principio di proporzionalità.

Al trattamento dei dati attraverso sistemi di videosorveglianza e/o videocontrollo è applicato il principio di necessità (minimizzazione), come stabilito dal GDPR: qualsiasi trattamento non conforme a questo principio è da ritenersi illecito. Il sistema a supporto degli impianti di videosorveglianza e/o videocontrollo è conformato in modo da non utilizzare dati relativi a persone identificabili quando le finalità del trattamento possono essere realizzate impiegando solo dati anonimi. L'eventuale registrazione di dati personali non necessari deve essere cancellata ed i relativi supporti distrutti.
Il trattamento dei dati viene effettuato con strumenti elettronici, nel rispetto delle misure di sicurezza in conformità a quanto indicato all'art. 32 del Regolamento UE 679/2016 (GDPR). In particolare:
Il trattamento dei dati personali attraverso l'impiego di un sistema di videosorveglianza è equiparato al trattamento dei dati personali a mezzo di strumenti elettronici.

Tra le misure che il Titolare adotta o può adottare per tale trattamento, si segnalano:

- **Credenziali di autenticazione distinte per livello di accesso**
  In presenza di differenti competenze specificatamente attribuite ai singoli incaricati, devono essere configurati diversi livelli di accesso e trattamento delle immagini.
- **Abilitazione in base alla mansione**
  Se i sistemi di videosorveglianza prevedono la registrazione e la conservazione delle immagini, deve essere limitata la possibilità, per i soggetti abilitati, di prendere visione delle immagini stesse.
- **Cancellazione automatica**
  Il sistema deve prevedere la cancellazione in automatico delle immagini registrate mediante

sovrascrittura, rispettando le scadenze contenute nel presente regolamento.

- **Cautele nelle attività di manutenzione**
  L'accesso alle immagini è limitato ai casi ove si renda indispensabile compiere delle verifiche tecniche.
- **Protezione da accessi abusivi**
  Nel caso in cui il sistema di ripresa sia collegato a reti telematiche, trova applicazione il disposto di cui all'art. 615ter c.p.
- **Cifratura delle comunicazioni su reti pubbliche**
  La trasmissione tramite reti pubbliche di comunicazioni di immagini riprese da apparati di videosorveglianza deve essere effettuata previa applicazione di tecniche di crittografia che garantiscano la riservatezza.

È compito del Responsabile del trattamento e degli incaricati del trattamento alla gestione dell'impianto di videosorveglianza verificare il rispetto delle misure di sicurezza contenute nel presente regolamento e della normativa di settore e comunicare al Titolare del trattamento eventuali misure che si rendano necessarie per evitare il rischio di distruzione, perdita, anche accidentale, di accesso non autorizzato o trattamento non consentito o non conforme alle finalità della raccolta. Della adozione di tali misure di sicurezza sarà fatta menzione nella eventuale DPIA effettuata dal Titolare.

Il Titolare del trattamento, per il tramite del responsabile o degli incaricati del trattamento, deve costituire nell'apposito registro, o inserire un'apposita sezione per il trattamento dei dati della videosorveglianza nel registro dei trattamenti preesistente, per la disciplina di questo trattamento, delineato dal GDPR.

La valutazione di impatto si configura come un'autonoma valutazione che il Titolare del trattamento pone in essere per analizzare la necessità, la proporzionalità e i rischi di un determinato trattamento dati per i diritti e le libertà delle persone fisiche. Tale valutazione deve essere effettuata per tutti i trattamenti in materia di videosorveglianza che possono comportare tale livello di rischio e, in particolar modo, deve essere effettuata secondo il GDPR in caso di sorveglianza sistematica su larga scala di una zona accessibile al pubblico. Per determinare se un trattamento è svolto su "larga scala" si deve far riferimento al numero degli interessati, al volume di dati e/o alle tipologie di dati, alla durata dell'attività di trattamento e all'ambito geografico dell'attività di trattamento.

Articolo 14 – Modalità di raccolta dei dati

I dati personali sono raccolti attraverso riprese video effettuate da telecamere a circuito chiuso installate in corrispondenza delle principali banchine, piazzali ed immobili appartenenti al demanio marittimo portuale ubicati nell'ambito portuale, nonché in corrispondenza del perimetro delle aree portuali. Le telecamere consentono riprese video a colori o in bianco/nero. Esse possono essere dotate di brandeggio, zoom ottico programmati e lettore targhe e sono collegate ad un centro di gestione ed archiviazione che consente di registrare le immagini esclusivamente per il perseguimento dei fini istituzionali.
I segnali video delle unità di ripresa saranno raccolti presso la centrale operativa di controllo dell'Ufficio Locale Marittimo del Porto di Maiori. In questa sede le immagini saranno visualizzate in tempo reale su monitor e registrate in digitale su hard disk - DVR.
Le immagini videoregistrate sono conservate per il periodo programmato ed al termine del periodo stabilito, il sistema di videoregistrazione provvede, in automatico, alla loro cancellazione mediante sovra-registrazione, con modalità tali da rendere non utilizzabili i dati cancellati.
Le immagini videoregistrate possono essere visionate dagli operatori della centrale operativa o Autorità Giudiziaria che ne facciano richiesta scritta registrando l'accesso su apposito registro, predisposto dall'ufficio competente e custodito dagli operatori stessi, mentre possono essere estrapolate e consegnate esclusivamente alle Forze di Polizia o Autorità Giudiziaria a seguito di apposita richiesta scritta.
Nel caso in cui i rappresentanti delle suddette Forze di Polizia si presentino in Sala di Videosorveglianza per la mera visualizzazione delle immagini, l'addetto in centrale è tenuto ad avvisare il responsabile del trattamento per preventivo N.O all'accesso, nonché ad annotare nel registro il nominativo del richiedente con indicazione del relativo Comando di appartenenza.
Esclusivamente per le casistiche sopra riportate, al fine di snellire le procedure amministrative, il Titolare del trattamento autorizza il Responsabile del trattamento al rilascio delle immagini, fermo restando l'annotazione negli appositi registri.

Articolo 15 - Obblighi degli operatori

L'utilizzo delle telecamere è consentito solo per la sorveglianza di quanto si svolge nelle aree comprese dell'ambito portuale di Maiori.
Fatti salvi i casi di richiesta degli interessati al trattamento dei dati registrati, questi ultimi possono essere riesaminati, nel limite del tempo ammesso per la conservazione di cui al precedente articolo, solo in caso di effettiva necessità e per esclusivo perseguimento delle finalità espresse.

La mancata osservanza degli obblighi di cui al presente articolo comporterà l'applicazione di sanzioni disciplinari ed amministrative e, ove previsto dalla vigente normativa, l'avvio degli eventuali procedimenti penali a carico del trasgressore.

E' vietato fotografare e/o filmare con cellulari o altro tipo di dispositivo elettronico direttamente le immagini trasmesse dai monitor della sala di videosorveglianza.

L'eventuale accesso a registrazioni riferite direttamente o indirettamente a terzi sarà oggetto di apposito bilanciamento degli interessi da parte del Titolare;
- i dati sono estratti a cura dell'Incaricato e possono essere comunicati direttamente al richiedente mediante la visione delle registrazioni e, se vi è richiesta, si provvede alla duplicazione di tali registrazioni su adeguato supporto;
- la visione e l'estrazione delle rilevazioni è gratuita per l'interessato; qualora, tuttavia, a seguito di questa operazione non risulti l'esistenza di dati che riguardano l'Interessato, potrà essergli addebitato un contributo spese, ai sensi del GDPR.

Articolo 17 - Cessazione del trattamento dei dati

In caso di cessazione, per qualsiasi causa, dell'attività di trattamento, i dati personali sono distrutti, oppure conservati per fini esclusivamente istituzionali.

Articolo 18 – Comunicazione

La comunicazione di dati personali ad altri soggetti pubblici è ammessa quando risulti comunque necessaria per lo svolgimento delle funzioni istituzionali e per gli scopi da una norma di legge.
